

Model #: CPS1215RMS

UPC: 649532893515

MSRP: \$59.99

CyberPower's 1215RMS offers the combined functionality of both a Power Distribution Unit (PDU) and Surge Suppressor. Providing additional outlets for your rackmount power needs, this model also offers 1800 Joules of surge/lightning protection. The 1215RMS offers 12 (twelve) 15A outlets (6 front, 6 rear-mount) in the 19" 1U case. The rugged metal housing can withstand the most demanding environments and a 15' cord ensures compatibility for most rackmount applications. CyberPower PDU's can also be used for retail, security, POS, telecommunications, networking, audio/video displays, or anywhere dedicated power distribution is needed.

- EMI/RFI Shielding - Provides shielding against electromagnetic interference & radio frequency signals. Most commonly, this is used to prevent line noise or "humming" that occurs over telephone lines or stereo electronics.
- LED Indicators - LED status lights indicate Power-On and wiring faults.
- Resettable Circuit Breaker - Convenient unit reset in case of an overload.
- ISO & Safety Certifications - All CyberPower's manufacturing facilities are ISO-9001 Quality Tested. Our products are also UL Recognized.
