Packing list

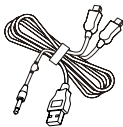

- 2 x Stereo Speaker
- 1 x User Manual
- 1 x USB connector
- 1 x Carrying Pouch

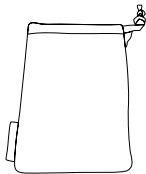

2 x Stereo Speaker

User Manual

USB connector

Carrying pouch

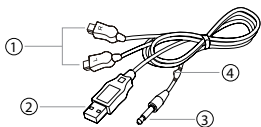

⚠ This cable is not compatible for data connectivity with other devices except for this product only.

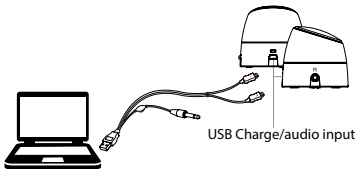

Warning

This device contains an internal power supply. Please read the manual carefully before usage.

Charging

1. Mini USB Connectors
2. Standard USB Connector
3. 3.5mm Audio Jack
4. Volume Control

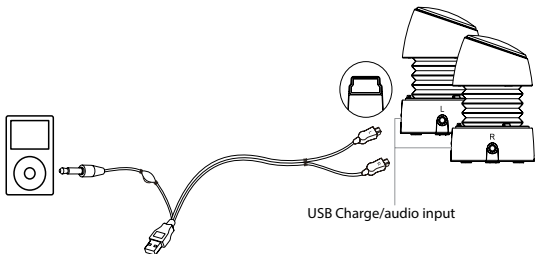

It is recommended that the twin speakers be charged for 4 hours prior to operating for the first time.

- a. Connect the Mini USB connectors to the speakers.
- b. Connect the Standard USB connector to a computer or any USB charger for charging.
- c. The LED light turns red when the speakers are charging. It turns blue when battery is fully charged.
- d. The speakers need about 4 hours to get fully charged.

Note: The speakers can be used to play music while charging though this can generate a slight humming sound in the background. It is normal for the speaker to do this if they are switched on and charging at the same time.

Operation

1. Turn on the Speaker

Switch on both the speakers. Blue LED will light up to indicate that the speakers are ready for use.

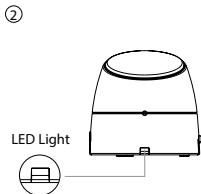

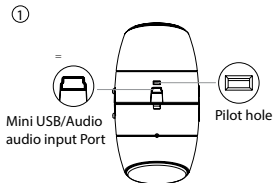

2. Playing Music

To play music, simply connect the mini USB connectors of the cable provided to the speakers.

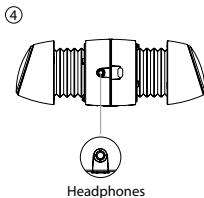

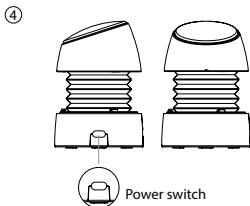

Connect the 3.5 mm Audio Jack to your MP3 player/Music device and start enjoying your tunes. Adjust the volume from your music player or using the volume control on the speaker's cable.

Layout and Description

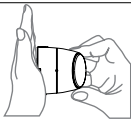

Closed Resonator

Resonator Extended

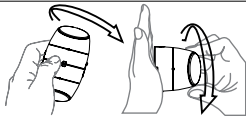

How to open/Close the Speaker Resonator

Step 1

To Open: Hold speaker firmly by its base and resonator at the top.

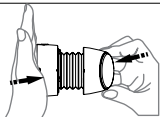

Step 2

Turn resonator anti-clockwise (5mm).

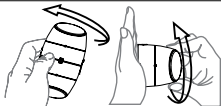

Step 3

Anti-clockwise motion will open the resonator.

Step 4

To Close: Hold speaker firmly by its base and press resonator towards the speaker base.

Step 5

Turn resonator clockwise (5mm) to close

Frequently Asked Questions

1. Why is there no power when the speaker is switched on?

Ensure that the speaker has been charged for 4 hours. The LED of the speaker will turn red when it is charging. It will turn blue once the battery is completely charged.

2. Why is the volume so low?

Volume can be controlled from your media player and also from the physical volume control in the audio cable of the speaker. Please make sure that you have adjusted both levels appropriately.

3. How do I know when the speaker gets completely charged?

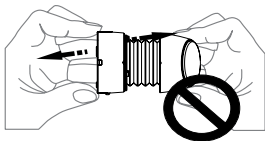

The LED indicator(s) turn from red to blue when the speaker(s) are fully charged.

4. Why is there a slight background sound coming from the speaker while charging?

The speaker makes a slight sound while they are switched on and being charged at the same time. This is normal operation and is caused due to the charge current flowing through the internal circuitry. You can either switch off the speakers (while charging) or unplug them from charging to get rid of this sound.

Specifications

Model	ZX220
Dimension	(Φ) 63MM X (H) 60MM (Φ) 63MM X (H) 120MM (Closed Mode)
Net Weight	200.4g
Speaker	(Φ) 40mm X 2
Input	L/R380 m V
Power Output	3W X 2
S/N	≥80dB
AMP Freq Range	200HZ -16KHZ
Charge Voltage	5V ± 0.5V
Suitable Temperature	32°F to110°F
Charging time	3 hours

Please do not pull the extendable resonator of the speaker with too much force - it can damage the speaker.

Warranty

1 Year Limited Hardware Warranty.

Kinivo hereby warrants to the customer of record that this product is in good-working condition and free from defects in material or workmanship under normal use for a duration of 1 year after the date of purchase. The product has been tested to meet the highest quality standards in each testing category. In the unlikely event that the product proves to be defective, Kinivo will repair or replace the product free of charge. If replacement is required and if Kinivo then no longer carries the same product, then Kinivo reserves the right to substitute the product with a replacement product of like quality and size, suitable for the intended use.

This warranty is limited to repair or replacement of the mentioned product only, is non-transferable and does not extend to any product damaged by misuse, natural disasters or any other circumstances beyond Kinivo's control. The warranty does not cover or provide for the reimbursement or payment of incidental or consequential damage resulting from breach of the limited warranty described above. Except for the limited warranty described above we offer no other warranties expressed or implied, and other than limited warranty expressly contained herein, we hereby disclaim any and all warranties, including without limitation any implied warranties of merchantability, suitability or fitness for a particular purpose.

If your product is not functioning or you have any concerns please contact Kinivo Support before returning the product.
