

1 How to De-install the Demo-Version

Open the Windows Start Menü (Start Button)

Select Programs - Greenkeeping

Select " Remove Punctus Greenkeeping"

2 How to Install the Full Version

2.1 From CD-ROM

Insert the CD-ROM into the CD Drive. The installation starts automatically. If not start the installation manually by double-clicking on the file „setup.exe“ on the CD. Follow the instructions on the screen.

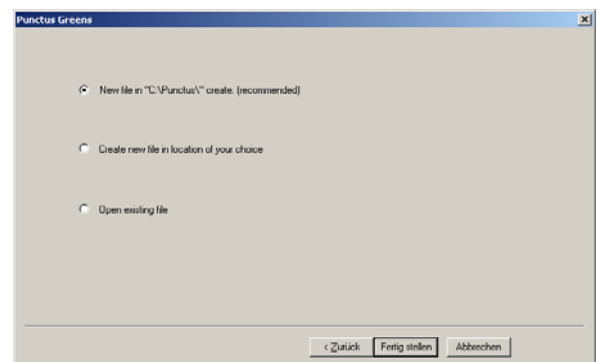

2.2 From the web

Download the file “setup.exe” by clicking the link in the e-mail which you received and store it on your hard drive. Open the folder wherein the “setup.exe” is stored and double-click the file. Follow the instructions on the screen.

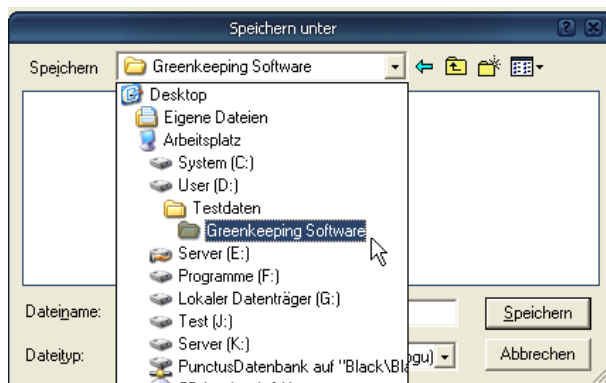

3 Setting up the Data Base (Read First)

- Starting the program for the first time evokes the screen to let you determine where to store your data.

- | | |
|----------|-------------------------------|
| Option 1 | default location (c:\Punctus) |
| Option 2 | user defined location |

Hint: Store your data in a location you would easily find for backup purposes. E.g. c:\Punctus or c:\Greenkeeping Software

Network users: Store your data on a network drive by selecting „My Network Places“ in above window.

When setting up the program on a second PC open the data base you already installed on a network drive by selecting Option 3 (grey screen, prev. page).

4 Quickstart & Backup of Data

Please refer to the user manual.
