Lock/Motor On

Comb Selection Switch

STEP 1
Out of the Box

1. Remove plastic pull tab to activate the batteries

2. Press power button to begin. Your screen should show

3. Press the screen will show 3.0 mm or 1.0 and the clipper is ready to use.
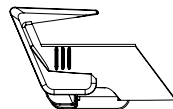

STEP 2
Achieving Your Desired Length

Length comb guards

1. Select comb and set the selection switch to A, B, or C to correspond with desired setting.

2. Install comb: Line up comb rails with the slot on each side of the clipper. Press down until comb clicks into place.

Rail

Slot

Long Adjustable 22-42mm (#6.5-#13)
(A) +/-0.5

Short Adjustable 3-23mm (#1.0-#7)
(B) +/-0.5
(C) +/-0.1

A
B
C

Stubble fixed 1.5mm (#0)
Note: does not use switch or LCD

3. To adjust height, set lock switch to 🔓

4. Use buttons to reach desired length

14.0 mm

TOUCH CONTROL CLIPPER
QUICK START GUIDE

Select Tri Speed Levels
1. Set lock switch to 🔓
2. Select tri speed level by using ⏱

Tri Speed Levels

High	Mid	Low

Check Battery Level
1. Press ⚡ at any time
2. Battery level remaining displays

28.0 min

STEP 3
Cutting Hair

Ready to Begin Cutting
1. When ready to cut hair, slide the lock switch from 🔓 to 🔒/✂
2. 🔒/✂ turns on the cutting motor and prevents comb movement during use

Helpful Hints
1. Charge for 12 to 18 hours before first use
2. Put 1 to 2 drops of oil on blade before first use, and every 1 to 2 uses thereafter
3. To switch between "mm" and "barber shop" # mode, press and hold power button for 2 seconds until screen blinks
4. To turn off clipper let the product sit for 10 seconds with motor off

Troubleshooting
1. Clipper will not turn on
   a. Slide lock switch from 🔓 to 🔒/✂
   b. Ensure pull tab is removed
   c. Charge for 12 to 18 hours

2. Display shows wrong length
   a. 3-23mm and 22-42mm combs:
      Ensure switch matches letter printed on comb.
   b. 1.5mm comb:
      Note display not designed to update 1.5mm comb
