QuickVue® Chlamydia Test Kit

QuickVue Chlamydia is a lateral flow immunoassay intended for the rapid, qualitative detection of chlamydia directly from endocervical swab and cytology brush specimens. The test is intended for use as an aid in the presumptive diagnosis of chlamydial infection. Results are obtained in 12 minutes, or less. Has simple extraction procedure with just two reagents. After extraction, just add sample to the Test Cassette. Highly accurate in asymptomatic patient population. All components necessary to perform test are contained in the kit, including built-in Positive and Negative controls that confirm the test has performed properly. Room temperature storage with 9-month shelf life from date of manufacture.

0B006 25 test kit

QUIDEL®

QuickVue® iFOB Test Kits (immunochemical Fecal Occult Blood)

Immunochemical device intended for the qualitative detection of fecal occult blood. More sensitive than traditional guaiac-based methods. No dietary restrictions and requires only one specimen collection from patient. Analytical sensitivity: 50 ng hHb/mL buffer or 50 µg hHb/g feces, specific to human hemoglobin, POL analytical accuracy 98%. 20-test kit contains everything needed for testing. Specimen Collection Tube doubles as convenient/sanitary dispenser. Room temperature storage with up to 24-month shelf life from date of manufacture. Additional Patient Specimen Collection and Return Kits available separately. External kit controls (positive and negative) available separately. CLIA waived.

20194 20 test kit (complete kit)
20196 10 kits (Specimen Collection kit)

PURELL® Advanced Skin Nourishing Instant Hand Sanitizer Foam

PURELL® Advanced Skin Nourishing Instant Hand Sanitizer Foam provides advanced antimicrobial germ kill and this green certified formula meets EcoLogo™ hand sanitizer standard CCD-170 for environmental leadership and proven performance. PURELL Advanced is made from 100% naturally renewable ethanol, meeting the USDA BioPreferred program biobased content standards. Readily biodegradable non-aerosol foam formula provides broad-spectrum antimicrobial efficacy. With seven moisturizers for optimal skin conditioning, it's clinically proven to improve skin conditioning in 14 days. This PURELL Advanced formula is fragrance free, dye free and compatible with latex, nitrile and vinyl gloves, and CHG. Meets CDC and APIC recommendations.

Diagnostic Testing Solutions

Pregnancy

Rapid, one-step test for the qualitative detection of human chorionic gonadotropin (hCG).

Infectious Diseases

A rapid chromatographic immunoassay test for the qualitative detection of Strep A antigen from throat swab specimens. A rapid chromatographic immunoassay technology identifies heterophile antibodies in whole blood, serum or plasma to aid in the diagnosis of Infectious Mononucleosis.

Cancer Screening

Convenient and qualitative methods for detection of asymptomatic occult bleeding. Available in guaiac slide.

Gastrointestinal Disorders

A rapid test for the qualitative detection of IgG antibodies to *Helicobacter pylori* in whole blood, serum and plasma.

- P080095** *H. pylori* Test Device – Whole Blood/Serum/Plasma
Includes: 20 individually packaged devices, 20 disposable sample droppers, 20 disposable heparinized capillary tubes, 1 dispensing bulb, 1 sample buffer, 1 procedure card, 1 package insert. 20 tests per box
- P080021** Urine/Serum hCG Pregnancy Cassette Device
Includes: 25 individually packaged devices and droppers. 25 tests per box
- P080023** Urine hCG Pregnancy Test Strips
Includes: 20 Test Strips per canister, 5 canisters per box
- P080063** Urine hCG Pregnancy Cassette Device
Includes: 25 individually packaged devices and droppers. 25 tests per box
- P080033** Strep A Test-Throat Swab Kit
Includes: 25 test strips, 25 swabs, 25 extraction tubes, 1-10mL reagent A, 1-10mL reagent B, 1-1mL positive control, 1-1mL negative control, package insert, procedure card. 25 tests per box
- P080016** Infectious Mononucleosis Test Device
Includes: 20 individually packaged devices, 20 disposable sample droppers, 20 disposable heparinized capillary tubes, 1 dispensing bulb, 1 sample buffer, 1 procedure card, 1 package insert. 20 tests per box
- P080008** Fecal Occult Blood Patient Pack – Guaiac Slides
Includes: 100 Triple Slide Tests, 6 x 10mL Developers, Applicators, Foil-Lined U.S. Postal Service approved envelopes. 2 x 50 per box
- P080018** Fecal Occult Blood Lab Pack – Guaiac Slides
Includes: 100 Single Slides Tests, 2 x 10mL Developers, Applicators. 100 per box

ADView® 9000™

ADC's modular multiplatform provides blood pressure, temperature and SpO₂ in one complete diagnostic station!

The ADView® 9000™ includes automated blood pressure. Monitor measures systolic and diastolic pressure, pulse rate in about 30 seconds using the oscillometric method. Can be switched to manual mode to use auscultatory method.

- Modular design – start with BP module, then add thermometry and/or pulse oximetry as you need it.
- Temperature module uses Filac™ FasTemp™ technology, which provides oral or axillary temperature in about 10 seconds. Built in storage well holds probe and 20 disposable probe covers.
- SpO₂ module features industry leading Nellcor compatible technology for accurate readings also in about 10 seconds.
- EMR (electronic medical records) with Bluetooth® connectivity available as an option.

Three Platforms available – wall, tabletop, or mobile.

9000BPSTO Blood Pressure Device with Temperature, SpO₂ and Rechargeable Battery

ADSCOPE™ 603

The 603 features combination adult size chest piece precisely machined to exacting tolerances from surgical stainless steel for outstanding performance and rugged durability. Extra large bell for unsurpassed low frequency response. The ultra-sensitive diaphragm provides greater amplification and crisper high frequency response. Color coordinated non-chill bell and diaphragm retaining rim for patient comfort. Stainless steel binaurals with double leaf internal spring fixed at 15° angle for greater comfort. Reinforcing yoke molded into flexible 22" PVC "Y" tubing. Two pair of Adsoft™ deluxe PVC eartips (small and large) for the ultimate in comfort and acoustic seal is provided. Available in 22 striking colors including an all-black "stealth" model. Spare diaphragm and Scope ID Tag are included. Lifetime Warranty.

AMERICAN DIAGNOSTIC CORPORATION

Chemstrip® 10 MD Starter Kit

Say goodbye to vitamin C worries.¹ Chemstrip urine test strips let you test with confidence. The Urisys 1100® urine analyzer from Roche uses Chemstrip 10 MD urine test strips with patented technology and an iodate-impregnated mesh layer to virtually eliminate vitamin C interferences.² And the CLIA-waived analyzer's simple one-button operation helps make testing easy, fast and accurate.¹ And now there's an easy way to get started with more confident urine testing, thanks to a special starter kit from Roche.

03260763602

Urisys 1100 10 MD 6-Box Starter Kit

Includes: 1 Urisys 1100 Urine Analyzer, 6 vials Chemstrip 10 MD Urine Test Strips, 1 vial Calibration Strips, Operator's Manual, Training CD, Quick Reference Guide & Set-Up Instructions

1. See User Manual and package insert for details and specific claims.

2. Chemstrip 10 MD Urine Test Strips package insert, Indianapolis, Indiana. Roche Diagnostics Corporation, 2007.

Roche

Accutrend® Plus System

CLIA-waived and easy to use, the Accutrend Plus system from Roche makes cholesterol screening and blood glucose testing a simple part of any office visit or community health screening program. Strips can be conveniently stored at room temperature and can be dosed outside the meter, which helps prevent cross-contamination and makes the system ideal for community health screenings. Positive identification of strip lot and code parameters helps ensure accurate results and proper system performance. Meter stores up to 100 results for each test parameter.

05896703001

Accutrend Plus 6-Box Starter Kit

Includes: 1 Accutrend Plus Meter Kit, 6 boxes Accutrend Cholesterol Strips (25/box), 1 box Accutrend Cholesterol Controls

Accutrend Plus 12-Box Starter Kit

Includes: 1 Accutrend Plus Meter Kit, 12 boxes Accutrend Cholesterol strips (25/box), 1 box Accutrend Cholesterol Controls

High-Frequency Desiccator

The Aaron 940™, Bovie's forty watt High-Frequency Desiccator (0-10 watts in 1/10th watt increments on mono and bipolar), allows doctors to change power settings in one step, using the rotary dial or the up/down buttons on the autoclavable handpiece. If you need to use a foot control, just plug it in. There's no need for a separate handpiece and you can still control the power setting from the handpiece while using the foot control. This generator has digital error detection & continually monitors every aspect of the A940's output.

A940

High-Frequency Desiccator

Includes: Universal Power Supply, 110 VAC Hospital-grade power cord, 220 VAC Hospital-grade power cord, one autoclavable handpiece, 50 non-sterile disposable sharp dermal tips, 50 non-sterile disposable blunt dermal tips, wall mount kit, and a user's guide.

Bovie

ZOLL AED Plus

The AED Plus is the first and only Full-Rescue automated external defibrillator (AED) that helps with both defibrillation and CPR. ZOLL's Real CPR Help® technology provides real-time feedback on both rate and depth of chest compressions during CPR. This ensures that the rescuer is providing the best manual CPR possible during a rescue, giving the victim a better chance of survival. This technology, being the first of its kind, is what makes the AED Plus the only AED that will help make a difference during an SCA rescue.

ZOLL AED Plus

ZOLL

Growth Charts

Medical staff can track their patient's progress on these color-coded growth charts. The upper and lower ranges of normal growth are clearly marked and highlighted with contrasting shaded areas, making any deviations from the norm easy to spot.

Printed on heavy paper, these growth charts resist tearing and ripping year after year. Sold in packs of 100 sheets.

DSACC02	Boys Growth Charts (Birth - 36 months)
DSACC04	Girls Growth Charts (Birth - 36 months)
DSACC06	Boys Growth Charts (2 - 20 Years)
DSACC08	Girls Growth Charts (2 - 20 Years)

Head Circumference Measuring Tape

Quick, easy, and accurate measurement of head circumference and face symmetry is possible with this stretch-proof Teflon measuring tape. This diagnostic tool measures up to 23" in 1/8" increments with the metric equivalent on each side of the tape. Measurements can be documented on Doran's Growth Charts. Sold in a dispenser box containing 15 tapes.

DSACC10	Head Circumference Measuring Tape
----------------	-----------------------------------

DS4200 Portable Infant Scale with Seat

The Model DS4200 offers all the features of the Model DS4100 Infant Scale with the additional feature of a molded plastic infant seat. For maximum infant safety, the seat is permanently mounted to the scale. The seat can be adjusted to face either right or left so that it can allow easy access to the infant chair in any office configuration. With 0.2 oz (5 g) accuracy, medical staff will now be able to accurately track even the smallest weight changes. The weight is quickly locked-on and displayed with the Weight Lock technology. A beep signals the weight has been locked-on allowing attention to be focused on the patient, rather than the weight display. The reweigh feature allows the infant to be weighed again without removing the baby from the scale. Pressing the KG or LB buttons quickly changes weight units between pounds:ounces and kilograms. 45 lb maximum capacity. Four AA batteries (included). Two year battery life. Three year warranty.

DS4200	Portable Infant Scale with Seat, Capacity: 45 lbs/20 kg, Platform: 25" L x 11" W

*Trusted Clinical Solutions**

Fluidshield™ Procedure Mask

This FLUIDSHIELD™ Procedure Mask offers the protection of patented LONCET™ breathable film, which helps protect healthcare workers against exposure to blood and body fluids. Breathable film and resists fluid penetration. Non sterile.

00148 Procedure Mask, Blue, 40/bx

Child Face Mask

Designed specifically to fit small faces, ages 3 and up. The lightweight materials provide a cool, comfortable fit. Natural rubber, latex free. Features colorful, DISNEY® character designs on outer facing.

47127 Face Mask, Child, 75/bx

Pain Ease®

A topical anesthetic skin refrigerant spray that is used for pain management before minor needle stick procedures and minor surgical procedures. A simple, easy to use product that needs no preparation, planning ahead or waiting time for it to work. Its effect is immediate. Rapidly drops the temperature of the skin. Can be used in facilities that restrict the use of flammable components.

0386-0008-03 Medium Stream, 3½ oz Aerosol Can

Ethyl Chloride®

A proven topical anesthetic skin refrigerant available in easy-to-spray aerosol cans or the familiar brown glass bottles. No prescription to write for each patient. No messy cream. No "placement diagram" to prepare and explain to each parent. No waiting. Spray for several seconds immediately prior to injection, vaccination, allergy shot, venipuncture, IV placement, and minor surgical procedure such as incision and drainage of small abscesses. Also helps to control pain of bruises, contusions, swelling and minor sprains. Temporary numbing lasts up to one minute.

0386-0001-03 Medium Jetstream Spray, 3½ fl oz, Plastisol Coated Amber Glass Bottle

Gebauer Company

3M™ Scotchcast™ Conformable Roll Splint

A cut-to-length, fiberglass splinting material that is packaged in an easy-to-use, easy-to-seal system. The splinting material is made of layered fiberglass and is pre-padded with our patented water-repellent felt. Covered on one side by an air and moisture permeable non-woven fabric and on the other side by polypropylene felt, which serve as padding. The felt is hypoallergenic, water repellent, and absorbs 60% less water than other splints, which means less water against the patient's skin. This splint is packaged in a unique, self-sealing system that minimizes waste, enhances productivity and gives the clinician the ability to cut the splint to the length needed. Exposure of the splints to moisture or water initiates a chemical reaction that causes the splints to become rigid. A finished splint is lightweight, strong, and more radiolucent than plaster. 1 roll/box.

73002	2" x 15 ft. roll (5cm x 457cm)
73003	3" x 15 ft. roll (7.5cm x 457cm)

Ritter M11 UltraClave® Automatic Sterilizer

The Ritter M11 UltraClave Automatic Sterilizer provides an intuitive display and simple prompts that help you easily select the cycle you need – whether it is for unwrapped items, pouches, packs or handpieces. Once the sterilization process is complete, the door conveniently opens automatically and quietly to dissipate the steam and provide fast and efficient drying of your instruments.

- Fast and easy use for efficient instrument processing
- Reliability and effectiveness for infection control assurance
- Automatic opening door for efficient instrument drying

M11-022 Ritter M11 UltraClave Automatic Sterilizer

OSOM® Trichomonas Rapid Test

The only CLIA-waived rapid test for the diagnosis of Trichomonas Vaginalis. More sensitive than wet mount, this easy to use dipstick provides objective results in 10 minutes, with less than 1 minute hands on time. Antigen based, the OSOM results are not dependent upon organism motility or visualization under a microscope. Wet mount microscopy has a reported sensitivity of 58% versus culture. The OSOM test provides accurate results from a vaginal swab with a sensitivity of 83% versus culture and wet mount combined. Room temperature storage; 16 month shelf life. Controls included. Online training anytime at osomtraining.com.

181 OSOM® Trichomonas Rapid Test, 25 tests/kit

OSOM® BVBLUE® Test

The OSOM® BVBLUE® Test detects elevated vaginal fluid sialidase activity, an enzyme produced by bacterial pathogens associated with Bacterial Vaginosis including Gardnerella, Bacteroides, Prevotella and Mobilincus.

183 OSOM® BVBLUE® Test, 25 tests/kit

SEKISUI

DiaScreen® 50 Urine Analyzer

The DiaScreen® 50 provides instrument read results that eliminate color interpretation variability between operators. An easy-to-read printout saves time and minimizes transcription errors. Patient identification may be entered with the keypad, barcode reader, or keyboard.

The DiaScreen® 50 tests urine specimens for the presence of leukocytes, specific gravity, urobilinogen, glucose, ketone, bilirubin, protein, nitrite, blood, and pH.

- CLIA waived in-office urine testing
- Eliminates color interpretation variability between operators
- Minimizes transcription errors with an easy-to-read printout
- Reduces hands-on time to 5 seconds
- Easy patient identification entry
- For use with the DiaScreen® Reagent Strips

D10000 DiaScreen® 50 Urine Analyzer

DiaScreen® Reagent Strips for Urinalysis

The DiaScreen® Reagent Strips for Urinalysis are a quick and easy screening tool for accurate UA's. They may be used visually or with the DiaScreen® 50 Urine Analyzer.

- Screening tool to reduce lab fees
- High quality test strips
- Manufactured in the USA
- Easy to read – pad spacing matches color chart
- Two visual read times
- Large selection of test strip configurations
- Correlates well with leading brands

SemperSure™ Nitrile Exam Gloves

SemperSure™ by Sempermed nitrile examination gloves are designed for those with skin sensitivities to regular nitrile gloves. SemperSure™ accelerator free gloves offer all the benefits of a nitrile glove, minus the sulfur-based chemical accelerators that cause Type I (latex) and Type IV (chemical) allergies. SemperSure™ is the one accelerator-free glove to meet the diverse user population. SemperSure™ is also tested and approved for use with chemotherapy drugs. Packed 200 to a box, resulting in less waste and less restocking.

CIDEX® OPA Solution

Glutaraldehyde-free, (0.55%) ortho-phthalaldehyde solution. Over 10,000 customers have safely used CIDEX® OPA Solution for more than 10 years. High-level disinfection in 5 minutes at 25° C in an automatic endoscope reprocessor (AER) or 12 minutes for manual disinfection. Unsurpassed material compatibility. Tested and cleared for use with the most widely used endoscopes. Safe for patients, healthcare professionals, and instruments and virtually odorless due to its low vapor pressure and requires no special ventilation. Up to 75 days usable life for the open bottle and 2-year shelf life for the closed bottle. Test strips available to verify minimum effective concentration. Use only CIDEX® OPA Solution Test Strips with CIDEX® OPA Solution.

DCA Vantage® Analyzer

The DCA Vantage® Analyzer is the diabetes system that delivers clinically proven and relevant HbA1c and Urine Microalbumin-to-Creatinine Ratio results proven to improve patient compliance. It is simple enough to use in your office lab, and yet powerful enough to deliver lab-quality performance. Other advantages:

- HbA1c and A:C Ratio tests in minutes
- CLIA-waived for HbA1c
- No reagent or sample preparation required
- Determine effectiveness of treatment plan
- Allows adjustment of treatment regimen during patient visit
- Monitor and detect kidney disease earlier
- Proven system used by three out of four physicians who perform in-office HbA1c
- Flexible result reporting: On-screen, printed record, or uploaded to LIS or EMR

Access High-Low Exam Table

The Brewer Access High-Low Exam Table is the industry's only chair to table design that safely takes patients from consultation to examination. The Brewer Access High-Low Exam Table makes exams easier for all patients, regardless of physical condition. Safety steel core grab bars provide comfort and security for patients and the 18" low table height makes wheelchair transfers easier on both the patient and the clinical staff. The Brewer Access High-Low Exam Table offers abundant storage capacity with Brewer's signature pass-through drawer system. A pass-through work surface, 450 lb. weight capacity, and safety release actuators are just a few more of the unique features you won't find anywhere else.

WelchAllyn®

Ear Wash System

Turn cerumen removal into a clean, quick, safe procedure with the first system to simultaneously irrigate and suction discharge using Hydrovac Action.

- Eliminates messy outflow by automatically dislodging, removing and disposing of cerumen
- Transparent tip seals tightly and directs outflow back to sink and away from you and your patient
- You control and monitor suction, water temperature and pressure
- Safe – reduces typical side effects like vertigo, nausea and tympanic membrane damage

29350 Ear Wash System

WelchAllyn®

KleenSpec® Disposable Vaginal Specula System

- Cordless and rechargeable – no cord to get in the way or break during procedures, continuous on time of 80 minutes, recharge time of six hours with lithium ion battery technology.
- Advanced LED light source provides better visualization of the exam area by supplying brighter, whiter light, right where it is needed.
- New wider handle provides improved ergonomics, better balance, and it is much easier to manipulate during exams.
- Newly designed light pipe provides a homogeneous spot and eliminates glare back-all of the light is projected forward right where you need it.
- Smooth, molded acrylic will not pinch or bind tissue for greater patient comfort during the exam.
- Disposable specula eliminates the time and expense of reprocessing and reduces the chance of cross-contamination.
