## Description

This package contains legacy Windows 98, and Windows ME  printer drivers based on Star's Line Mode.  These printer drivers are based on Star's Line Mode of printer operation, which is allows for the printing of both graphics and printer device fonts, including the usage of printer generated bar code fonts.

## Applicability

Please read and answer the following questions to determine if this software is suitable for your application.  If you can answer Yes to all of these questions then this is the correct software for you.

1.  Are you using one of the above listed printers?
2.  Are you using Windows 98, or Windows ME?

I've answered one or more of the above questions NO, tell me what to do!
