Safety Precaution

Thank you for choosing our portable DVD player. It includes two DVD players. The unit applies the latest state of art electronics and is designed for use at home, in hotels and in offices etc for relaxation. The compact size makes carrying easier as well as installation. Please read the manual carefully prior to use and keep it well for future reference.

Warning: To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

- 1) Please read the instruction manual carefully and follow all the requirements of safe operation to operate the device.
- 2) Do not use this unit near water. Do not place over the unit any container with liquid inside.
- 3) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 4) Unplug this unit during lightning storms or when unused for long time.
- 5) **About Cleaning:** Unplug the system, use only wet cloth to clean. Do not use liquid detergent or aerosol.
- 6) Only use accessories specified by the manufacturer.
- 7) Refer all servicing to qualified service personnel, servicing is required when the unit has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the unit, exposed to moisture, does not operate normally. Don't try to repair the machine by yourself because of the danger of high voltage and electric shock.
- 8) Do not use irregular shaped discs such as heart or star-shaped discs as they may cause the unit to malfunction.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Package

9" DVD Players	2
Remote Control with battery	2
AV Cable (DVD to DVD)	1
AC/DC Power Adapter	2

System Connection

Powering and installation

Plug one end of the AC/DC power adaptor into the DC IN 9-12V jack on the right of the unit, then plug the other end into the AC power receptacle. Please refer to the following illustration.

If using car cigarette lighter adaptor to connect to the power: Plug one end of the cigarette lighter adaptor into the DC IN 9-12V jack on the unit, plug the other end into the car cigarette lighter socket. See illustration below.

Note:

- ※ Car cigarette lighter adaptor is available to use only when the car cigarette lighter with DC 12V negative grounding.
- ※ The mains plug is used as the disconnect device, the disconnect device should remain readily operable.

Connecting To Unit A/B

1. Connect unit A and unit B with AV cable.
2. Connect the unit to power by AC/DC adapter or cigarette light adapter
3. Turn on these two units, insert a disc into the disc compartment of the main unit A, press the IN/OUT key on remote control B to change Unit B to AV IN mode, then you can see the same image on both units.
Please refer to the illustration below.

Note:
Unit B has AV IN and AV OUT function. Unit A only has AV OUT function. So unit A can be connected to unit B and TV, unit B can only be connected to TV.

In Car Installation Guide

1. Fitting the headrest mount to the DVD Player.

The DVD player will fit to the mount in this position, as shown below.

Turn the headrest and player around so the backs are facing you.

Slide the vertical straps A and B through the strap lock upon the back of the DVD Player, or monitor, as shown. Fold and secure the horizontal straps on to the back of the mount until the velcro attaches. Ensure the DVD Player or monitor is mounted centrally.

Turn the headrest and player around so the front is facing you.

Bring straps C1, C2, D1 & D2 in front of the DVD Player and attach to the velcro as shown.

Note:
Both the headrest mounts are the same, there is no difference for DVD Player or Monitor.

2. Fitting the head rest mount to the headrest.

a. Fitting the head rest mount to the headrest.

Fit the straps around the headrest and engage the 2 trident clips. Ensure clips are securely fastened.

Pull the straps tight using the adjustment. Tuck the loose ends into the strap tidy.

b. Fitting the headrest mount to the seat.

The mount is designed for the separated headrest, some cars/vans don't have separated headrest, if the seats look like as below, you must follow the below installation to fit the mount.

2. Fitting the headrest mount to the headrest.

Let the belts crossing horizontally to the top seat and engage the 2 trident clips. Ensure clips are securely fastened.

Pull the straps tight using the adjustment. Tuck the loose ends into the strap tidy.

Note:

Be sure to complete the installation then use SDVD9805 in the car. For SDVD9805 installation is recommended that the DVD Player is on the LEFT headrest, to ensure a neat cable run to the monitor, as shown below.

Connecting with external Speaker

Both unit A and unit B can be connected with external speaker. Please see the following illustration.

Note:
There is no 5.1 channel in the unit, however, after connecting to APM it is available to output audio in 5.1 channel.

The Remote Control of Unit A

1. Number button
2. TITLE (To display title information)
3. AUDIO (To select audio language)

Specification

Compatible disc: DVD/VCD/CD/MP3

Signal system: PAL/NTSC

Panel size: 9 inch

Frequency response: 20 Hz to 20 kHz

Video output: 1 Vp-p/75 Ohm, unbalanced

Audio output: 1.4 Vrms/10 k Ohm

Audio S/N: Better than 80 dB

Dynamic range: Better than 85 dB

Laser: Semiconductor Laser, Wave Length: 650 nm/795 nm

Power source: DC 9-12 V

Power consumption: 10 W

Operating temperature: 0~40°C

Weight (2 DVD Player): 1.1 / 1.1 kg

Dimensions (2 DVD Player) (W x D x H): 245x190x41.9/245x190x41.9 mm

Battery Type: Li Polymer

Note:

1. The quality and speed for reading JPEG photos depend on the resolution and compression ratio of the photos. Some JPEG photos may not be played due to the disc quality and the formats.
2. Some DVD+R/RW, DVD-R/RW, CD-R/RW disc may not be played due to the quality on burning conditions.

Rechargeable Battery Use

The machine utilizes long-life Li polymer battery for portable power supply. The battery has no "Memory Effect" and thus can be recharged safely regardless of whether the battery is fully or partially discharged. It's enough to recharge no longer than 4H each time, fully recharged battery can last about 2.5 hours with earphone.

Precautions related to Battery Recharge

The battery can be only recharged when turning power to OFF state, and keep continuous power supply, the red light will be on, and the light will turn yellow when it's fully charged.

Using and Maintaining Rechargeable Battery

1. The normal working temperature is: 0°C ~40°C;
2. Always unplug AC/DC power supply for the unit when not in use;
3. Heat will create during playing, it's normal, while avoid long time playing and unattendance;
4. Avoid having the unit collide with any objects, and place away from all possible heat sources or damp areas.

Caution:

Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

Removal Of Waste Battery

Before to discard EOL unit, please remove the waste battery by below steps:

- a. Pull out the screws on the bottom cover by the screwdriver to unpack the unit.
- b. Pull out the screws on the Main PCB board by the screwdriver to unpack the PCB board and then the battery can be seen.
- c. Remove the battery socket from the board.

If at any time in the future you should need to dispose of this product please note that waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your Local Authority or retailer for recycling advice. (Waste Electrical and Electronic equipment Directive)

Owing to continuous improvement, no prior notice will be given regarding changes on above feature and spec.

Troubleshooting

PROBLEM	SOLUTION
No sound or distorted sound	Make sure the machine is connected properly. Make sure all cables are securely inserted into the appropriate jacks.
Can't advance through a movie	You can't advance through the opening credits and warning information that appears at the beginning of movies because the disc is programmed to prohibit that action.
The icon  appears on screen	The feature or action cannot be completed at this time because: 1. The disc's software restricts it. 2. The disc's software doesn't support the feature (e.g., angles) 3. The feature is not available at the moment. 4. You've requested a title or chapter number that is out of range.
Picture is distorted	The disc might be damaged. Try another disc; it is normal for some distortion to appear during forward or reverse scan.
No forward or reverse scan	Some discs have sections that prohibit rapid scanning or chapter skip; if you try to skip through the warning information and credits at the beginning of a movie, you won't be able to. This part of the movie is often programmed to prohibit skipping through it.
