PRECAUTIONS

The signal quality will depend on the location and environment of

Position your ES1510A away from sources of excessive heat (radiators, direct sunlight, etc.) and protect it from vibrations and dust. Never allow your telephone to come into contact with water or other liquids, or with aerosols. To reduce the risk of interference and optimize reception, take particular care not to install the base in the immediate vicinity of windows, large metal objects, reinforced concrete, televisions, music centres, VCR or DVD players, halogen lamps or heating devices, fluorescent lighting, burglar alarms, microwave ovens, computers, etc. This telephone requires an electrical power supply in order to function.

To clean your ES1510A, use an antistatic cloth lightly moistened with water.

Your ES1510A is a DECT™* standard appliance designed to receive and transmit telephone calls. It is designed for connection to the public telecommunications network

INSTALL YOUR PHONE

3.1 Install and Charge the batteries

Slide down to open the battery compartment cover

- Place the 2 supplied AAA rechargeable batteries as indicated. Pay extra attention to direction of polarity.
- Slide the battery compartment cover back.
- Put the handset on the base and charge for 15 hours before using the handset for the first time. The handset will give a beep when it is properly placed on the base or charger.

NOTES:

- Use only the supplied NiMH rechargeable batteries.
- If the handset will not be used for a long time, disconnect and remove the batteries to prevent possible leakage.

3.2 Connect the Base Station

- 1. Plug one end of the telephone line cord into the telephone jack on
- 2. Plug the small end of power adapter into a power jack on base bottom.
- Connect the power supply plug to the base jack horizontally, and route the power supply cord through the slot.
- Plug the large end of power adapter into a wall power outlet.
- Plug the other end of the telephone line cord in to the telephone jack or

Always use the cables provided in the box.

If you have broadband service, a micro-filter (not included) is required.

3.3 Connect the Charger(s) (for Duo/Trio models)

Plug the power adapter into mains socket.

If you have a Broadband line

If you connect your telephone to a line with a broadband connection, you will need to insert a micro-filter between the telephone and the telephone line, otherwise you may get interference between the telephone and the broadband, which could cause problems.

In a home with broadband, every telephone must have a microfilter connected, not just the one at the telephone point that your modem is connected to. If you need more broadband microfilters, contact your broadband supplier.

4. USING YOUR PHONE

4.1 Make a call

4.1.1 Preparatory Dialing

Enter the phone number and press 📞 or 🔳 to dial the number. Press \square to clear the entry.

4.1.2 Direct Dialing

Press or to take the line and enter the phone number.

4.1.3 Dial from Direct Memory Keys

In idle or off hook mode, press and hold 1 / 2 / 3 to dial the direct memory number. You have to store number to the related key first. See section 7.4 for reference.

4.1.4 Call from the Redial List

Press ▼ to access the redial list and press ♠ / ▼ to select the desired redial number. Press 📞 or 🔳 to dial out to the selected redial number.

5. PRIVATE PHONEBOOK

Your phone can store up to 50 private phonebook entries with names and numbers. Each phonebook entry can have a maximum of 20 digits for the phone number and 12 characters for the name. You can also select different ringtones for your phonebook entries. Phonebook entries are stored alphabetically by name.

5.1 Add a New Phonebook Entry

In Idle: Press (19) to access the phonebook.

Press MRU and ▲ / ▼ to select **PHONEBOOK** main menu item and then press to access the phonebook.

- Press we to select ADD.
 Press we to enter the name.
 Press we to enter the number.
- Press ☐ and ▲ / ▼ to select the desired ringtone for your phonebook entry.
- Press MENU to store the phonebook entry.

5.2 Call from the Phonebook

In Idle:

1. Press to access the phonebook.

Press ☐K and ♠ / ▼ to select PHONEBOOK main menu item and then press kenul to access the phonebook.

2. Press or to dial out to the selected phonebook entry.

CALLER DISPLAY (NETWORK DEPENDENT)

This feature is available if you have subscribed the Caller Line Identification service with your telephone service provider. Your phone can store up to 20 received calls with date/time information in the Call List. The number will be shown on the LCD when the phone is ringing. If the number matches with one of the entries in your Private Phonebook, the caller's name stored in the private phonebook will be displayed alternatively with the number. The handset will ring with the melody associated with that phonebook entry.

If the caller number is disabled to send caller information, "WITHHELD" will display. If the caller number is not provided, "OUT OF AREA" will display. In standby, if three unanswered calls are received, "3 NEW CALLS" will be displayed.

6.1 View the Call List

All received calls are saved in Call List with the latest call putting at the top of the list. When the call list is full, the oldest call will be replaced by a new call. The unanswered call which has not been read is marked with a * at the centre of the bottom line of

- Press ♠ to access the call list. OR
 - Press MENU and ♠ / ▼ to select CALL LIST.
- Press ▲ / ▼ to select the desired entry.
- 3. Press ## to view the caller's number if applicable.

6.2 Call from the Call List

- Press A to access the call list.
- Press MENU and ▲ / ▼ to select CALL LIST.
- 2. Press or to dial out to the selected phonebook entry.

11. IMPORTANT SAFETY INSTRUCTIONS

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

- 1. Read and understand all the instructions.
- 2. Follow all warnings and instructions marked on the product.
- Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
- Do not use this product near water (for example, near a bath tub, kitchen sink, swimming pool).
- Do not expose the telephone to direct sunlight or extreme cold environment. Do not put the telephone close to heating sources such as radiators, cookers, etc.
- Do not overload wall outlets and extension cords as this can result in the risk of fire or electric shock
- 7. Unplug this product from the wall outlet and refer servicing to VTech under the following conditions:
 - When the power supply cord or plug is damaged or frayed.
 - If the product does not operate normally by following the operating instructions.
 - If the product has been dropped and the cabinet has been damaged.
 - If the product exhibits a distinct change in performance.
- Avoid using a telephone (other than a cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
- Do not use the telephone to report a gas leak in the vicinity of the leak.
- 10. Use only the supplied NiMH (Nickel Metal Hydride) batteries! The operation periods for the handsets are only applicable with the default battery capacities.
- 11. The use of other battery types or non-rechargeable batteries/ primary cells can be dangerous. These may cause interference and/or unit damages. The manufacturer will not be held liable for damage arising from such non-compliance.
- 12. Do not use third party charging bays. The batteries may be damaged.
- 13. Please note the correct polarity while inserting the batteries.
- 14. Do not immerse batteries in water, do not place in fire.

DISPOSAL WARNING

- 1. When this crossed-out wheeled bin symbol is attached to a product, it means the product is covered by the European Directive 2002/96/EC
- All electrical and electronic products/battery should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
- The correct disposal of your old appliance/battery will help prevent potential negative consequences for the environment and human health.

For more detailed information about disposal of your old appliance/ battery, please contact your city office, waste disposal service or The Shop where you purchased the product.

If you have questions about this product, or having difficulty with setup or operation, call or Customer Service Centre.

Customer Service Hotline: (852) 2666 5558 Technical Inquiry Hotline: (852) 2667 7433

12. CARE AND MAINTENANCE INSTRUCTIONS

Take care of your telephone

- Your cordless telephone contains sophisticated electronic parts, so you must treat it with care.
- Avoid rough treatment.
- Place the handset down gently.
- Save the original packing materials to protect your telephone if you ever need to ship it.

Avoid water

You can damage your telephone if it gets wet. Do not use the handset in the rain, or handle it with the wet hands. Do not install the telephone base near a sink, bathtub or shower.

Electrical storms

Electrical storms can sometimes cause power surges harmful to electronic equipment. For your own safety, take caution when using electric appliances during storms.

Cleaning your telephone

- Your telephone has a durable plastic casing that should retain its luster for many year. Clean it only with a soft cloth slightly dampened with water or a mild soap.
- · Do not use excess water or cleaning solvents of any kind.

Remember that electrical appliances can cause serious injury if used when you are wet or standing in water. If the telephone base should fall into water. DO NOT RETRIEVE IT UNTIL YOU UNPLUG THE POWER CORD AND TELEPHONE LINE CORDS FROM THE WALL. Then pull the unit out by the unplugged cords.

CAUTION

DISCONNECT ALL TELEPHONE LINE FROM THE WALL-OUTLET BEFORE REPLACING BATTERY. **RISK OF EXPLOSION IF BATTERY IS REPLACED** BY AN INCORRECT TYPE. **DISPOSE OF USED BATTERIES ACCORDING** TO THE INSTRUCTIONS.
