Illuminated keyboard

Keyboard installation

1. Turn your computer off.
2. Please plug the rectangular USB connector into your computer's rectangular USB port.
3. Start your computer again.

Software Installation

The driver will be installed automatically if the auto-run is enabled in your computer, otherwise you can manually launch the installation by double clicking the file setup.exe on the CD.

Backlight

To switch the backlight on, press Scroll Lock key on your keyboard. Press the Scroll Lock key again, to switch it off.

Illuminated keyboard

Keyboard hotkeys

The Multimedia keyboard has 33 hotkeys and one scrolling wheel.

Internet Hotkeys (usable in most of Internet browsers, for example MS Internet Explorer):

Internet Hotkeys

PC hotkeys:

Office Hotkeys are programmable (using the software on the enclosed CD):

To enter the Euro sign € please, press the multimedia button **F + Num Lock** key at the same time.

Illuminated keyboard

The F1...F12 keys have additional functions (shown at the bottom of the key) which can be useful with Office software (such as MS Word or MS Excel etc). These additional functions are available in **F-mode**, when the **F** – indicator (in the upper right corner of the keyboard) is switched on. To enter the **F-mode**, just press the multimedia **F** key once.

The office keyboard software

The main program window looks as shown below:

In this window all the programmable **office buttons** are listed. To modify the default function of the button, click on it in this window. The following window will appear:

Illuminated keyboard

Here you can change the function of the button or indicate which software to run using this button. Most of useful functions and programs are listed in the drop-down list. However you can choose your own software (or URL) to be launched with this button.

Illuminated keyboard

Netropa Internet Receiver is supplied on the CD as well. This software allows you to read the latest news headers and quickly open the article you like:

All the news headers are slowly scrolled from the right to the left (in the upper part of the window). You can scroll the news line manually using the left mouse button (when the mouse cursor turns into the 'hand').
