# 1. Preface

## 1.1. Intended Audience

This sites user manual doc is intended to contributor user of FLEXCUBE Direct Banking. Contributor users have privileges to create new assets and modify existing assets.

## 1.2. Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

## 1.3. Access to OFSS Support

<https://flexsupp.oracle.com/>

## 1.4. Structure

This document is divided into the following sections: Overview (a brief introduction), Prerequisites, creation of content creation of pages, ATM branch location configuration steps and configuration for mobile devices.

## **1.5. Related Information Sources**

For more information on Oracle FLEXCUBE Direct Banking Release 12.0.2.0 sites module, refer to the following documents:

- Oracle FLEXCUBE Direct Banking Sites Developer Guide,
- Oracle FLEXCUBE Direct Banking Sites Installation Guide.doc

## 2. Overview

FLEXCUBE Direct Banking Sites help customers in rapidly rolling out their online banking portals

- FLEXCUBE Sites offers a comprehensive extensible content model which will help a bank build web content (termed “Assets”) effectively and rapidly
- The content model helps in building the following “Asset Types”
  - Product Catalogs
  - Offers
  - Service Catalogs
  - FLEXCUBE Direct Banking Widgets
  - Promotions/Recommendations
  - Images
  - General Content (Articles/Quick Links/Navigation Links etc...)
  - ATM and Branch locator

### **3. Pre-Requisites**

Oracle Webcenter Sites 11.0.8.0.0 should have been installed along with the FC Sites Content Model

## **4. Creation of content**

As mentioned earlier, FLEXCUBE Direct Banking Sites helps in building content and assemble pages to rapidly rollout an online portal

This section will demonstrate on how to build content from the various asset model already pre-configured with FLEXCUBE Direct Banking Sites

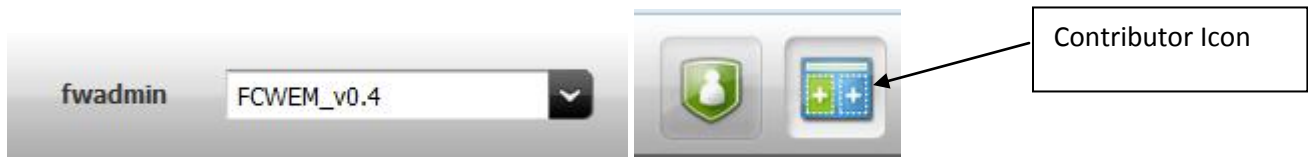

### **3.1 Product Creation**

Login as the administrator for FLEXCUBE Direct Banking Sites using the credentials "fwadmin/xceladmin"

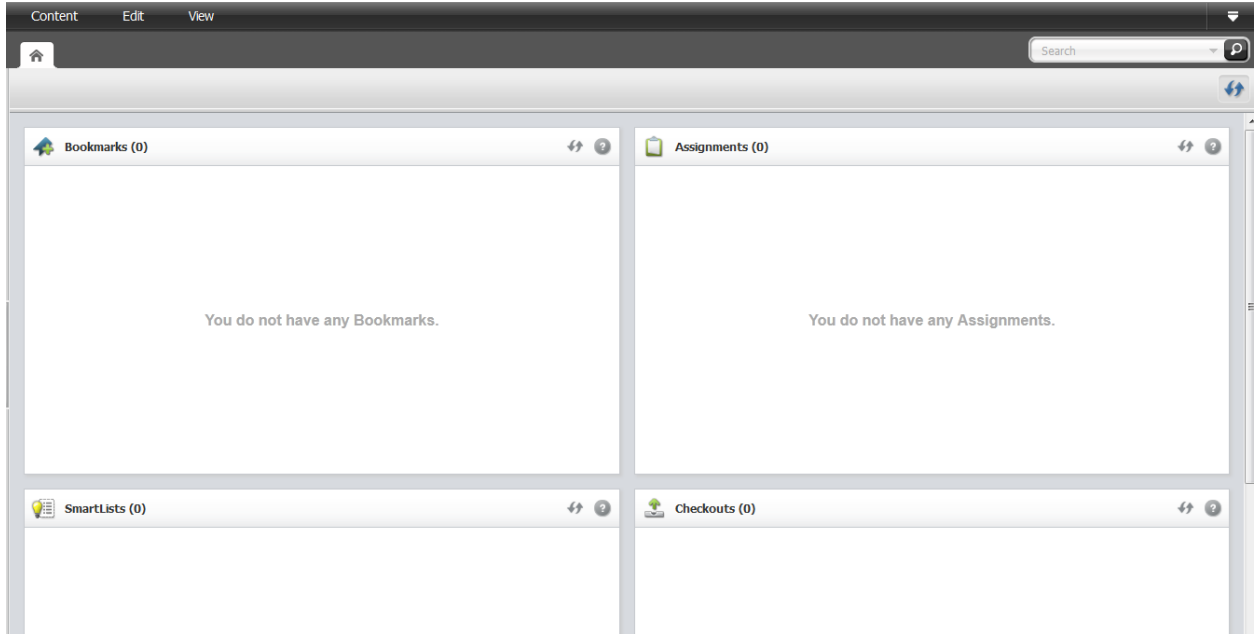

Once logged in, choose the site FCWEM\_v0.4 on the top-right corner of the screen and click on the Contributor icon on the top-left corner of the screen

The contributor interface screen is displayed. This is the main workspace for any content contributor

Click on Content -> New -> New Product. This will display a sequence of screens that will be required to create a New Product

Screen 1 -> Enter a name and choose FCWEM-Product from the list of Product Definitions. Click on Continue

A screenshot of the 'New Product' form. The form is titled 'New Product' and has a 'Form' button. The main section is labeled 'Product' and contains a 'Name:' field. Below it is a required field for 'Product Definition' with a dropdown menu. The dropdown menu is open, showing a list of options: '-- choose a definition --', 'FCWEM-Product', 'FCWEM-ProductApplicationChecklist', 'FCWEM-ProductApplicationChecklists', 'FCWEM-ProductApplicationStep', 'FCWEM-ProductApplicationSteps', 'FCWEM-ProductComparison', 'FCWEM-ProductEligibility', 'FCWEM-ProductExtras', 'FCWEM-ProductFeatures', and 'FCWEM-ProductOverview'. The 'FCWEM-Product' option is highlighted.

Screen 2 -> The list of attributes that make up the Product Definition are shown. Enter Values of the attributes one after the other and click on the "Save" icon.

FLEXCUBE Sites offers OOTB a set of Page Definitions which can be utilized by the bank to create new pages. Alternatively, it is very easy for a bank to create their own Page Definitiona

In our case, we will choose to create a Business Segment Landing Page. Choose FCWEMPageDef-BusSegLP

The screenshot displays the 'New Page' configuration window. At the top, there is a home icon and a tab labeled 'New Page'. Below the tab are 'Form' and 'Save' icons. The main area is divided into 'Content' and 'Metadata' tabs. The 'Business Segment Landing Page Definition' section contains the following fields:

- \*Name:** An empty text input field.
- Template:** A dropdown menu with 'FCWEMTEMPLATES-BusSegLayout-1' selected.
- \*Page Title:** An empty text input field.
- \*Casual Visitor Page Attribute:** An empty text input field.
- Navigation Links:** A dashed box containing a hand icon and the text 'Drop Zone'.
- FCDB Widget:** A dashed box containing a hand icon and the text 'Drop Zone'.

Enter the set of attributes as mentioned and click on the "Save" icon. You can also choose the "Web" mode to have a visual representation of the page as you continue editing it

Any sample Page can be viewed to see the kind of details that go into the creation of the Image. Click on Search -> Find Page -> Personal Banking

The screenshot shows a web-based configuration interface for a 'Personal Banking' page. At the top, there is a browser-style header with a home icon, the page title 'Personal Banking', and a close button. Below this is a toolbar with icons for 'Form', editing, a trash can, a checkmark, and another trash can. The main content area has two tabs: 'Content' and 'Metadata'. The 'Metadata' tab is active, displaying the following configuration details:

- Business Segment Landing Page Definition:** Personal Banking
- Name:** Personal Banking
- Template:** FCWEMTEMPLATES-BusSegLayout-1
- Page Title:** Personal
- Casual Visitor Page Attribute:** PERSONAL
- Navigation Links:**
  - Contact Us - Navigation Link
  - Security Center - Navigation Link
  - Ways to Bank - Navigation Link
  - Logout - Navigation Link
- FCDB Widget:** FCDB-LoginWidget
- Showcase Recommendations:** FCWEM-PersonalShowCase-Recommendation

At any time, to preview your changes, click on View -> Preview in New Window. A new browser window will open up which shows the changes of your page

The screenshot displays the GLOBAL Bank website interface. At the top left is the bank's logo and the name "GLOBAL Bank". A user ID "1351275817142" is shown in the top center. The top right navigation bar includes links for "Contact Us", "Security Center", "Ways to Bank", and "Logout". Below this is a secondary navigation bar with "Personal" (highlighted), "Corporate", "Wealth", and "About Us".

The main banner features a woman holding a gold Visa Gold Credit Card. The text reads: "Get upto 5% cash-back with our new Visa Gold Credit Card". A "Know More >" button is located at the bottom right of the banner.

Below the banner are three product tiles:

- Cashback Credit Card:** "Enjoy upto Rs 2500 Bonus Reward pointson your first spent with Futura Credit Card." Includes an "Apply" button.
- International Debit Card:** "Earn cashback and rewards on all purchases along with entertainment. Apply online in just 2 steps." Includes an "Apply" button.
- 2 Wheeler Loan:** "Your wait for a Bike ends here. Your ridemade easy for just Rs 50 per day." Includes an "Apply" button.

On the right side, there is a "Login" section with "Internet Banking" and "Business Banking" options. It includes input fields for "User" and "Password", a "Log in" button, and links for "New User? Get UserID" and "Forgot Password?". Below the login section is an "Opinion Poll" link with a dropdown arrow.

## **9. New ATM or Branch locator configuration steps**

### **Locator Asset**

Locator asset family provides the functionality to the user to locate ATM or Branch on map. To mark a new location on you need to first create a Locator Parent which specifies the country in which ATM is located. All ATM and Branch are located in same country have the same Locator Parent.

### **Creating New Locator Parent Assets**

Login in FlexCube Sites in contributor mode.

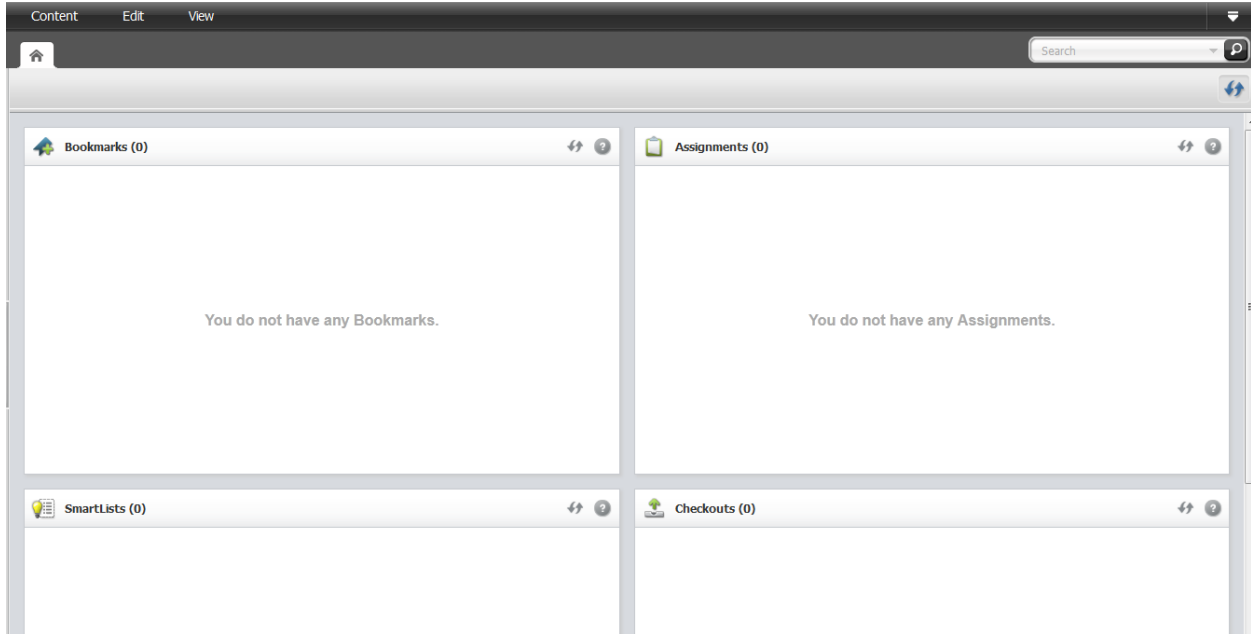

Login as the administrator for FLEXCUBE Direct Banking Sites using the credentials "fwadmin/xceladmin"

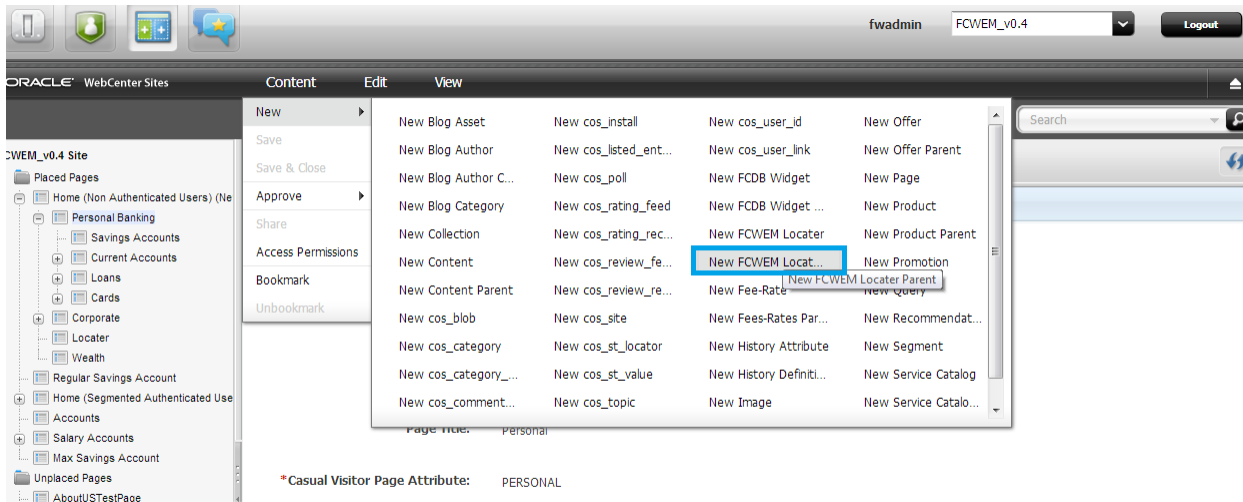

Once logged in, choose the site FCWEM\_v0.4 on the top-right corner of the screen and click on the Contributor icon on the top-left corner of the screen

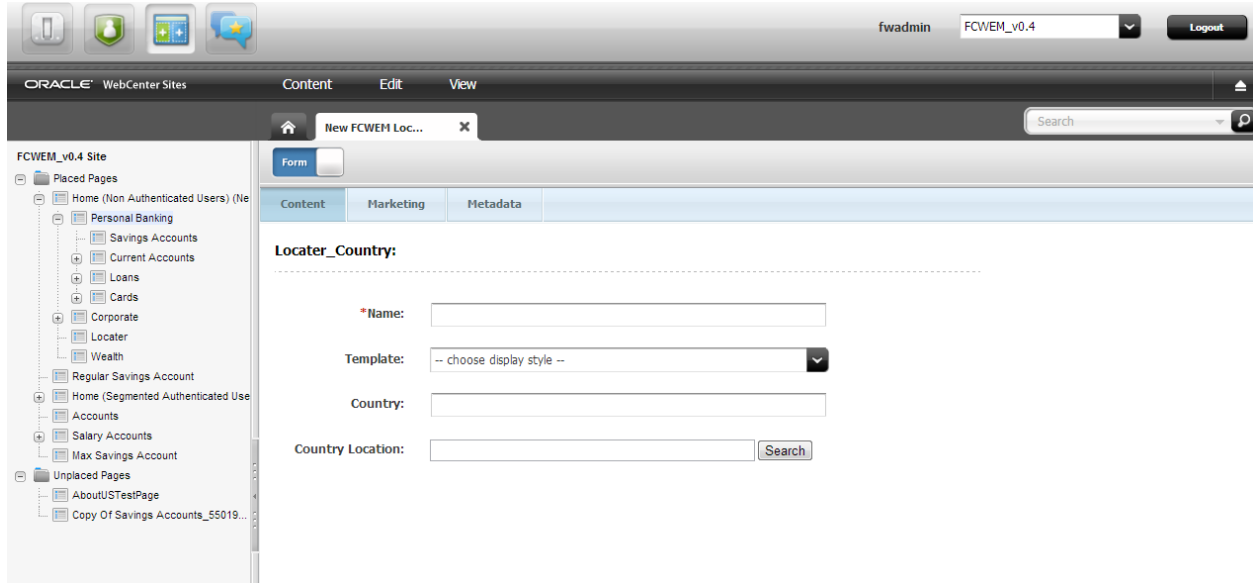

The contributor interface screen is displayed. This is the main workspace for any content contributor

Go to Content -> New ->New FCWEM\_Locater Parent

Following screen will appear

Fill the form according to the table

Column Name	Column Value
Name	Name of the asset
Country	Country name in which ATM / Branch is located
Country Location	This column contains longitude and latitude of geographical location of country. To get this column value (longitude and attitude) name of location. You can also put longitude and attitude direct in given text box.

After filling country name and in text box click search button. Following screen appears

FCWEM\_v0.4 Site

My Work

Select multi-device preview as shown below:

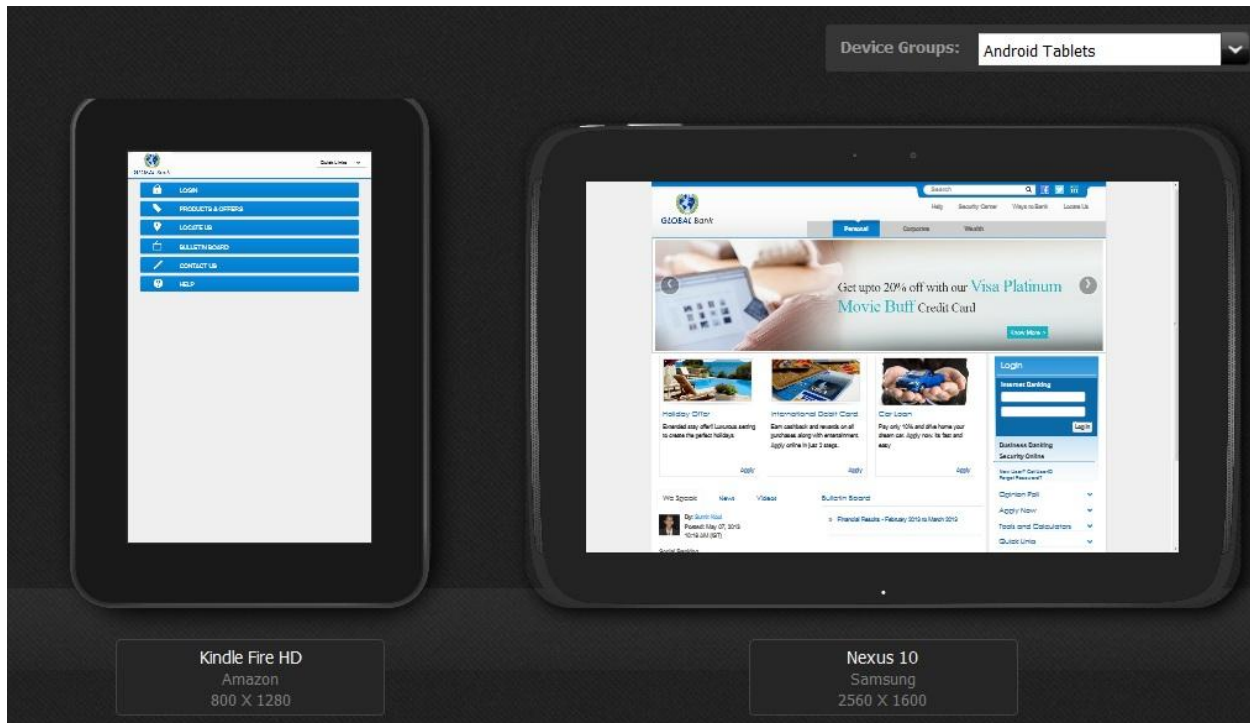

On top-right corner select the desired device:

So according the size of the device, the content will be displayed either in mobile or desktop view, as show below:

## Working Summary:

The display of the content in either view (mobile, desktop) depends on the width of the device rendering it. If the width of the device is less than 767px the mobile view is rendered while device width with greater than 767px gives desktop view.

This is done by using responsive css which gets the window's resize function and renders following divs :

```
<div class="container hidden-phone">
```

All content under this div will be rendered for desktop view

```
</div>
```

```
<div class="container visible-phone">
```

Once logged in, choose the site FCWEM\_v0.4 on the top-right corner of the screen and click on the Contributor icon on the top-left corner of the screen

The contributor interface screen is displayed. This is the main workspace for any content contributor

Select the asset for which you want to change the url. Here we are going to modify url of personal page

Open Personal page in edit mode. Following screen will appear

The screenshot shows the Oracle FLEXCUBE Direct Banking Sites interface. The browser tab is titled "Personal Banking". The interface has a top navigation bar with "Content", "Metadata", and "URL" tabs. The "URL" tab is selected. Below the tabs, the title "Business Segment Landing Page Definition: Personal Banking" is displayed. The main area contains several form fields for configuring the URL:

- URL:** An empty text input field.
- Host:** A dropdown menu with the value "http://10.184.132.138:6080/cs/fcwem".
- Device Group:** A dropdown menu with the value "Desktop".
- Template:** A dropdown menu with the value "FCWEMTEMPLATES-BusSegLayout-1".
- Wrapper:** A dropdown menu with the value "FW\_BlogWrapper".

Below the form fields is an "Add" button. At the bottom of the interface is a table with the following data:

Action	Auto Generated	Status	Info
<a href="#">Change Status</a>   <a href="#">Delete</a>	No	200	URL: /Personal.html <a href="#">View More</a>
<a href="#">Change Status</a>   <a href="#">Delete</a>	No	200	URL: /Blogs <a href="#">View More</a>

Enter the URL value which you want to for this page. In this example we want to make personal page as Home in url.

So make URL attribute value Home.

Select relative("/") host value from dropdown.

Select Device Group from drop down for which you wants to create pretty url.

Select template and Wrapper used for rendering page from drop down and click on add button.

New url for this page get added in the url list. Save asset.

The screenshot shows the 'URL' configuration page in the Oracle FLEXCUBE Direct Banking Sites application. The 'URL' tab is selected, and the form contains the following fields:

- URL: [Empty text box]
- Host: /
- Device Group: Desktop
- Template: FCWEMTEMPLATES-BusSegLayout-1
- Wrapper: FW\_BlogWrapper

An 'Add' button is located below the form. Below the form is a table listing existing URLs:

Action	Auto Generated	Status	Info
<a href="#">Change Status</a>   <a href="#">Delete</a>	No	200	URL: /Personal.html <a href="#">View More</a>
<a href="#">Change Status</a>   <a href="#">Delete</a>	No	200	URL: /Blogs <a href="#">View More</a>
<a href="#">Change Status</a>   <a href="#">Delete</a>	No	200	URL: /Home <a href="#">View More</a>

The third row of the table, representing the URL '/Home', is highlighted with a blue border.

Preview the page in new window. Now url is contain page name as Home.
