AC Operation

To operate the unit using the AC power, connect a 4.5V DC ,600mAh AC adaptor with center positive ⊖⊕ (not included) to the DC IN jack on the right side of the CD player and then to a wall outlet with AC 120V_,60Hz. The batteries are automatically disconnected when the AC adaptor used.

Battery Installation

Install or replace the batteries when the low battery power indicator "BATT" appears on the LCD display.

1. Open the battery compartment door on the bottom of unit by sliding it out and lifting.
2. Insert two (2)"AA"size batteries (not included) following the polarity markings on the bottom of the cabinet.
Alkaline batteries are recommended for a longer playing time.
3. Insert the battery door back into position.

Battery Precautions

Follow these precautions when using a battery in this device:

1. Use only the size and type of batteries specified.
2. Be sure to follow the correct polarity when installing the batteries as indicated in the battery compartment.
Reversed batteries may cause damage to the device.

3. Do not mix different types of batteries together (e.g. Alkaline and Carbon-zinc) or old batteries with fresh ones.
4. If the batteries in the device are consumed or the device is not to be used for a long period of time, remove the batteries to prevent damage or injury from possible battery leakage.
5. Do not try to recharge batteries not intended to be recharged; they can overheat and rupture. (Follow battery manufacturer's directions.)
6. Do not dispose of batteries in fire, batteries may explode or leak.
7. Clean the battery contacts and also those of the device prior to battery installation.

Operation

CD/MP-3 Playback:

7. When finished listening, press the STOP ■ button to stop. Press it again to erase the memory of the program. Press it three times to power off the unit.

Line Out Jack

Connect the unit to the external audio source by means of a 3.5mm stereo audio cable (Cable not included). Press the VOL (Volume)+/- buttons to adjust the output level.

CD care

- Treat the disc carefully. Handle the disc only by its edges.
- Never allow your fingers to come in contact with the shiny, unprinted side of the disc.
- Do not attach adhesive tape, stickers, etc. To the compact disc label.
- Clean the compact disc periodically with a soft, lint-free, dry cloth. Never use detergents or abrasive cleaners to clean the disc. If necessary, use a CD cleaning Kit.
- If a disc skips or gets stuck on a section of the disc, it is probably dirty or damaged (scratched). When cleaning the disc, wipe in straight lines from the center of the compact disc to the outer edge of the disc. Never wipe in circular motions.

- This unit is designed to play only compact discs bearing the identification logo as shown here. Other discs may not conform to the CD standard and may not play properly. Compact Discs should be stored in their cases after each use to avoid damage.

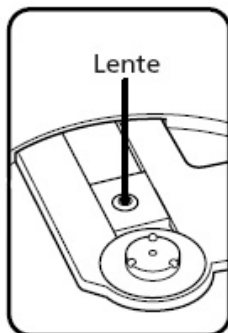

- Do not expose compact discs to direct sunlight, high humidity, humidity, high temperatures or dust, etc. Prolonged exposure or extreme temperatures can warp the compact disc.
- Do not stick or write anything on either side of the compact disc, Sharp writing instruments, or the ink, may damage the surface.

Cleaning the Unit

- To prevent fire or shock hazard, disconnect your unit from the AC power source when cleaning.
- Caution when cleaning and wiping the plastic parts.
- Mild soap and a damp cloth may be used on the front panel.
- Never use abrasive detergents to clean the unit
- Do not wet or immerse the unit in water
- Do not wash under a running tap – this will damage the player.

Cleaning the CD lens

It is very important to clean the CD lens occasionally. Use a cotton swab and some alcohol (90°). Carefully clean the lens as shown in the image below. You can purchase a cleaning kit specifically for cleaning the CD lens.
