## Using Air mouse

Air mouse function relies on specific keys to activate. In the open status, the mouse will follow your gestures in any direction, to help you perform the moving, clicking, dragging, etc. In any status, you can click the Switch button to lock the mouse and the terminal will enter sleep mode. In locked status, you can click any key to activate it.
You will enjoy more convenience and control on-screen menu easier.

## Auto Sleep and Wake-up feature

The keyboard supports auto sleep and wake-up. Without operation around 3 minutes, the keyboard will enter sleep mode. In sleep status, all LED indicators are off. Pressing any key can wake it up.

## Warning

· Never try to open or repair this product yourself.
· Keep this device away from fluids, such as water.

## Maintenance

· Do not attempt to disassemble the device.
. Doing so will void the warranty.
. The battery will discharge if it is stored for a long time without operation.
· Do not expose the device in extreme heat or cold environment, which will shorten the battery life.

**Disposal**

Always dispose the used appliance at a recycling centre. Do not dispose the used appliance together with the household waste.

**Notice:**

Due to 2.4G wave technology adoption, the connection can be subject to interference from obstacles, like walls, metals, or other electronic devices. Please keep the space between the keyboard and USB receiver free of obstacle.

In line with the policy of continued development, the manufacturer reserves the right to amend. The specifications without prior notification. The illustrations in the user manual are for reference only. Please operate according to the real design.
