Note:
To change the product logo for your own print manual or PDF,
click "Tools > Manual Designer" and modify the print manual
template.

Title page 1

Use this page to introduce the product

by DWGLab Inc.

This is "Title Page 1" - you may use this page to introduce your product, show title, author, copyright, company logos, etc.

This page intentionally starts on an odd page, so that it is on the right half of an open book from the readers point of view. This is the reason why the previous page was blank (the previous page is the back side of the cover)

1 Welcome to Any DWG and DXF to Image Converter

1.1 Introduction

Introduction

Any DWG and DXF to Image Converter is a full featured **DWG to Image converter** that allows you to convert DWG and DXF to vector image files without the need of AutoCAD.

Key Features

- Batch convert an unlimited number of DWG/DXF files to high quality images.
- Stand-alone utility - AutoCAD NOT required.
- Versatile and customizable output. Enables you to choose the Size, Quality, Output Color of the image file.
- SHX, Xref and Line width support.
- Supports paper space and model space.
- Support for custom page sizes.
- Supports every version of DWG/DXF files (Supports R2.5/2.6, R9, R10, R12, R13, R14, R2000/2002, R2004/2005/2006, 2007, 2008, ... formats).
- Very easy to use.
- ...

Command line support

Any DWG and DXF to Image Converter is available in "Any DWG and DXF to Image Converter" and "Any DWG and DXF to Image Converter Pro" versions. Only the "Pro" version supports command line, if you need command line support, please contract us.

1.2 Convert DWG/DXF/DWF to GIF/PNG/JPG/BMP/TIFF

1) Open Any DWG and DXF to Image Converter
2) Click Convert CAD to image files from the task list
3) Add any files to convert and click Next
4) Specify options (Click here to see more information about the Options) and the output destination
5) Click Process.

1.3 Set Options

Image Sizes and Colors

- **Paper size (Standard / Custom):** Allows you to set the size of the paper. Portrait and landscape mode can be easily switched by exchanging the width and height values.
- **Output Color:** Allows you to choose between True Colors, Gray-scale, or Black/White.
- **Background Color:** Set the background color of your image file.
- **Zoom Type:** Allows you to set Zoom type between Zoom All and Zoom Extend.

Output Option
Allows you to choose between "Replace original" and "Rename (automatically increment the filename)".

SHX and XRef Directories

If the text quality is not satisfactory, please add the SHX font directories to the SHX font

directories list. If the drawing has an XRef, please add the XRef directories to the XRef directories list.

Output Layout

- **Model space:** Output the model space.
- **All layouts:** Output all layouts.
- **Output by layout name:** Output the specifically layout.
- **All Paper spaces:** Output all paper spaces.

Line Width (Pen Width)

- **Use Default width:** Use the AutoCAD default line width.
- **Custom by color:** Set line width by color. (You can set the line width value in pixels.)

End User License Agreement
Copyright (c) 2008 DWGLab Software, Inc. All Rights Reserved.

This End User License Agreement is a legal agreement between you (either an individual or an entity) and DWGLab Software, Inc. ("DWGLab") for the DWGLab's software product, which may include user documentation provided in online or electronic form ("SOFTWARE"). By installing, copying, or otherwise using the SOFTWARE, you agree to be bound by the terms of this End User License Agreement.

License & Usage:

===
A. Unregistered Version (Evaluation Version)
===

1. Evaluation and Registration

This is shareware and is provided at no charge to the user for evaluation. Subject to the terms below, you are hereby licensed to use the program for evaluation purposes for the stipulated number of uses. If you use the program after the evaluation period, registration is required.

2. Redistribution of Evaluation Copy

Provided that you are distributing the current unregistered version, you are hereby granted permission to duplicate and distribute the program; give exact copies of the original unregistered version to anyone; and distribute the unregistered version of the program and documentation in its unmodified form via electronic means. There is no charge for any of the above.

You are specifically prohibited from charging, or requesting donations, for any such copies, however made; from distributing the program and/or documentation with other products (commercial or otherwise) without prior written permission.

=======================
B. Registered Version
=======================

If you use the program after the evaluation period, registration is required. A single registered copy of the program may either be used by a single person who uses the program himself on one or more computers, or installed on a single computer and used by multiple people, but not both.
