

freeView Pro O8P

Control 8 computers with 1 Keyboard • Video • Mouse

Enterprise KVM Series > freeView Pro O8P 8-port KVM with connecting cables (PS/2 & Audio)

Your business is growing faster than you expected and four computers simply aren't enough to meet your needs? Not a problem. freeView Pro O8P is just the tool you need to help reduce the need for redundant hardware. Now you can control all eight, or even up to a maximum of 120 computers with a single keyboard, monitor and mouse. Just think of the time, space, power and money you'll save. The freeView Pro O8P is much more than a simple eight-port KVM switch. Built-in Auto Scan mode lets you conveniently monitor every attached computer for a specified amount of time, while the On Screen Display technology allows you to assign a unique name to each computer and access it via a slick, menu-driven interface. With its 1U, 19" rack-mountable casing, the freeView Pro O8P is the perfect switch for your server room or any other multi-computer environment.
