

510 CE Complete Kit User Manual

Safety instruction

This product must not be used by anyone under the age of 18, pregnant/breastfeeding, suffers from nicotine allergy or heart diseases. Electronic cigarette, cartridges and accessories should be kept out of the reach and sight of children at all times. Toxic if swallowed. Very toxic in contact with skin .In case of accident or if you feel unwell, seek medical advice immediately.

Your 510 CE Complete Kit

- 1 x Clearomizer
- 2 x Manual battery
- 1 x USB Charger
- 1 x Mains charger
- 1 x 20ml E-Liquid

1. Charging your E-cigarette

Charge your 510-battery using the USB-charger. The battery is fully charged when the LED-light on the charger turns from red to green.

1.

2. Preparing your Electronic cigarette

Take out the clearomizer and unscrew the mouthpiece from the top. Pour E-Liquid into the clearomizer until it's fully filled.

After the clearomizer has been fully filled, screw it into the battery. Your Electronic cigarette is now ready for use.

3. Using your electronic cigarette

Press and hold the activation button when inhaling. Red light at the end of the electronic cigarette indicates that the battery is active. The battery needs to be recharged when the light starts flashing.

To prevent the clearomizer from overheating, it is important **not** to press the power button for longer than 5 seconds at a time.

The clearomizer is a consumable component with an expected lifespan of approximately 30 days. After this, it can be replaced with a new one.

3.

Cautions

Store your electronic cigarette in a protective case/bag.

Do not attempt to open, pierce, weld or damage your electronic cigarette or its accessories.

Batteries are explosives. Keep away from fire.
