

MiLi[®]

Power Pack

HI-C10

The world's highest capacity external battery, designed especially for iPhone[®] 2G, 3G, 3GS and iPod[®] touch.

PRODUCT INSTRUCTION/USER'S MANUAL

Patent No. 200830252305.7

Welcome to a world full of extra power!

Thank you for choosing MiLi® Power Pack. We have especially designed this product for iPhone® 2G, 3G, 3GS and iPod® touch.

We hope for sure that you will be satisfied with our unique Apple approved cover with battery and that MiLi® Power Pack will accompany you and your iPhone or iPod touch throughout many great and wonderful times.

Please notice

Before you start using your new MiLi® Power Pack, please take a moment, and read this manual carefully!

MiLi® Power Pack is the world's highest capacity external battery for iPhone 2G, 3G, 3GS. It more than doubles the life of your iPhone's or iPod's internal battery! With the elegant and form-fitting design of MiLi® Power Pack we are extremely confident that you will love this product. It suits your iPhone perfectly and gives you a lot of power!

When using MiLi® Power Pack together with your iPhone or iPod, you can watch movies, listen to music, text, talk, surf, and e-mail for a much longer time. You do not have to worry about shortage of battery power when enjoying the iPhone's or iPod's colorful features. You are simply connected much longer!

Compatibility

MiLi® Power Pack is only compatible with iPhone 2G, 3G, 3GS and iPod touch. You can also charge other electronic products; e.g. MP3/MP4, mobile phones, GPS, camera and Bluetooth devices via the USB output.

Registration & Warranty

Remember you have a 1-year warranty on your MiLi® Power Pack from the date of purchase. Be sure to register your product at www.iphonemili.com in order to activate your warranty.

MiLi® Power Pack is easy to use and easy to charge!

First time charging

Use the included USB cable and the **original Apple charger** when you charge MiLi® Power Pack. Connect the USB plug to an electrical power source and connect the mini USB plug to your MiLi® Power Pack and then it will be charging. It takes about 4.5 hours to fully charge.

Future charging

Place your iPhone securely in your MiLi® Power Pack. You can charge your device everywhere without an electrical power source, as long as there is still power on your MiLi® Power Pack.

Simply dock your iPhone or iPod touch into the MiLi® Power Pack, and it will automatically start charging. After you have reach 100% power on your device, MiLi® Power Pack will still continue to deliver power to your iPhone or iPod. In other words you will save the internal battery.

If you need to recharge your MiLi® Power Pack just connect to an electrical power source again. First, your iPhone or iPod is charged and then your MiLi® Power Pack is charged. For further information on charging time, please see Technical Specifications.

• **Very important remarks**

You must only use the original Apple charger, a USB port on your PC, or a MiLi® Universal Charger, when charging MiLi® Power Pack!

Four LED lights indication

Press the power button to indicate the power level of your MiLi® Power Pack. Read the blue LED lights on the front, from left to right, as follows:

1 st LED light	Power < 25%	3 rd LED light	Power 50-75%
2 nd LED light	Power 25-50%	4 th LED light	Power 75-100%

Synchronize with iTunes®

You can synchronize your iPhone or iPod touch with iTunes without removing your iPhone or iPod from MiLi® Power Pack.

Just use the included USB cable.

Safety Quality Control

We choose grade "A" cells, either Japanese or Taiwanese made.

Protection IC circuit and other high-quality raw materials are being used. We conduct 15 tests at each stage of the assembly process, starting from parts to work-in-progress to final product.

We reject any defects found in parts or work-in-progress. Protection IC circuit prevents MiLi® Power Pack from short-circuits, over-charging, over-discharging or malfunctioning even under the most extreme conditions.

Reputation & Integrity

We passionately believe that excellent design brings more content and quality into our life. We also believe that qualified people produce quality products. Therefore, we emphasize the training and discipline of each of our employees to ensure the highest quality. During the past 25 years, we have built up our reputation to be the top brand within the area of batteries and we never compromise with our quality standards.

Experienced R&D

In order to make the best research and development of our products, we have employed our own engineers from Top Schools.

Our famed R&D team customizes battery packs in the shortest possible turnaround time.

Reliability

Our reliability goal is to achieve ZERO defects before shipping to our customers. We test all battery cells with HTT™ (High Temperature Test) technology complying with EU standards to ensure best battery performance.

Certification and approvals

Besides an Apple approval, MiLi® Power Pack also has CE, FCC and UL approvals. Furthermore, the Manufacturer has received ISO9001-2000 certification and has passed SGS inspection. All products also comply with RoHS standard as earth-friendly products.

Maintenance

In order to keep your MiLi® Power Pack operating to its maximum potential, make sure to do as follows:

1. Every 3rd month you must re-charge your MiLi® Power Pack (to 40%), if it is not in use, since this will extend the battery life.
2. Keep your MiLi® Power Pack dry and away from moist and corrosive materials. In addition, never expose to high heat environments.
3. Do not wash your MiLi® Power Pack with harsh chemicals, soaps, or detergents.

Warning

Read all instructions and warnings prior to using this product. Improper use of this product may result in product damage, excess heat, toxic fumes, fire or explosion, for which damages you ("The Purchaser"), and not MiLi® nor Shenzhen hali-power industrial co. ltd. (collectively "The Manufacturer") are responsible.

1. Do not store or charge your battery in high temperature environment, including intense sunlight heat. Do not place your battery near fire nor near other excessively hot environments.
2. Be cautious of excessive drops, bumps, abrasions or other impacts to this battery. If there is any damage to the battery such as dents, punctures, tears, deformities or corrosion, due to any cause, discontinue use and contact "Manufacturer" or dispose it in an appropriate manner.
3. Do not disassemble this battery or attempt to repair/modify it.

4. Do not expose this battery to moisture or submerge into liquid. Always keep your battery dry.
5. Do not attempt to charge this battery using any other method, apparatus, or connection other than the device's USB connector. For questions or instructions of the various ways to charge MiLi[®] Power Pack, please refer to head "Charging".
6. Do not attempt to replace any part of this battery.
7. If "The Purchaser" of this battery intends to let a minor use the battery, then the purchasing adult agrees to provide detailed instructions and warnings to any minor prior to use. Failure to do so is sole responsibility of "Purchaser," who agrees to indemnify "Manufacturer" for any unintended use or misuse by a minor.
8. All batteries have gone through a thorough quality assurance inspection. If you notice that, your battery is excessively hot, deformed, cut, abraded, emitting odor, or if it is experiencing or demonstrating an abnormal phenomenon, immediately stop all battery use and contact "Manufacturer".
9. Never dispose batteries in the garbage. It is against the law to dispose batteries in the garbage due to the state and federal environmental laws and regulations. Always hand over used batteries to your local battery-recycling center.

Only use this battery in conjunction with the appropriate mobile entertainment device. Please consult your device packaging to determine whether this battery is compatible with your particular mobile entertainment device.

"The Manufacturer" is not responsible for damages to any mobile entertainment device incurred during use of this product.

"The Manufacturer" shall not in any way be liable to you or to any third party for any damages you or any third party may suffer as a result of use, intended or unintended, or misuse of this battery in conjunction with any device or accessory other than the appropriate mobile entertainment device for which this battery is designed.

"The Manufacturer" will not be responsible for any damages you or any third party/parties may suffer because of misuse of this battery as above mentioned.
