Previewing the DTV Menu System

➢ ◆ The company does not guarantee the normal operation of the DTV menu for countries other than the 8 supported countries (United Kingdom, France, Germany, Italy, Netherlands, Spain, Switzerland, Austria) because only these country standards are supported. In addition, when the country of the broadcast stream differs from the country selected by the current user, the string appearing in the channel banner, Info, Guide, Channel List, etc. may not be displayed properly.

◆ Available in DTV mode. Preset to the DTV mode by using the **TV/DTV** button on your remote control. To help you navigate around the on-screen menu system and adjust the various settings available, refer to the following illustration.

Press the **MENU** button to display the menu.

Press the ▲ or ▼ button to select **Digital Menu**, then press the **ENTER** button.

Operating the DTV Menu

Viewing the DTV Menu

After installing your antenna system and TV with appropriate connectors.

◆ Plug in the AC main power and switch on the TV.
◆ Press the **MENU** button to display the menu.
   Press the ▲ or ▼ button to select Digital Menu, then press the **ENTER** button.
   The main menu appears on the screen. Its left side has four icons: **Guide**, **Digital Channel**, **Setup**, and **Language**.
1. Digital Channel
   This menu consists of 5 sub-menus:
   Country, **Auto Store**, **Manual Store**, **Edit Favourite Channels**, and **Channel List**.

   ◆ Press the ▲ or ▼ button to select **Channel**, then press the **ENTER** button. The Channel menu is displayed.

1.1 Country
   ◆ Press the **ENTER** button. The **Country** menu is displayed. Select your country by pressing the ▲ or ▼ button, then press the **ENTER** button.
   ➢ Even though you have changed the country setting in this menu, the country setting for Analog TV is not changed.(Refer to page 10)

1.2 Auto Store
   You can update the channel list when the broadcaster adds new services or if you move the TV to a new location.
   ◆ Press the **ENTER** button to select **Auto Store**. Press the **ENTER** button again to start the search. When it has finished, the number of scanned services will be displayed.
      – The existing favourite channel list will not be deleted when the channel list is updated.
      – To stop the scan before it has finished, press the **ENTER** button with **Stop** selected.
   ➢ If the signal status is poor, **No service found! Check the aerial connection.** message is displayed.

1.3 Manual Store
   You can specify the channel for a fast channel search.

   ◆ – **Channel**
      Press the ▲, ▼ or numeric buttons (0~9) to select a channel.
      The available channels are 21~68. The corresponding frequency for the selected channel is automatically set.
   – **Frequency**
      If you do not know the exact frequency, follow the above step to select the frequency automatically using channel.
   – **Bandwidth**
      The available bandwidths are 7 and 8 MHz.
