CyberPower's Power Distribution Unit (PDU) provides additional outlets for your rackmount power needs. The 1215RM offers 10 (ten) 15A rear-mounted outlets in the 19" 1U case. The rugged metal housing can withstand the most demanding environments and a 15' cord ensures compatibility for most rackmount applications. CyberPower PDU's can also be used for retail, security, POS, telecommunications, networking, audio/video displays, or anywhere dedicated power distribution is needed.

- EMI/RFI Shielding - Provides shielding against electromagnetic interference & radio frequency signals. Most commonly, this is used to prevent line noise or "humming" that occurs over telephone lines or stereo electronics.
- Resettable Circuit Breaker - Convenient unit reset switch in case of an overload.
- ISO & Safety Certifications - All CyberPower's manufacturing facilities are ISO-9001 Quality Tested. Our products are also UL Recognized.
