Important Safety Instructions
Mains Supply

This power adapter is designed to operate from a 100-240 Volt, 50/60Hz AC mains supply. Other power sources may damage it.

If the power adapter or its lead gets damaged it must be replaced by a qualified service agent with an approved adapter of the same type and rating.

Symbol

This equipment is double insulated and an earth connection is not required.

Dangerous voltage constituting a risk of electric shock is present inside this equipment.

This mark is applied to show the equipment conforms to European safety and electro-magnetic compatibility standards.

There are important operating and maintenance instructions in the literature accompanying this equipment.

Battery handling and usage

Internal battery:

The product is supplied with 2 rechargeable Lithium Polymer batteries incorporated in the product which are not accessible and cannot be replaced. Therefore when the product reaches the end of its useful life it must be disposed of at a recycling centre.

Remote control battery:

Only adults should handle the battery. Do not allow a child to use this remote control unless the battery holder is inserted.
Never throw batteries on a fire! Danger of explosion.

CAUTION
RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE.
DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

Replace the battery only with the same type. The battery used in the remote control is a 3-volt lithium battery type CR2025.
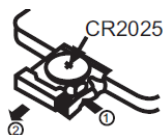

Replacing the battery in the remote control

When the operation of the remote control becomes intermittent or unsatisfactory, replace the original battery.

1. Slide out the battery holder as shown.
2. Place the battery into the battery holder with the **+** face up.
3. Insert the battery holder into the battery compartment

WARNING:

This appliance is intended for domestic household use only and should not be used for any other purpose or in any other application, such as for non-domestic use or in a commercial environment.

Prior to cleaning or other maintenance, the appliance must be disconnected from the supply mains.

The ventilation should not be impeded by covering the ventilation openings with items, such as newspapers, table-cloths, curtains, etc.

No naked flame sources, such as lighted candles, should be placed on the apparatus.

The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

Ventilation
Allow at least a 10 cm gap all around the product.

This apparatus is not suitable for use in a tropical climate.
Class 1 laser product

This product contains a low power laser device. Invisible laser radiation when open and interlocks defeated.
Avoid exposure to beam.

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

This digital video disc player employs a laser system. Use of controls, adjustments, or the performance of procedures other than those specified herein may result in hazardous radiation Exposure.

Never stare directly into the laser beam.

NOTES ON DISCS

Handling Discs
Do not touch the play side of the disc. Hold the disc by the edges so that fingerprints do not get on the surface. Never stick paper or tape on the disc.

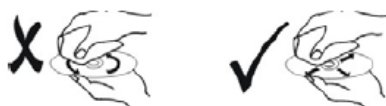

Storing Discs
After playing, store the disc in its case. Do not expose the disc to direct sunlight or source of heat and never leave it in a parked car exposed to direct sunlight.

Cleaning Discs
Fingerprints and dust on the disc can cause poor picture quality and sound distortion. Before playing, clean the disc with a clean cloth. Wipe the disc from the centre out.

Do not use strong solvents such as alcohol, benzine, thinner, commercially available cleaners, or anti-static spray intended for older vinyl records.

This symbol indicates that dangerous voltages constituting a risk of electric shock are present within this unit.

This symbol indicates that there are important operating and maintenance instructions in the literature accompanying this unit.

This symbol indicates a CLASS 2 product incorporating double insulation to protect the user from electric shock.

This symbol indicates the unit complies with European safety and electromagnetic compatibility standards.

4

Caution

- **Please use the original box and packing materials for safe transportation of this product.**

- **It is normal for the cover and rear panel to become warm after the player has been operating for an extended period of time.**

- **Do not move this product during playback. Doing so may cause damage to the pickup and the disc.**

- **Press OPEN/CLOSE on the front panel or remote to open or close the disc tray. Do not push or touch the tray while it is opening or closing.**

23. VOLUME INCREASE

24. VOLUME DECREASE

25. DISPLAY – show file and disc data

Notes
- Press 4, 5, 17, 18 for more than one and a half seconds to operate the functions marked on these buttons (MENU, TITLE, ANGLE, PROG).
- Press 4, 5, 17, 18 for less than one second, to operate the functions marked above these buttons (ZOOM, SUBTITLE, AUDIO, REPEAT).

Connections

- **CONNECT DVD PLAYER TO TV SET WITH SCART SOCKET**
  Use a SCART cable (not supplied) to connect DVD player and your TV.
  Set the [Video Out] to [RGB] for most TVs (see '**1.2 System Display Setup'**).

- **CONNECT DVD PLAYER TO AV AMPLIFIER WITH DIGITAL AUDIO (COAXIAL) OUTPUT**
  1. Connect the coaxial digital audio output to the AV amplifier with a coaxial audio cable.
  2. Set the DVD player's [Digital Output] to [Raw] or [PCM] (see **3.2 Disc Audio Setup**).
  3. Set the AV Amplifier to the digital input connected to the DVD player.

BASIC OPERATION

Playing discs

1. Switch on your TV and switch it to the correct video-in source.
2. Press the POWER button on the front panel of your DVD player to switch it on. The LED display will light; if it does not light up, make sure the player is not in stand-by mode by pressing the POWER button on the remote.
3. Press OPEN/CLOSE to open the disc tray and insert the disc with its label facing up. Press again to close the tray. The unit automatically reads the disc.
4. Navigate the disc menus by pressing the Left, Right, Up and Down buttons and confirm choices with the OK button.
5. Pause play by pressing the Play/Pause button and resume by pressing it again.
6. Stop play so you can resume from the same point by pressing the STOP button once. Stop play completely by pressing the STOP button twice.
7. Press OPEN/CLOSE to open the disc tray and remove the disc.

8

MENU

During DVD playback, press and hold MENU to return to the disc root menu.

DISPLAY

Press DISPLAY repeatedly to show various playing information.

Multi Speed Fast Motion Playback

Repeatedly press FWD button to fast forward play. It has five speeds: x2, x4, x8, x16 and x32.

Repeatedly press REV button to fast reverse play. It has five speeds: x2, x4, x8 and x16 and x32.
Press Play/Pause to resume normal playback.

Press Play/Pause to resume normal playback.

Changing the Audio Language

Press AUDIO to change the sound track or language when you play multi-language DVD video discs.

Skipping Chapters and Tracks

Press NEXT to skip to the beginning of the next title, chapter or track on a disc.

Press PREV to skip backward to the beginning of the preceding title, chapter or track on a disc.

Selecting DVD Titles

1. Press TITLE to display a list of titles on a DVD video disc. Commercial DVD movies typically will not allow this function; press and hold MENU instead.
2. Press Up, Down or numeric buttons to select the desired title.
3. Press OK to play the selected title.

Subtitles

Press SUBTITLE repeatedly to change the subtitle language or turn it off when you play DVD video discs with multiple language subtitles.

GOTO

DVD video discs are typically divided into Titles containing several Chapters. Press Left / Right button to highlight title number 📋 02/12 or chapter number 📖 01/05, press appropriate number buttons and press OK to play that part of the DVD video disc.

Playing a CD audio disc you can key in and go to a time in the track 🕙 __:__ .

REPEAT

Repeatedly press REPEAT during DVD video play to get:
🔁 Chapter to repeat the current chapter.
🔁 Title to repeat the current title.
🔁 All to repeat all the disc content, if the disc permits.
🔁 Off to deactivate repeat.

For MP3, WMA and MPEG4 files;
🔁 Track → 🔁 Folder → 🔁 All → 🔁 Off

'Track' repeats the current track. 'Folder' repeatedly plays all files in the selected folder or album.

9

SYSTEM SETUP

Press the SETUP button on the remote control, the SETUP MENU will be displayed.
There are three pages named System, DMP and Disc on top of setup menu, press
Left/Right button to switch among them, and then press Up / Down button to select
left-hand side items you want to set.
Press Left / Right and Up / Down buttons to navigate in the setting menus. Press OK to
open setting lists and confirm your choices.
Press SETUP again to exit directly.

1. System Menu

### 1.1 System Language Setup

OSD
Use this item to select the language of the setup menu and screen display.

Encoding
Set to support external subtitles in different language areas.

1.2 System Display Setup

10

SYSTEM SETUP

TV Standard
Select the different TV system.
Note: *This setting should be matched to your TV. To find out which systems your TV supports, please refer to its specifications. If set to AUTO the player output will be in the same TV system as the DVD video.*

Display Type
Select the aspect ratio. *Some discs cannot display images in the aspect ratio you choose, so you may see black bars either side or top and bottom of the picture. Adjust the aspect ratio depending on the type of the television you have.*
*'**4:3 PS**' is for older TVs and helps fill the screen when you are watching a wide screen movie.*
*'**4:3 LB**' displays the full width of a wide screen movie on a 4:3 screen.*
*Use '**16:9**' for wide screen.*

Video Out
Select the video output format wanted. Choose 'CVBS' if your TV does not support RGB.

Brightness
Adjust brightness for output video.

Contrast
Adjust contrast for output video.

1.3 Preference Settings
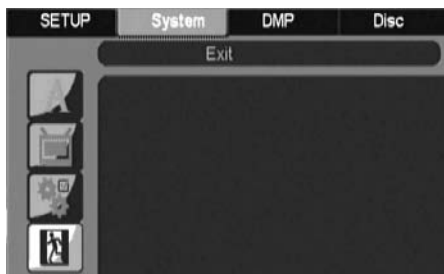

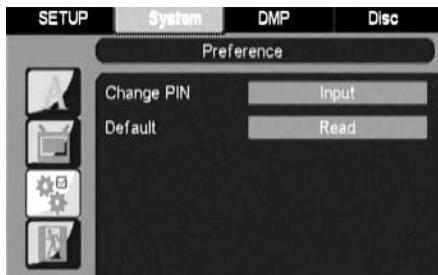

Change PIN
Change password for parental control
Note: factory default password is 6666
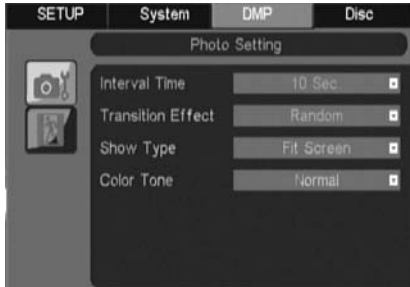

Default
Restore all settings to factory default.

1.4 Exit
Exit setup menu.

11

SYSTEM SETUP

2. DMP Menu

2.1 Photo Settings

Interval Time
Set interval time during slide show.

Transition Effect
Set transition effect for slide show.

Show Type
'Fit screen' re-sizes the photo to fit the screen. 'Full screen' shows the photo without re-sizing it.

Color Tone
You can choose 'normal' colour, black and white or 'classic' sepia tint.

3. Disc Menu

3.1 Disc Language Setup

The disc may override these settings and the chosen language must be available on the disc.

Menu
Set default menu language for DVD playback.

Audio
Set default audio language for DVD playback.

Subtitle
Set default subtitle language for DVD playback.

12

SYSTEM SETUP

3.2 Disc Audio Setup

Digital Out
Please read your digital audio amplifier instructions to find out the best setting, PCM or RAW.
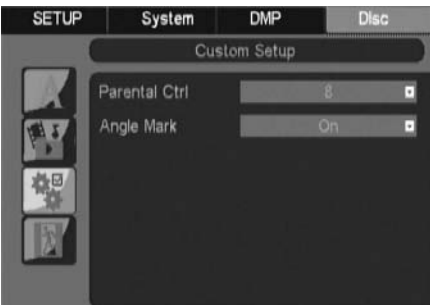

Analog out
Not used.

Downmix
Setting for down-mixing surround sound movies to 2-channel analog audio output. 'Lo/Ro' suits a stereo audio system, 'Lt/Rt' suits analogue surround-sound systems.

3.3 Disc Custom Setup

Parental Ctrl
Set parental control level. A few movies allow you to restrict viewing of scenes unsuitable for younger viewers, the lower the number the greater the restriction. Providing the disc supports parental level control, the viewer must enter a password to play a restricted scene.
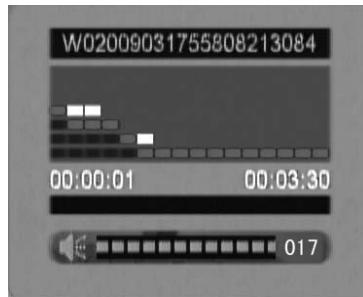

Angle Mark
Set on-screen camera angle indicator on or off.

13

MP3 / WMA / JPEG / MPEG4 PLAYBACK

MP3 / WMA / MPEG4 (MP4) / JPEG (JPG) files on disc or on USB produce a similar browser menu:

Press Left, Right, Up and Down buttons to highlight a file or folder. Press **OK** or Play/Pause button to open the folder or play the file. Picture below shows screen display during music file playback.

You can press the Play/Pause button to hold an image on screen. Skip to the next file with PREV or NEXT. Press the Stop button to return to the browser menu.

Press **USB** button to display a device selection menu, then press **Up** or **Down** and confirm with **OK** button to change file source between disc and USB device.

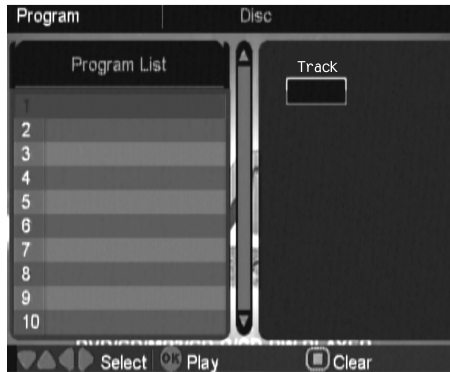

- *To avoid possible damage, carefully insert the USB device with the bar to the bottom.*
- *Some USB devices are not supported by this system.*
- *For reliable operation we recommend you plug the USB memory stick directly into the unit.*
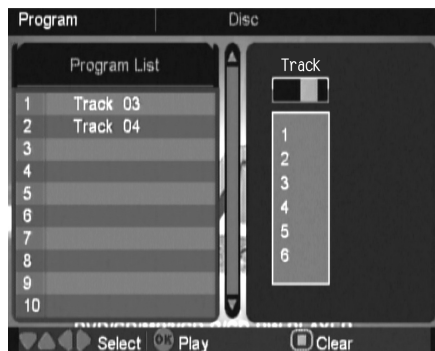

14

PROGRAM PLAY OPERATION

Program operation during CD-DA, VCD and DVD playback

Press PROG button (hold for more than 1.5s) during CD digital audio, VCD or DVD playback
and the system will display the program menu as below.

• *Only 'Title' or 'Track' column will appear for CD digital audio and VCD.*

Press up/down button to move the highlight into the 'Program list' then pressing the right button
and up or down buttons highlight the number of track, title or chapter you want to add. Press the
OK button to confirm each entry. Press OK with the highlight in 'Program list' to start
programmed play. Press the stop button to remove a highlighted item within the program list or
press the stop button in the 'Title' or 'Chapter' panes to clear the whole program.

Before the program finishes playing you can return to the program list by pressing and holding
the PROG button.

PROGRAM PLAY OPERATION

Program operation during MP3 / WMA / MPEG4 / JPEG file playback

Press Left, Right; Up and Down buttons to highlight each file you want to add to the program list then press the Right button to add it.

Press PROG button (hold for more than 1.5s) after you have added files into the program list, then the system will display the program menu. In this menu, press the right button to remove a highlighted file from the program list. Press OK or Play/Pause to start program playback. Press STOP button to stop play and revert to the Program menu. Press PROG button (and hold) to switch between file browser and program menus.

Press right button to remove file from program list when the file is highlighted:

16

Prohibited User Operations

Commercial DVD video discs prevent certain functions from working at certain points

during disc play, for example in the main menu. You will see a hand symbol ✋on-screen
when the function is prohibited.

Change to disc or power off to clear the program.

Troubleshooting

If you have any questions, please consult the troubleshooting guide below.

NO PICTURE OR SOUND

• Ensure the power button is on.

• Ensure the power outlet is operational.

• Ensure the power cord is not damaged.

• Ensure the power plug is connected firmly to the outlet.

PICTURE BUT NO SOUND

• Ensure the scart cable is securely connected and not damaged.

• Ensure the volume is turned up in VOUCH setup.

• Ensure you have set the player's AUDIO settings correctly.

• Ensure you have entered the correct AV input for your TV

• Ensure the audio is not set to mute.

SOUND BUT NO PICTURE

• Ensure the scart cable is securely connected and not damaged.

• Ensure you have selected the correct AV input on your TV

• Ensure you have set the player's VIDEO settings to match the TV.

POOR PICTURE OR SOUND

• Ensure you have set the player's AUDIO settings correctly.

• Ensure the disc is not scratched or stained.

• Ensure the AV connector or the output terminal is not damaged.

'BAD DISC' DISPLAYED

• Ensure the disc is not warped, damaged or deformed.

• Ensure the disc is not badly stained or damaged.

• Ensure the disc format is compatible with the player.

• Please check in case you have tried to play a software CD. If so, please restart the player.

REMOTE NOT WORKING

• Make sure the main unit's POWER button is on

• Ensure the remote batteries are working.

• Point the remote control directly at the player's IR sensor.

• Remove any obstacles between the remote and the IR sensor.

UNIT NOT WORKING

• Turn off the power for ten seconds and then turn it on again.

'NO DISC' or 'nULL' DISPLAYED

• Ensure the disc is not upside down.

• Ensure the disc format is compatible with the player.

• Ensure the disc is not distorted or stained.

Pirate Copy Warning

- Pirated copies of music and movies are recorded illegally using cameras or software to remove copy protection and may be recorded on sub-standard discs. This can cause problems such as;
    – failing to load at all.
    – pictures freezing or breaking up.
    – pictures dark or fuzzy.
    – incomplete additional scenes.
    – sound breaking up.
- No guarantee is given or implied that pirated copies will play on this DVD player, therefore products will not be exchanged or refunded if the only problem identified is failing to play illegal copies.
- This does not affect your statutory rights.
