FAQ

Connection:

- [How do I connect my cell phone to my laptop?](#)

Plug and Play Plug the BT dongle into an available USB port on your laptop, and plug the laser jack into the your cell phone. Your devices can then be connected via Mobix APP.

- [What setup is needed before using Mobix Presentation Pal?](#)

For a professional and smooth presentation, we suggest that you follow the instructions as below:

Step1: Turn on "Airplane Mode" To prevent incoming calls during the presentation.

Step2: Turn on "Bluetooth".

Step3: Select "Auto-Lock" to "never" Turn off the automatic lock timer to avoid screen lockout during the presentation. For iPhones, go to "Settings>General>Auto-Lock" and for Android phones, you can turn it off from "Settings>My Device>Accessories>Automatic unlock"

- [Can I receive incoming calls while using Mobix Presentation Pal?](#)

Yes, you can. However, for a perfect and no-interruption presentation, we suggest that you switch your cell phone to airplane mode.

- [How far does Mobix Presentation Pal work?](#)

Mobix Presentation Pal works as far as 15 to 20 meters indoor.

- [Can one Bluetooth dongle be connected to multiple devices?](#)

No, the Bluetooth dongle can only support one device at a time.
