	<p>1,100 wireless and 8 wire defense zones.</p> <p>2,Blue backlighting graphic display.</p> <p>3,6 groups of voice alarm phones (mobile phone), and 2 groups of phones in alarm receipt center.</p> <p>4,Built-in perpetual calendar and clock; auto record alarm history by time sequence.</p> <p>5,Message recording playback: human recording, synchronous playback for recording effect in audition.</p> <p>6,More defense modes: remote defense, keypad defense, and non-local remote defense by telephone; stay-in defense, timing defense, and</p> <p>7,Programming of defense zone type: all zones could be programmed via keypad for immediate, delayed, 24-hour and bypass alarm modes.</p> <p>8,Alarm Position Programming: Intelligent automatic speech recognition: SOS alarm, fire alarm, gas leak, magnetic contact alarm, hall alarm, window alarm, balcony alarm, and perimeter alarm</p> <p>9,Timing arm and disarm: console features automatic timing arm and disarm.</p>
	<p>10,Two arm models:</p>
<p>Technical parameters:</p>	<p>1)home alarm model:console music and voice alarm, external siren mute</p>
<p>a)Input Voltage: DC12V 500mA</p>	<p>2) home away arm model:console voice alarm, loud external siren alarm.</p>
<p>b)Standby Current: 50mA</p>	<p>11,Password Recovery: Whether the console is in defense or withdrawal, the lost password can be recovered.</p>
<p>c)Alarm Current: 450mA max</p>	<p>12,Intelligent learning code: intelligent learning code, newly added with detector which is prompt and efficient, and convenient</p>
<p>e)Output current: DC12V 150mA</p>	<p>13,Event Log Query: console automatically records 45 pieces of all information concerning defense, withdrawal and alarm events.</p>
<p>f)Wireless Frequency: 315/433MHz</p>	<p>14,Line priority alarm: the console will cut the busy call and switch to priority alarm in case of the alarm during ongoing call, no matter incoming or outgoing call.</p>
<p>g)Coding Method: 2262 IC / 4.7MΩ</p>	<p>15,Phone disconnection detection: automatic detection and alarm warning in line disconnection, for anti-sabotage of telephone lines.</p>
<p>h)Alarm noise: 110dB</p>	<p>16,Remote control: through remote phone (cell phone) dial-up, many operations could be realized, like defense, withdrawal and on-site monitoring by the console in the remote control form.</p>
<p>i)Back-up Battery: AAA 7.2V</p>	<p>17.Console is equipped with battery box, with optional AAA NI-HM rechargeable battery.Console meets 3C safety standards and national standard GB12663-2001</p>
<p>j)Environment Temperature:</p>	<p>18,Compatible with internationally accepted protocol of alarm receipt center: Ademco Contact ID alarm communication protocol.</p>
<p>-20℃ ~ +55℃</p>	<p><b>Price (USD) Sample: FOB Shenzhen \$38</b></p>
	<p><b>10 to 50sets :\$35</b></p>
	<p><b>51 to 200 sets : \$32</b></p>

## Quotation

Picture	Model Number:GS-T01A	PSTN alarm system
    		<p>1. LED display, 15 wireless zones, can work with up to 60 wireless sensors (each zone supports up to 4 sensors)</p> <p>2.You can connect wired &amp; wireless PIR sensor, door/window contact, smoke detector, gas leakage detector, glass break sensor, emergency button etc. Each wireless zone can match numberless wireless sensors.</p> <p>3. With 13 working LEDs and control keyboard on the mainframe.</p> <p>4.You can record your voice in the mainframe in advance and will call you or the police and play the voice while alarming.</p> <p>5.Can Auto-dial 6 phone No. while alarming.</p> <p>6.You can call the mainframe at any time and listen what happened in the alarm area, and you can arm/disarm and program the system by control keyboard on the mainframe &amp; phone</p> <p>7..Support ADEMCO Contact ID protocol uploading to CMS(Center monitoring Station) , can user our GSM CID connector to have this function</p> <p>8.With voice reminder &amp; password protection while the system is working.</p> <p>9. Remote monitor and check the alarm zones by phone.</p> <p>10. Arm mode: immediate arm, delayed arm and partial arm.</p> <p>11. Can set the ring times of alarm mainframe. When there is coming call, the mainframe can get through it automatically after checking the preset ring times.</p>
	One package includes:	12. Can choose to set/cancel the alarm function of cutting telephone line.
	One main unit	13. Switch to Backup rechargeable battery automatically when power is failure or cut by intruder.
	One wireless door sensor	11. When the system alarms, it can report and follow up the latest alarm zones.
	One wireless PIR sensor	14. Can send alarm signals to monitoring center through telephone network, such as the police station.
	Two remote controllers	
	One strobe siren	<b>Price (USD) Sample: FOB Shenzhen \$45</b>
	One AC adapter	<b>10 to 50sets :\$42</b>
	One English user manual	<b>51 to 200 sets : \$39</b>

### MMS Alarm System

Picture	Model Number:GS-M22E      MMS Alarm system      (900/1800,850/1900mhz)
	<p><i>*With camera &amp; PIR itself</i></p> <p><i>*Can send MMS to your mobile phone.</i></p> <p><i>*Can Send picture to your E-mail.</i></p> <p><i>*Can match wireless detectors/sensors with alarm host by learning code.</i></p> <p><i>*Build-in 2G SD card to store pictures(In standard package,there is no SD card)</i></p> <ol style="list-style-type: none"> <li>1. Built-in 300,000 pixels night vision digital camera,suitable fo night use.</li> <li>2. Support 2G SD card , convenient for long-term storage of image evidence.</li> <li>3. Support PIR motion detecting with photo-taking.</li> <li>4. Support SMS, MMS,phone,E-mail to alarm.</li> <li>5. Image size is adjustable: QCIF(160×128)、CIF(320×240)、VGA(640×480)</li> <li>6. Can pre-set arm / disarm time,convenient for user or alarm center to control.</li> <li>7. The time of reporting can be set regularly .</li> </ol>
<b>Technical parameter</b>	8. 16 wireless zones,each can be prgrammed independently,eg : arm,disarm and 24-hour arm.
Static Current : 40 mA	9. Can set 5 user phone numbers ,can listen-in when alarming.
Power Supply : 9-12 V	10.Can set 2 email address: send scene image alarm info to E-mial.
Support PHASE2/2 & protocol	11.Support GSM / CDMA mobile phone to receive SMS alarm and send SMS commands to control the system.
Receive Coding : ASK	12.Can send scene color images to mibile phone immediately after alarming .
Receive Frequency : 315/433 MHz	14.User can remotely listen-in by calling the host.Can hear the voice at the scene .
Remote Control Distance :30m	13.Can capture scene color photos and send to user by sending SMS command.
Detectors : 16	14.Built-in Li battery, AC-DC shift, automatically recharge
	15.Password operation ensure the security of system.
	16.Support Real-Time Clock adjustment, SD card image stored with time, convenient for inquire.
	17.Wireless system, no need to set wire and easy to install. Special suitable for garage, storeroom, and other places where there is no wired network.
	<b>Price (USD) Sample: FOB Shenzhen \$90</b>
	<b>10 to 50sets :\$87</b>
	<b>51 to 200 sets : \$82</b>

### 3G Video ALARM SYSTEM

Picture	Model Number:GS-98A	850/900/1900/2100MHZ
 <div style="text-align: right; margin-right: 10px;">  </div>	1. Camera can send alarm messages by SMS, video call, voice call	
	2.Max 15 wireless alarm sensors can be added.	
	3.Support to record the alarming image to the camera	
	4.Wireless remote control: it can arm ,disarm or send emergency alarm	
	5.Up to 11 telephone numbers can be pre-stored in the system	
	6.Including the intensity detection and infrared lighting functions	
	7. Motion detection function within 6m	
	8.using high sensitivity MIC, can make calls within 7m.	
	Standard Paking:	9.you can call the video phone to check the video of monitoring
one alarm host	10.3G standard:WCDMA,Built-in 2GB TF card	
one wireless door sensor	<b>Price (USD) Sample: FOB Shenzhen \$119</b>	
	<b>5 to 50sets :\$117</b>	
	<b>51 to 100sets:\$115</b>	
	<b>101 sets to 200 sets:112</b>	
Picture	Model Number:GS-98B	850/900/1900/2100MHZ
 <div style="text-align: right; margin-right: 10px;">  </div>	1. Camera can send alarm messages by SMS, video call, voice call	
	2.Max 15 wireless alarm sensors can be added.	
	3.Support to record the alarming image to the camera	
	4.Wireless remote control: it can arm ,disarm or send emergency alarm	
	5.Up to 11 telephone numbers can be pre-stored in the system	
	6.Including the intensity detection and infrared lighting functions	
	7. Built-in PIR detection function within 6m	
	8.using high sensitivity MIC, can make calls within 7m.	
	Standard Paking:	9.you can call the video phone to check the video of monitoring
one alarm host	10.3G standard:WCDMA,The outer TF card	
one wireless door sensor	<b>Price (USD) Sample: FOB Shenzhen \$112</b>	
two remote controller	<b>5 to 50sets :\$108</b>	
	<b>51 to 100sets:\$105</b>	
	<b>101 sets to 200 sets:103</b>
