## Product highlights

### Coax line protection

Connectors route the coaxial signal through the surge protector to protect against surges and spikes.

### Power blocker

This automatic shutdown technology senses when the device has reached capacity and automatically shuts down electricity to your equipment. It protects against subsequent surges, even if you are not present

### 20 dB EMI/RFI noise filtration

Built-in filtering technology ensures the best performance from your components. It guards against signal interference and loss of data. The higher the dB rating the better the noise reduction.

### 4 child-safe outlets

Safety slides provide a protective barrier that block the outlet so small objects cannot get in. Keeps children safer.

### Protection indicator light

This LED alert lights up to indicate the surge protector is working properly.
