USER MANUAL

IMPORTANT !

WARRANTY INFORMATION INSIDE. PLEASE READ

TEAC WARRANTY REGISTRATION

Please read this warranty card.
Keep your purchase receipt to enable you to proceed quickly in the event of a Warranty Service.

Warranty Terms & Conditions

1. TEAC warrants to the original retail purchaser only, that this product is free from defects in material and workmanship under normal domestic use and authorises free service during the warranty period at any TEAC Authorised Service Centre only. TEAC warranty only applies to products purchased, used and serviced in Australia.

2. Subject to the terms herein, this warranty effectively covers the equipment as specified in the Warranty Periods Table below from the date of purchase.

TEAC PRODUCT	WARRANTY PERIOD
Plasma TV 106 cm and above	1 Year (In-Home Service/ Pick up Available)*
LCD Televisions 80 cm and above	1 Year (In-Home Service/Pick up Available)*
Televisions – 59cm and above	1 Year (In-Home Service/ Pick up Available)*
All Televisions under 59 cm	1 Year (No In-Home Service)
Digital Set Top Boxes & Module	1 Year (No In-Home Service)
VCR	1 Year (No In-Home Service)
DVD & Module	1 Year (No In-Home Service)
DVD Recorder & PVR Module	1 Year (No In-Home Service)
Audio Systems	1 Year (No In-Home Service)

3. In Home Service/Pick up* will only be provided as part of this warranty if all the following conditions are met;
    a) The product as indicated in the Warranty Period Table.
    b) The product is within the warranty period.
    c) The product is located within the normal service area of the local TEAC Authorised Service Centre.
    In any other situation or circumstance, where an In Home Service/Pick up* call is made, a service fee will be charged by the Service Provider including a travel fee if outside normal service area.

    If TEAC determines that the product is not repairable on site, TEAC can complete the repair by taking the product to a TEAC Authorised Service Centre.

    Where In-Home service/Pick up* is not available, the purchaser is required to send the product to the nearest TEAC Authorised Service Centre for repair. In this event, a copy of this warranty card and a copy of your receipt of purchase must be enclosed to be a valid warranty. Such equipment or part must be sent freight prepaid to your nearest TEAC Authorised Service Centre. After the repair, the product will be available for collection by or return to the purchaser at purchaser's cost. The warranty does not cover freight or insurance. In all cases of transit damage or lost, a claim must be filed against the carrier by the purchaser, even if shipment is arranged by TEAC. TEAC in-home service may also be available at a fee upon request.

4. Accessories, Remote, including power adaptors, AV box, TV tuners, etc, are warranted to be defect free for 1 year.

5. Replacement of spare parts under normal usage; except cabinet, front panel, knob, removable accessories, battery, consumable, AC cord, connecting cord and other accessories, are warranted as specified in Warranty Periods Table, and will be repaired or replaced at the sole judgement of TEAC.

6. The warranties hereby conferred do not extend to, and exclude, any cost associated with the installation, de-installation or re-installation of a product (be it in-home or otherwise), including costs related to the mounting, demounting or remounting of any screen, (and any other ancillary activities), delivery, handling, freighting, transportation or insurance of the product or any part thereof or replacement of and do not extend to, and exclude, any damage or loss occurring by reason of, during, associated with, or related to such installation, de-installation, re-installation or transit.

7. Normal customer maintenance as described in the owner's manual is not covered by this warranty (such as cleaning VCR heads etc.)

8. Service will be provided only during normal business hours and under safety conditions and circumstances.

9. This warranty does not apply to equipment showing abuse, damage or that it may have been tampered with, altered or repaired outside any TEAC Authorised Service Centre. If so, the warranty will be void.
*Your nearest Authorised TEAC Service Centre is listed in your Owner's Manual, please refer to TEAC website for up to date list.

10. No one is authorised to assume any liability on behalf of TEAC or impose any obligation on it, in connection with the sale of any equipment other than as stated in this warranty and outlined above.

11. In no event will TEAC be responsible or liable for indirect or consequential damages from interrupted operations or other causes.

12. Warranty is not transferable to any subsequent purchaser if the product is sold during the warranty period.

13. LCD dead pixel policy, please contact TEAC Customer Care Centre on 1800 656 700 for assistance.

** Extended promotional warranty may apply to certain products (for more info please contact: service@teac.com.au)
 In home service administration fee is applied after 1ˢᵗ year of warranty.*

Important Safety Instructions

CAUTION

RISK OF ELECTRIC SHOCK
DO NOT OPEN

This symbol indicates that dangerous voltage instituting a risk of electric shock is present within this unit.

This symbol indicates that there are important operation and maintenance instructions in the literature accompanying the appliance.

CLASS1
LASER PRODUCT

Caution: Laser radiation when open.
Do not stare into beam.

Caution: use of any controls, adjustments, or procedures other than those specified herein may result in hazardous radiation exposure.

Caution

1. The product contains a low-power device. In order to ensure the safety of the laser device, do not remove any cover and attempt to repair the unit. If any service is needed, please contact the distributor or its authorised service centre.
2. To reduce the risk of electric shock, do not remove the cover (back). No user-serviceable parts inside. Refer servicing to qualified service personnel. Unplug the product from the wall outlet before servicing or when it is unused for a long period of time.
3. The manufacturer will not be held responsible for the damage caused by any substitutions and modification of the product without authorisation from the manufacturer's or authorised service agent.

WARNING

The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

✧ *The illustrations in this manual serve mainly as a reference and may differ slightly from you device.*

Important Safety Instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Maintain well ventilated conditions around the product. Do not put product on a bed, sofa or anything that blocks ventilation. Install according to the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat.
9. Read, heed and follow all instructions to ensure correct and safe installation and interconnection of the apparatus;
10. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
11. The mains socket-outlet shall be installed near the apparatus and the mains plug shall remain readily operable.
12. Protect the power cord from being walked on or pinched particularly at plugs, power sockets, and the point where they exit from the apparatus.
13. Only use attachments/accessories specified by the manufacturer.
14. Use only with the stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus.
15. Unplug the apparatus during lightning storms or when unused for long periods of time.
16. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
17. The apparatus shall be connected to a mains socket outlet with a protective earthing connection.

> **IMPORTANT FOR LASER PRODUCTS**
> 1. **CLASS 1 LASER PRODUCT**
> 2. **DANGER:** Visible laser radiation when open and interlock failed or defeated. Avoid direct exposure to beam.
> 3. **CAUTION:** Do not open the back cover. There are no user serviceable parts inside the unit. Leave all servicing to qualified service personnel.

Note: Do not touch the color TFT LCD screen directly by hand.

Copyright Protection

Special Feature of DVD Module

Your TV comes equipped with a removable DVD module. Please follow the procedures below to remove or install the DVD module.

Note:

Before removing or installing the DVD module, ensure that the television is unplugged and turned off.

DVD module removal:

Refer to the illustration below and follow the procedures below to remove the DVD module from the unit:

1. Loosen the screw on the DVD module.
2. Carefully slide the DVD module along the rails and unplug the connecting cord from the LCD TV.
3. Slide the DVD module along the rails to fully remove the DVD module.
DVD module installation:

1. Plug the connecting cord into the DVD module.
2. Carefully slide the module into the desired position and lock the function module with one screw.

Disc Information

Discs Supported

	DISC LOGO	CONTENTS	SIZE	MAXIMUM TIME
DVD	DVD VIDEO	Audio + Video (active picture)	12cm	133min(SS-SL) 242min(SS-DL) 266min(DS-SL) 484min(DS-DL)
CD	COMPACT disc DIGITAL AUDIO	Audio	12cm	74min
JPEG		Still high resolution	12cm	
AVI		Audio + Video	12cm	

◇ The operating method of some DVD discs is specified by the software maker. Please refer to the instruction manual of the disc.

◇ The unit will play most recordable (CD-R) or erasable (CD-RW) CDs, but playback of CD-R or CD-RW discs created on a computer requires proper formatting and finalization of the disc for audio playback. Some computers and/or software programs may not be capable of creating compatible discs.

About Disc Terms

Title
Generally, pictures or music compressed on a DVD are divided into several sections, "title".
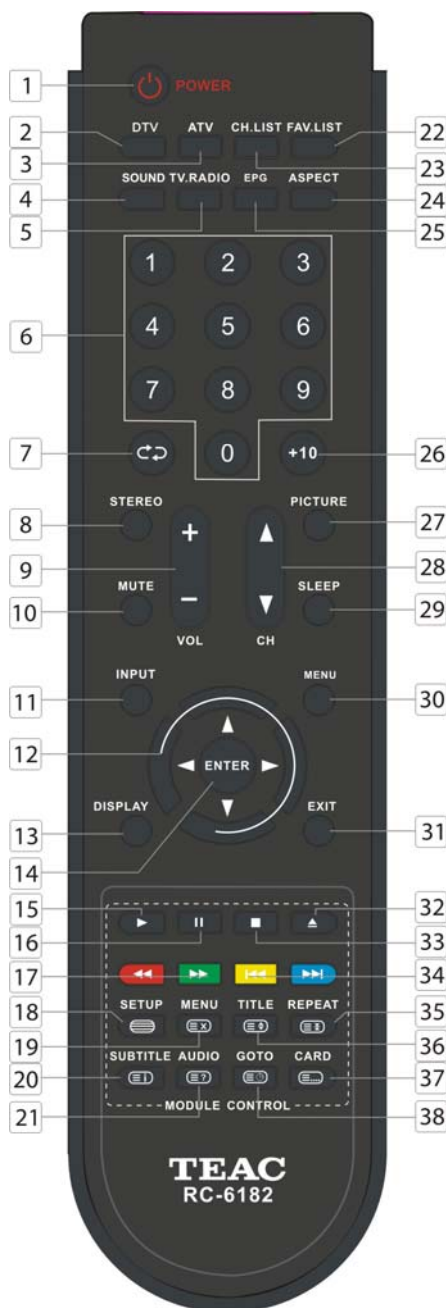

Chapter
The smaller section unit of pictures or music in a DVD under the title, usually one title is comprised of one or more chapters and each of them is numbered for easy searching. But some discs may not have a recording by chapter facility.

Track
A segment of picture or music on a CD. Each track is numbered for searching.

Remote Control

Remote Control Drawing

1. POWER button

Press to enter or exit standby mode.

2. DTV button

Press to enter DTV mode.

3. ATV button

Press to select ATV mode.

4. SOUND button

Press to select the screen picture mode: choose from Standard, User, Sports, Movie or Music.

5. TV.RADIO button

Press to select DTV program playback or Radio program playback in DTV mode.

6. 0~9 Number buttons

Press to select numbers such as TV channel.

7. ↻ button

In TV or DTV mode, press to return to the channel previously viewed.

8. STEREO button

Press to select sound track in TV mode.

9. VOL+/- button

Press to increase or decrease the volume.

10. MUTE button

Press to turn on or off the speaker output.

11. INPUT button

Press to select enter the source selecting menu, press the ▲▼ direction buttons or press the INPUT button repeatedly to select desired mode and press the ENTER button to enter the selected mode.

12. Direction buttons (▲▼◄►)

In the setup menu, press the ▲▼ button to select a desired item and press the ◄► button to adjust or set.

13. DISPLAY button

Press to display the reference information of the current mode.

14. ENTER button

Press to confirm your operation in setup menu.

Remote Control

15. ► PLAY button

Press to play a disc in DVD mode.

16. ‖ PAUSE button

In DVD mode, press to pause playback and again to resume.

17. ◄◄/►► buttons

Press to search backward or forward in DVD mode.

In Channel Edit menu, press the red button to delete a channel and use the green button to rename a channel (see P25-26 for details).

In teletext mode, they are the teletext color buttons.

18. SETUP button

In DVD mode press to enter the DVD setup menu.

In TV mode, press to display or close the teletext.

19. MENU button (under DVD mode)

Press to enter disc menu in DVD mode.

In teletext mode, press to disable teletext display for page updates and press again to resume.

20. SUBTITLE button

In DTV/DVD mode, press to select alternate subtitle languages during view/playback of a DTV program or multiple language DVD disc.

In teletext mode, press to display index page.

Note: Subtitle and teletext is only available if the service is provided by broadcaster.

21. AUDIO button

In DVD mode, press to select the audio language or audio track.

In teletext mode, press once to display the concealed information, such as solution of riddles or puzzles; press again to remove the riddles answers from the display.

22. FAV.LIST button

Press to display the favorite channel list.

In Channel Edit menu, press this button to set a favorite channel (see P25 for details).

23. CH.LIST button

Press to display the channel list.

24. ASPECT button

Press to shift the aspect ratio of the screen among 16:9, Zoom1, Zoom2, Auto and 4:3.

25. EPG button

Press to display the CHANNEL GUIDE menu in DTV mode.

26. +10 button

In DVD mode, press to select numbers greater than 9.

27. PICTURE button

Press repeatedly to select the picture mode: Standard, Dynamic, User or Mild.

28. CH ▲/▼ button

In TV or DTV mode, press to select analog channel or digital channel.

29. SLEEP button

Press the button repeatedly to select the desired time to sleep or select Off to close the function.

30. MENU button

Press to enter or exit the setup menu.

31. EXIT button

Press to exit all the OSD on the screen.

32. ▲ EJECT button

Press to eject the disc from the unit.

33. ■ STOP button

Press to stop disc playback in DVD mode.

34. ◄◄/►► buttons

Press to skip to the previous or next chapter/track in DVD mode.

In Channel Edit menu, press the yellow button to move a channel and use the blue button to skip a channel (see P26 for details).

In teletext mode, they are the teletext color buttons.

Remote Control

Remote Control Drawing

35. REPEAT button

Press to repeat a chapter, track, title or all program content in DVD mode.

In teletext mode, press to hold the current page and press again to resume.

36. TITLE button

During disc normal playback, press to go to display the title menu.

In teletext mode, press the button first time to double the size of teletext letters in the upper half of the screen, second to double the size of teletext letters in the lower half of the screen and third to resume normal status.

37. CARD button

Press to display the media selecting menu in DVD mode.

In teletext mode, press to select four groups of 3-digit numbers that are displayed in different colors at the bottom of the screen. Press the color buttons on the remote control to select, then use the number buttons to input the corresponding number to display the page.

Repeat the above procedures for each page to be stored, using a different color button each time.
38. GOTO button

Press to select the desired disc starting time, title or chapter in DVD mode.

In TV mode, press to display the real clock and press the EXIT button to exit.

Remote Control

Preparation of Remote Control

Softly push the back cover to open the battery compartment.

Insert two batteries (1.5V, size AAA), please make sure the polarity matches the marks inside the compartment.
Softly press the back cover to close it.
♦ Under normal use the battery will last for six months.
♦ Take out battery when the remote is not in use for a long time.

Using of Remote control

Point the remote control unit from no more than about 7 meters from the remote control sensor and within about 60 degrees of the front of the unit.
♦ The operating distance may vary depending on the brightness in the room.

Notes:
♦ Do not point bright lights directly at the remote control sensor.
♦ Do not place objects between the remote control unit and the remote control sensor.
♦ Do not use this remote control unit while simultaneously operating the remote control unit of any other equipment.

System Connections

✧ Do not connect the power cord until all other connections have been made.
✧ Ensure that you observe the color code when connecting audio and video cables.

Connecting to the Power Supply

Connect one end of the power sully cord to the power jack on the rear panel of the unit and the other end to the wall AC outlet, see the figure below.
Connecting to a TV Antenna

Connect TV signal input source from the aerial to the TV jack on the rear panel of the unit.
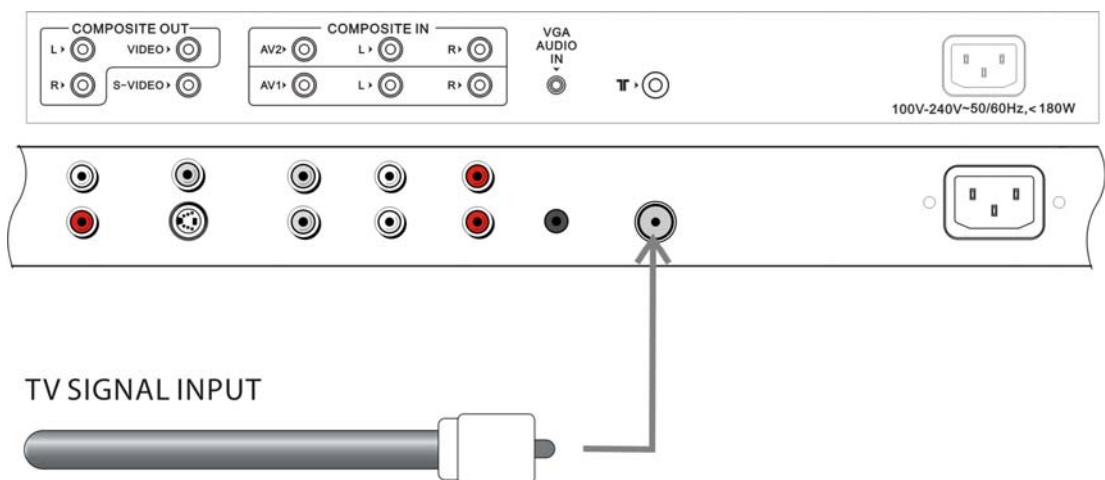

After connection, turn on the power of the unit. Then press the **INPUT** button and the direction buttons to select **TV** or **DTV** mode, press the **ENTER** button to confirm and conduct program selection.

System Connections

Connecting to an External AV Signal Source (AV1/S-Video)

Use the AV cables to connect the external AV signal source to the AV input jacks on the rear panel of the unit.

Use a S-VIDEO cable (not supplied) to connect the external AV signal source to the S-VIDEO input jack on the rear panel of the unit.
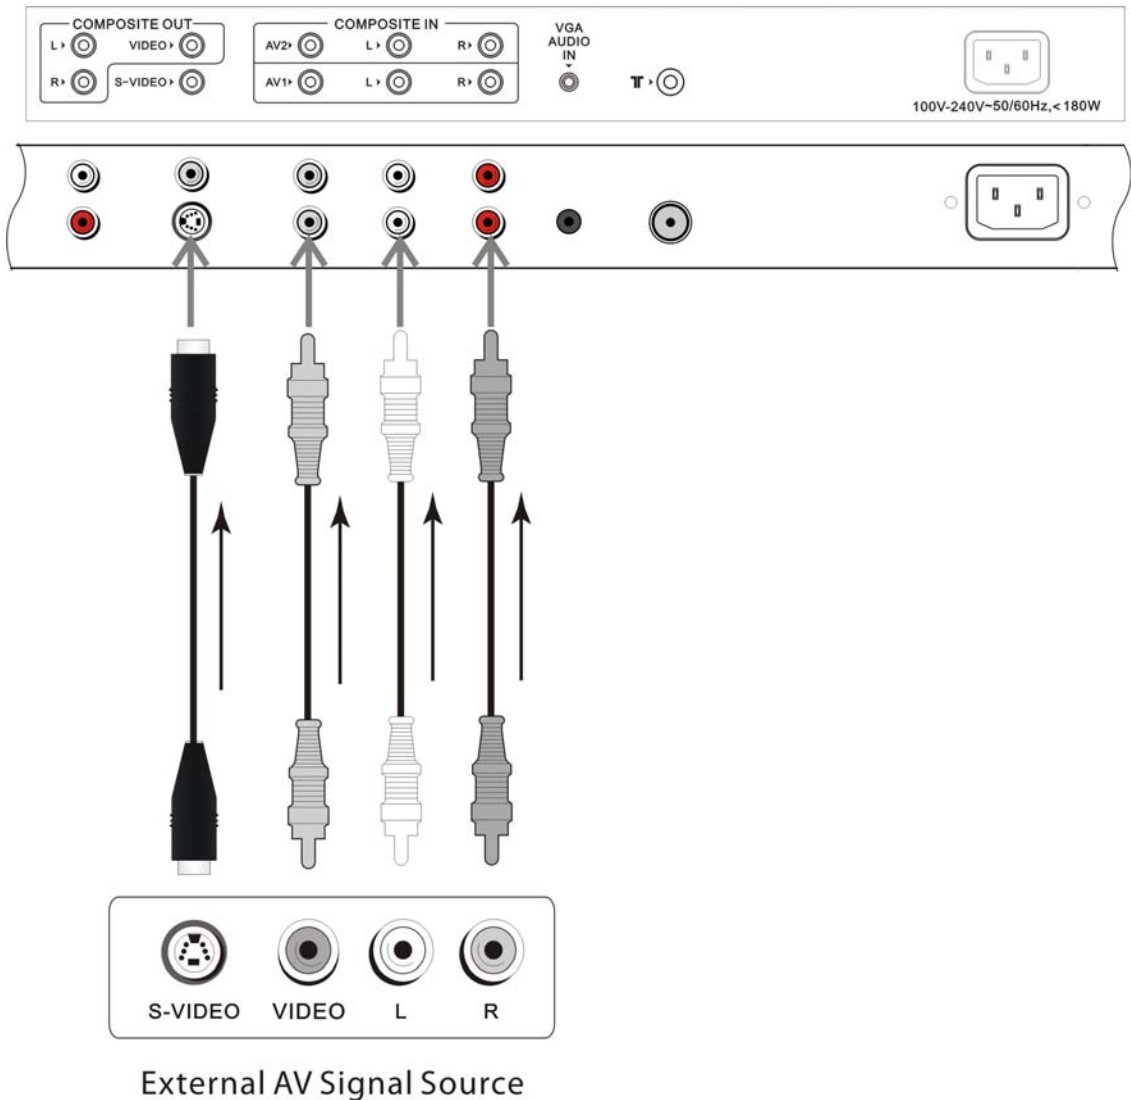

External AV Signal Source

After connection, turn on the power of the unit and the external AV signal source. Press **INPUT** then direction buttons to select **Composite 1** or **S-Video** mode, and then press the **ENTER** button to confirm.

✧ *The L/R audio input jacks can be used in both* **Composite 1** *and S-Video modes.*

System Connections

Connecting to an External AV Signal Source (AV2)

Use the AV cables to connect the external AV signal source to the AV input jacks on the rear panel of the unit.

External AV Signal Source

After connection, turn on the power of the unit and the external AV signal source. Press **INPUT** then direction buttons to select **Composite 2** mode, and then press the **ENTER** button to confirm.

System Connections

Connecting to an External AV Signal Source (YPbPr)

Use AV cables to connect an external AV signal source to the Y/Pb /Pr (Component) input jacks on the rear panel of the unit.

External AV Signal Source

After connection, turn on the power of the unit and the external AV signal source. Press **INPUT** then direction buttons to select **Component** mode, and then press the **ENTER** button to confirm.

System Connections

Connecting to an External AV Signal Source (HDMI)

Follow the figure below to connect an HDMI signal source to one of the HDMI jacks on the rear panel of the unit.

HDMI Output Device

After connection, turn on the power of the unit and the external AV signal source. Press **INPUT** then direction buttons to select **HDMI 1**, **HDMI 2** or **HDMI 3** mode, and then press the **ENTER** button to confirm.

✧ *HDMI provides both audio and video signals and typically provides superior image quality to Component, S-Video or Composite.*

System Connections

Connecting to an External Signal Source (AV Output)

Use the AV cables to connect the external AV input device to the AV output jacks on the rear panel of the unit.

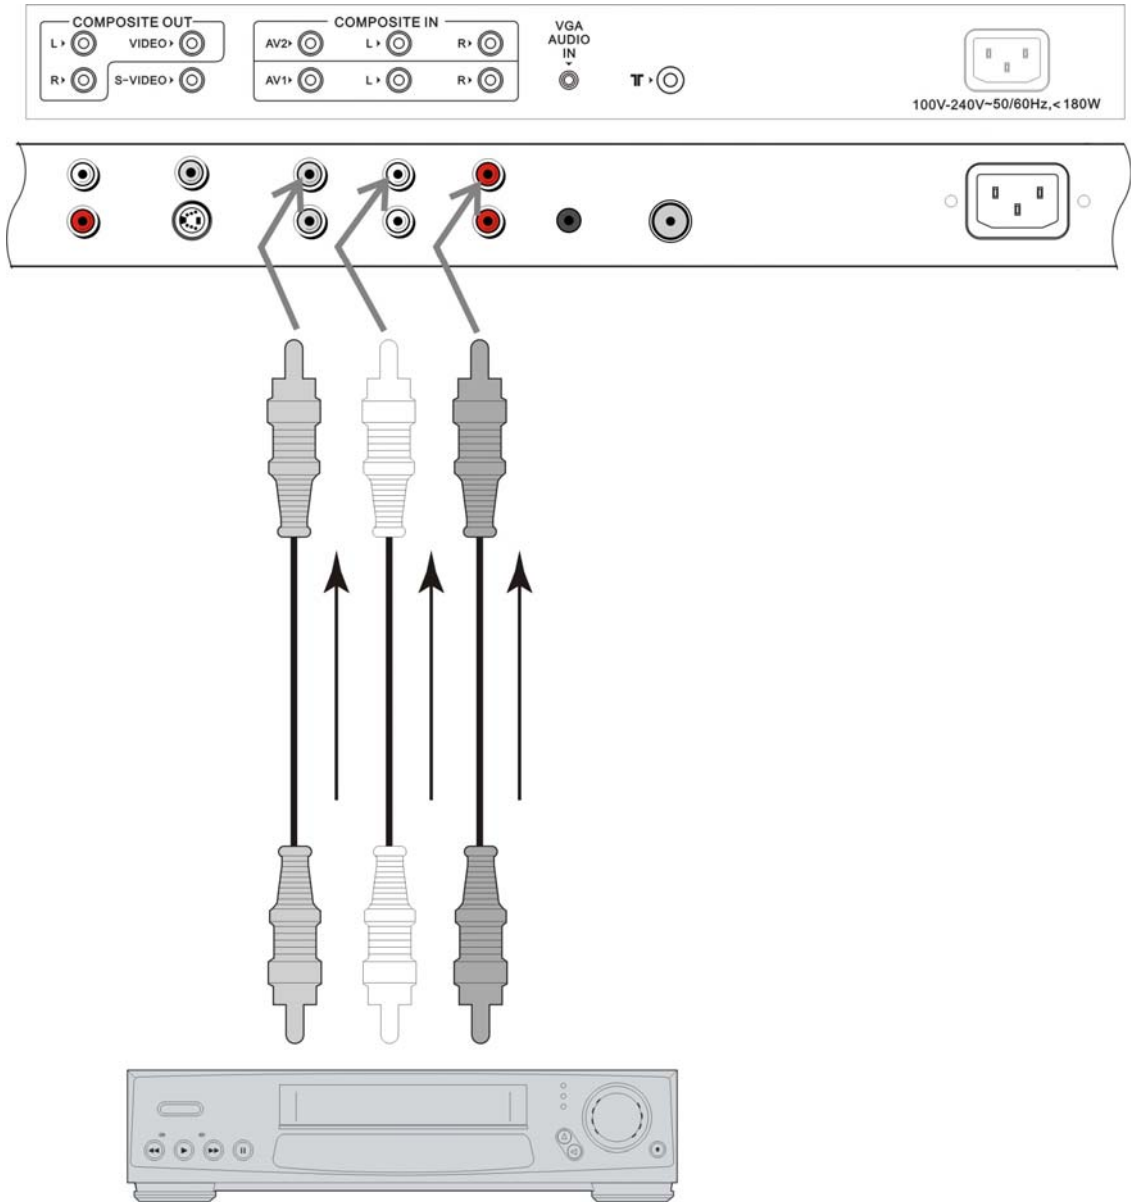

External AV Signal Source

After connection, turn on the power of the unit and the external AV signal source. Press **INPUT** then direction buttons to select the corresponding mode, and then press the **ENTER** button to confirm.

System Connections

Connecting a Coaxial Digital Output

This unit is designed with a coaxial digital audio jack, can be connected to the digital amplifier, see the figure below:
✧ **This feature is available only for amplifiers equipped with coaxial digital audio input connectors.**

System Connections

Connecting to a PC

Follow the steps and figure below to connect a PC to the unit.

1. Connect one end of the VGA cable to the VGA IN jack on the jack panel of the unit and the other end to the PC VGA output.
2. Connect one end of the audio cables to the VGA AUDIO IN jack on the jack panel of the unit and the other end to the PC audio output jack.
3. Set the PC video resolution to match that of the television (Native 1366 x 768@60Hz).
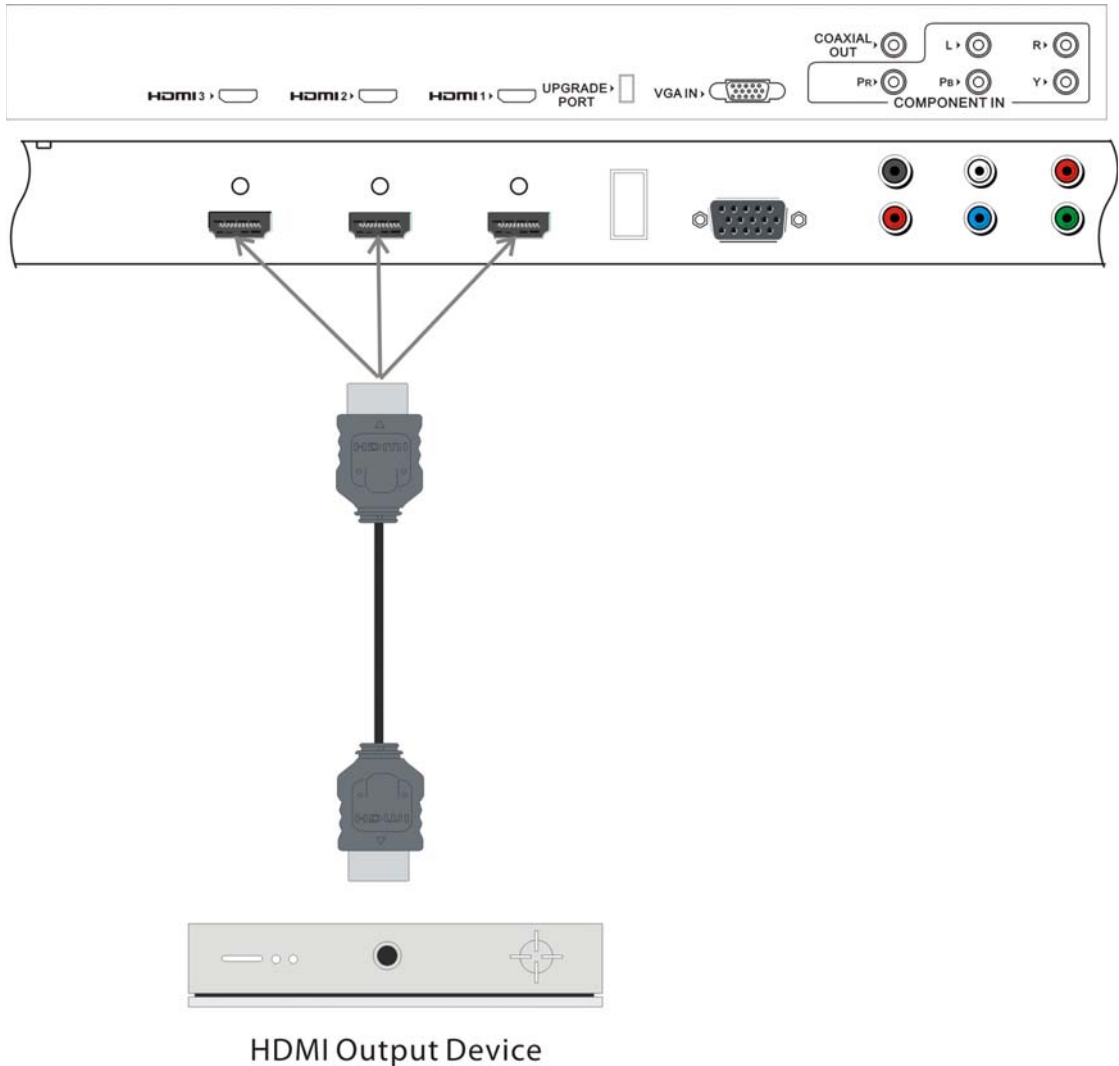

After connection, turn on the power of the unit and the external AV signal source. Press **INPUT** then direction buttons to select **VGA** mode, and then press the **ENTER** button to confirm.

System Connections

Connecting a USB Device for Upgrading

This unit is designed with a USB upgrade port, can be connected to the USB device for upgrading the software, see the figure below:
✧ **Make sure that Software file for upgrade is stored in the USB device before connection.**

Input Source Selecting

The unit incorporates multiple video modes which can be selected via the INPUT button on the unit or remote control.

Press the **INPUT** button to enter Input Source menu. The screen will display as shown below:

NOTE: In this menu, "TV" stands for "ATV" mode.

- ✧ **Use the ▲▼ direction buttons and ENTER button**
  On the input menu, press the ▲▼ direction button to select the desired video mode. After several seconds, you can enter the selected mode.
  Or after you selected the desired mode press the ENTER button to enter the selected mode immediately.

- ✧ **Use the INPUT button and ENTER button**
  On the input menu, press the INPUT button repeatedly to select the desired video mode. After several seconds, you can enter the selected mode.
  Or after you selected the desired mode press the ENTER button to enter the selected mode immediately.

TV Function

Preparations

1. After connection, press the **POWER** button to turn on the unit.
2. Press the **INPUT** button to select TV mode and you can then conduct the following operations:

Note: In other mode, you can refer to the following instructions in TV mode to go on with some settings.

Installation Guide

When you turn on the TV for the first time or after you reset all the settings to their original status, the Installation Guide page appears automatically. Please follow the instructions to finish the installation guide setup. It helps to quick set the language and get the channels.

✧ The Installation Guide menu shown on the right will be displayed on the screen.

✧ The Language option is highlighted and the default is English. You can select the desired OSD language you want by pressing the ◄► button.

✧ Press the ▼ button to highlight Auto Tuning option and press the ENTER or ► button to prompt a information box, as shown on the right:

✧ Press the ◄► button to select a desired country.

✧ Press the ▼ button to highlight Start and press the ENTER button to start auto searching the available channels. The menu on the right will be displayed on the screen to show the progress of the search for TV, DTV and Radio programs.

✧ During searching, press the MENU button to skip some range of available channels. Press the EXIT button to exit.

TV Function

If you did not use the unit for the first time or if your setup has changed, you can setup the unit from Channel Setup menu. Please follow the instructions below:

Channel Setting

Press the MENU button once to enter **CHANNEL** setup menu as shown on the right.
Press the ENTER or ► button to enter the menu.
In the **CHANNEL** setup menu, press the ▲ ▼ button to select the desired item.
Press the MENU button to return to the previous menu.
Press the EXIT button to exit.

Auto Tuning

Press the ▲ ▼ button to select **Auto Tuning** and press the ENTER or ► button, the screen will display as shown on the right:
Press the ◄► button to select desired country and press the ▼ button to highlight "Start".
To cancel auto tuning, press the ENTER button after highlight "Cancel" by pressing the ◄► button.

To start auto tuning, press the ENTER button after highlighting "Start". The screen will display as shown:
When auto tuning is over, all searched channels will be stored automatically and it will return to the first searched channel.
During searching, press the MENU button to skip some range of available channels. Press the EXIT button to exit.
Notes:

 ✦ Channel Tuning scans the analog channels, digital channels and Radio programs.
 ✦ Please allow a few minutes for this feature to scan the entire range of available channels to ensure accurate programming of available channels.

TV Function

DTV Manual Tuning

Press the ▲▼ button to select **DTV Manual Tuning** and press the
ENTER or ►button, the screen will display as shown on the right:
Press the ◄► button to select desired channel number and press
the ENTER button to start tuning.

ATV Manual Tuning

Press the ▲▼ button to select **ATV Manual Tuning** and press the
ENTER or ► button, the screen will display as shown on the right:
Within this menu, press the ▲▼ button to select desired item and

Other Notes:

Static or other external interference may cause the player to behave abnormally. If this occurs, unplug the power-supply cord from the outlet and plug it in again to reset the player. If the problems persist, then please disconnect the power and consult a qualified technician.

Specifications

Model	LCDV3255HD
Screen Size	32-inch TFT LCD TV
Native Resolution	1366×768 Pixels
Brightness	500 cd/m2
Contrast Ratio	2500 :1
Response time (ms)	6.5 ms
Color System	PAL
Sound System	BG/I/DK
Tuner	VHF/UHF: 48.25~863.25MHz
Antenna	75Ω VHF/UHF input
Stereo	NICAM/A2
VIDEO INPUT	
CVBS input	PAL/SECAM/NTSC
S-VIDEO input	Y/C separate video signal Y...1 Vp-p/negative sync/75Ωinput C...0.283 Vp-p/75Ωinput(NTSC) 0.3 Vp-p/75Ωinput(PAL)
COMPONENT	RCA,0.7Vp-p/75Ω input (480I/60Hz,480P/60Hz,576I/50Hz,576P/50Hz,720P/50Hz,720P/60Hz,1080I/50Hz,1080I/60Hz, 1080P/50Hz, 1080P/60Hz)
HDMI	1080i, 720p, 1080p
Audio in	RCA audio input
OTHERS	
DVD Player	DVD+/-RW, DVD-R, CD, CD-R, CD-RW, JPEG, AVI
Multi Media USB Card Reader	MS, SD, MMC 3 in 1 Card reader and USB compatible Max Volume up to 2GB
VGA	15 Pin, Analog RGB signal, 0.7Vp-p, 75Ωinput(VGA, SVGA, XGA, WXGA computer signal compatibility), 1440*900@60Hz, 1024*768@60Hz, 800*600@60Hz, 640*480@ 60Hz
Teletext	1000 pages
TV SET OUT	
AV output	monitor
Speaker Output	5 W+ 5 W
Power Requirement	AC100 to 240V, 50/60Hz
Power Consumption	< 180 W
Standby Power	< 1W
Dimension(with stand)	795mm × 234mm × 559mm（W × D × H）
Dimension(without stand)	795mm × 95mm × 515mm（W × D × H）
Net Weight	About 18.5 Kg
Ambient Temperature	10~45℃

Note: Specifications subject to change without pre-notice. Weight and dimensions are approximate.
