

# FLEXI-STAR<sup>®</sup>

## Air-Purifying Half Mask Respirator

### **NEW Lighter, Softer Mask Material. The Ultimate in Flexibility.**

As the name indicates, the FLEXI-STAR respirator was designed to offer wearers flexibility. The economical price allows for single-use applications yet, they can be used over and over again – up to 50 times or more with filter and cartridge changes. Feature for feature and price to price, no other disposable/reusable half mask respirator performs like the FLEXI-STAR.

FLEXI-STAR<sup>®</sup>

# NEW! FLEXI-STAR® Half Mask Respirator

## Features and Advantages Include:

- Meets NIOSH 42CFR84 Requirements when Worn with Recommended AOSafety Cartridges and Filters
- Made of a lighter man-made rubber material that feels like silicone
- Lower Fit on Nose Along with Wide Sealing Flange Assures Outstanding Fit
- Comfortable No-Snag Head Straps
- 4-Point Non-Slip Suspension System
- Offset Cartridge Adapters Can Be Rotated For Unobstructed Field of Vision
- Low Profile Design Doesn't Interfere With Eyewear
- Three Sizes Available -- Medium Size Fits 95% Of Work Force
- Available without Filters or Cartridges
- Easy-to-Attach Probe and Fit Test Adapter Available for Quantitatively Fit-Testing Respirator Wearers in Their Own Masks

Designed in conjunction with an industrial designer and anthropologist, AOSafety half mask respirators are known as some of the best fitting and most comfortable in the industry. The facepieces are ergonomically contoured to be positioned lower on the nose and include a wide sealing flange for an optimum fit.
