Coffee / espresso specialist

Clear design with elegant finish

Intelligent Fresh Water System
(compatible with the intelligent
fresh water kit)

Smart Connect compatible

PROFESSIONAL

The smart coffee specialist

Perfect coffee motivates, inspires, facilitates communication and lifts the spirits. So it's hardly surprising that it makes up part of many people's everyday routine. The XJ6 Professional from JURA is an espresso / coffee specialist and an attractive addition to any team. The modern coffee machine is the ideal solution where coffee, espresso and ristretto are the beverages of choice. With its perfect design in elegant black, it integrates seamlessly into any working environment. Thanks to the simple, clear operating concept, users can enjoy exceptional coffee in no time.

Technologies

Designed to create the ultimate coffee, espresso and ristretto, the XJ6 Professional prepares all these beverages with incredible ease at the touch of a button, thanks to its operating panel with direct selection buttons. It can prepare either one or two cups at the same time, depending on what you require. It also displays outstanding eco-intelligence. Offering an intelligent Energy Save Mode and a Zero-Energy Switch, it actively helps you to save precious energy.

Intelligent Fresh Water System

The Intelligent Fresh Water System (I.F.W.S.®) is needed to use the unique Intelligent Fresh Water Kit. This latest-generation, smart permanent water connection supplies fresh water for a superior quality coffee every time. Because it can be fully integrated in the coffee machine, it requires no extra space. Combined with an upstream CLARIS water-filtering system, it provides optimum protection against limescale and supplies the best quality water.

Smart Connect

A transmitter* and app revolutionise communication between the automatic coffee machine and user or vending partner. JURA Smart Connect uses Bluetooth® to send relevant information about readings and messages to your smartphone, where they can be viewed at any time using the free 'JURA Connect' app and forwarded to defined e-mail addresses if necessary. Accounting and maintenance has never been so convenient and easy.

Cleaning/Hygiene

The integrated rinsing, cleaning and descaling programmes reduce the effort involved to a minimum and guarantee TÜV-certified hygiene.

Customisable

With a wide selection of accessories including a Compact Payment Box, cup warmer, Intelligent Fresh Water Kit, Coffee grounds disposal/drip drain set XJ and an attractive range of storage and presentation units, it is possible to create a complete coffee solution tailored to your specific requirements.

* Smart Connect available as an option

XJ6 Professional

SWISS  MADE

Preparation times

2 cafés crème
1 minute 3 seconds

2 espressi
38 seconds

2 ristretti
