## Installation:

- Installing: Place the iPhone® into the back cover of the battery case and then install the frame from top to bottom.
- Uninstalling: Gently pull the bottom frame up by fingernail at the long side of the phone for easy removal.

## Notes

- When the iPhone® battery is fully drained in battery case, the iPhone® charging icon will revert to its normal usage.
- The battery case includes a USB cable. Use the provided USB cable to charge your battery case.

## Charging your Battery Case and iPhone 5/5S

- Connect your battery case (iPhone® already installed) to the USB power cable.
- Connect the USB power cable to any USB power source such as computer to start charging.
- Charge until the LED indicators read full.

## Charging your iPhone 5/5S with Battery Case

- Press the power button (about 3 seconds) to charge your iPhone® in condition of no external USB power sources
- Press again the power button (about 3seconds) to turn off the battery case when iPhone® is fully charged, which can significantly save the capacity of built-in battery so as to charge the iPhone® next time.
