A Personal Note From Ralph Thomas

I hope you enjoy looking through the new look of the Summer 2008 PI Catalog! Inside this catalog, you will find hand selected new generation cutting-edge investigative gear and training products. It's important to note that this is just a very small sampling of our complete line of investigative gear and training products, which now numbers over 10,000 products. You will find our complete line of everything investigative under the sun on the web at www.pimall.com/nais.

I would also like to thank those investigators, law enforcement and security professionals who have made purchases from our company over the past thirty years.

If you are a new client, you will find our company a cut way above the run-of-the-mill equipment and training products dealer. We now import about 90% of what we offer and have been in business for 30 years. We stock almost everything we offer and you are assured fast service when you place an order. Ninety percent of our orders are shipped the same day they are received when you order before 3:00 PM (CST). When in the Central Texas area, be sure to plan to stop in at our showroom. If we can be of service to you, feel free to contact us at 512.719.3595.

My Best,

Ralph Thomas, President

World's Smallest Digital Video Recorder

. . . and digital audio recorder

MICRODOT SQUARED TINY DVR

- Very Small – Only 2 1/4" X 2 1/2"
- Powers The Included Multi-Functional Button/Screwhead Pinhole Camera Kit
- Time And Date Stamping
- Up To 45 Hours Recording Time
- High resolution (640 X 480) @ 30fps

Actual Size!
An Amazing
2 1/4" Thick

Pocket-sized for a DVR is an understatement! Measuring in at a mere 2 1/4 inches by 2 inches by 1/2 inches, this little gem has got to be the world's smallest DVR specifically designed for covert video recording! The tiny DVR records to a Mini SDcard which will give you up to an amazing 45 hours of recording time!

The amazing camera for the MicroDot DVR is really three cameras in one! First, it's a button camera which includes all matching buttons to make a set. Secondly, you can take the button cover off and use it as a standard pinhole camera. Thirdly, you can

attach a screwhead and make it a screwhead camera. This high grade video camera is powered by the DVR itself so there is no battery needed. It will record clear video in low light conditions, making this system ideal for walk around covert video recording inside building and bars!

MicroDot Squared Tiny DVR With Button/Pinhead/Screwhead Camera Kit \$329.95

Without Camera Kit \$269.00

No, that's not a cell phone.

He's actually covertly recording video!

PV-900 INVISIBLE SECRETS DVR/COVERT VIDEO CAMERA

Hidden High Resolution
Digital Video Recorder
Built Into A Cell Phone!

- Built-In High Resolution Low Light CCD Camera
- Motion Activation
- Time and Date Stamping
- Unique Invisible Function For Covert Video Recording
- Can Also Be Used As A DVR For Use With External Cameras
- Law Enforcement Grade

High-end covert bodywear innovation at it's best!

The PV900 Invisible Secrets DVR is a law enforcement grade DVR built into a cell phone that has motion activation and time and data stamping. The high grade, high resolution low light hidden CCD camera is built into the top of the cell phone. Press a secret function key once you turn the covert video system on for recording and the screen of the cell phone looks like a normal cell phone. No one but you knows that it is recording video. Once the covert video operation footage is obtained, simply walk away with your cell phone. Press another secret function key and the high resolution video with time and date stamping can then be reviewed with the high resolution cell phone screen. The PV900 Invisible Secrets DVR can also be used as a standard pocket DVR to plug external cameras into it and record high resolution video powering the cameras of your selection.

PV900 Invisible Secrets DVR	\$695.00

WIRELESS GUN CAMERA

With Laser Sight And Receiving DVR

Shoot Around Corners
Without Exposing
Head Or Body!

- Obtain Video Evidence Every Time A Gun Is Pointed And/Or Fired!
- 450 Lines of Resolution Color CCD
- Built-In Laser Sight
- 80 degree angle of view
- Power Source-Built-In Rechargeable Battery
- Law Enforcement Grade

The new generation high resolution Wireless Gun Camera attaches to guns and sends the wireless video to our PV700 wireless DVR which can be worn on the arm with a specially designed arm band. With the viewing screen, one can shoot around corners or simply take video any time the gun is aimed for evidence preservation.

Innovative design and law enforcement grade gives you video evidence gathering on every gun pull and permits one to see around corners. The high resolution GunCam attachment has a built-in laser sight so you can hit the target every time.

Featuring CoverTek™!

Top Quality Stationary Covert Video Camera Systems With Motion Activation And Time And Date Stamping!

Completely Self Contained With Covert Camera, Built-In Digital Video Recorder (DVR) Motion Activation And Time And Date Stamping!

Up until now, stationary covert video required time consuming wired setup or wireless connections that depended on good reception which didn't work half the time. All of these problems and time consuming tasks have been eliminated using the new generation

CoverTek™ Covert Video Systems. By using our new patent pending covert video stealth recording technology, we have eliminated the requirement of additional recording equipment for a covert video system. These new generation self contained covert cameras feature motion detection, MPEG 4, 30FPS, JPEG images for even longer record time, and Time & Date stamp. For ease of storage the CoverTek™ records directly to a SD card!

- UV Light and Other Detection Aids
- Video Camera Detection
- Books and Manuals On Countermeasures

www.pimall.com/nais/e.menu-d.html

Parabolic Ear Sound System

The Parabolic Ear Sound System is an exceptionally portable and rugged parabolic microphone which is the price buster of competitive models. The detachable cone is only 12 inches in diameter and is constructed of waterproof, shock proof material. This product increases sound 37 times and, in certain cases depending upon other surrounding noise and wind, you can pick up a bird call at 400 yards. Our Parabolic Ear uses a very sensitive microphone with intricate circuitry to amplify sound (do not confuse with cheap look-a-like toys that are on the market). The sounds are transmitted to an extremely high grade amp. and then to high grade headphones which include an automatic safety shut-off that prevents harmful loud sounds from reaching the user's ears. Dish helps pinpoint and directionalize sound and reduce noise background. Unit has tape recorder patchcord for tape recording.

Parabolic Ear Sound System	\$165.00
More information on the web: www.pimall.com/nais/bolica.html	

Micro Small Shotgun Mic

The World's Smallest Ultra-Powerful Shotgun Mic System

Attention Investigators!

Special Invitation To Join The World’s Largest Organization Of Professional Investigators – NAIS

What Is NAIS?
The National Association Of Investigative Specialists is an American trade association of private investigative professionals that focuses in on marketing investigative services, developing new investigative techniques, providing training programs for those in practice or those wishing to enter the profession, developing positive media coverage of the investigative profession, acting as a center for case referrals and positive publicity referrals to members, and providing the overall membership with group buying power. Some of the programs of NAIS are described below.

Publicity
For 20 years NAIS has been seeking positive publicity for private investigators and the private investigative image. All forms of the media’s attention has been obtained including television, print, and radio. National television shows, newspapers, radio talk shows and other journalists regularly contact NAIS when they are doing stories related to various aspects of investigation and NAIS matches up these requests with the right type of investigator. As a result of this program, NAIS and its members have appeared on just about every major television talk show and just about every major newspaper.

NAIS Newsletter: Pi Bites
Published at least every other week, PI BITES keeps you current on the private investigative profession with the latest news, articles, free online aids, databases and resources you will find quite valuable. Previously Email based, PI BITES is now accessed on the web and will help you keep up with the latest trends and technology related to the private investigative profession. You will find PI BITES full of late-breaking news of interest to private investigators, investigative articles and white papers, the latest free online books and newsletters to access, the latest free database searches on the internet, the latest internet search engines and search engine news you need to know about, the very latest free software tools you can get, reviews on relevant web sites for private investigators you will find quite useful.

Members-Only Access & Interactive Computer Disk
New iun 2000! NAIS members only obtain an interactive computer disk that you open in your web browser that gives you instant access to the NAIS members-only web site. This includes a massive collection of hundreds of articles on conducting various types of investigations (a ten year collection) and a massive collection of thousands of free public records searches you can run. You also access free software downloads, free online books, free newsletters you can subscribe to, and tons of other NAIS members-only

investigative aids. There is even free graphics files and web page setup aids you can use to develop and market your own web site. Aside from the huge assortment of top quality graphics, you’ll find the massive collection of free digital marketing aids extremely useful to vastly increase traffic to your own web site.

Hundreds Of Free Online Books
NAIS maintains a massive library of free downloadable and online books and training aids you will find quite useful that numbers in the thousands. Many of these investigative manuals and internet aids are downloadable PDF files and some have web-based access.

National & International Exposure
Members have come to rely on the NAIS membership directory but that is just the start of the massive exposure. The membership directory is distributed nationally through the P.I. Catalog and other directory sellers. It is listed both in Books In Print and The Directory Of Directories and distributed by Baker & Taylor, the world’s largest book distributor. NAIS members are automatically published in the Regency International Directory published in England one time per year. The Regency International is sold throughout the free world as the top worldwide investigative directory. The NAIS membership directory is also posted here on the NAIS web page.

Computerized Investigative Forms You Can Use Again & Again
On your members-only CD-ROM you will find a huge selection of investigative forms, contracts and checklists that will open in Microsoft Word and Word Perfect. You can use the forms again and again, place your own company name and contact information on them and modify them as you see fit. These forms are being sold on CD-Rom for \$35.00 per disk but they are included free with your NAIS members-only CD.

Huge Collection Of Pi Web Graphics & Logos!
As an NAIS member, you are given access to a huge collection of investigative web graphics and logos you can use on your web site that will make your web pages hum! This collection by itself sells for \$85.00 on CD-Rom. You will find a huge collection of top graphics, badges, animations, bars, buttons, eyes, icons, slogans and a whole lot more!

Free Investigative Searches On The Internet
NAIS maintains a HUGE assortment of links to free public records searches on the internet you can access that hands you thousands of free public records searches you can use again and again. This

information is being sold by itself for \$65.00 on CD-Rom but NAIS members access it online for free.

Internet Exposure
You know, or should know, that millions of people and professionals are now accessing the Internet. The NAIS membership directory is posted and can be searched on the Internet.

Discounts & Freebies!
Any way you add it up, the discounts and freebies you start out with exceed the cost of joining NAIS! As an NAIS member, you will find huge discount offers. Aside from obtaining a 10% discount on anything listed in the PI CATALOG, PallTech has agreed to waive its sign-up fee (normally \$100.00) for any NAIS member that qualifies. (Online users must be a licensed private investigative agency, law firm or licensed collection agency.) There is a sea of information services out there and we have reviewed most of them. We find PallTech to have more of the computer searches most used by investigators with better quality data. So we went to them and asked them if they would waive the sign-up fee for NAIS members and they agreed. NAIS members also obtain one free copy of PI Magazine, the nation’s leading trade journal for professional investigators. As an NAIS member, you will obtain the Online edition Of Free Searches On The Internet (Normally sold on CD for \$65.00, an online edition of PI Web Graphics (normally costing \$85.00 on CD-Rom) as well as Professional Investigator’s Forms (normally costing \$35.00 on CD) which is included free of charge on the NAIS members-only CD. Any way you add it up, the discounts and freebies you start out with exceed the cost of joining NAIS!

Special Attesting Documents & Certificates
NAIS members receive a handsome two-color certificate suitable for framing and placement on your office wall and a certificate of appreciation from NAIS. Only NAIS members obtain other certificates from the purchase of training material found in the P.I. Catalog.

Seminar–Convention
NAIS puts on a training seminar and convention featuring top speakers and vendors. It’s your chance to meet other investigators

from around the country, learn new and exciting things happening within the profession and see the latest products and services offered by vendors.

Additional Free Benefits Of Membership
Members obtain a free review copy of P.I. Magazine and a free set of professional investigative forms you can use in your business. A free listing in the prestigious Regency International Directory which is published one time per year in England is also free of charge. The Regency International Directory is often called “The Blue Book” of private investigation containing investigative agency listings throughout the free world. It is marketed and sold in every free country in the world.

NAIS Pi Network Forum
As an NAIS member, you can join the NAIS members-only Network Forum to keep in touch with other NAIS members. Much like an internet mailing list, you can subscribe in digest form to obtain all messages to the forum for the day in one email message. It’s a place to ask questions, get help, refer cases and network with other NAIS members.

NAIS Can Help You Become More Successful For Only \$3.55 Per Month!
With the massive exposure, positive publicity, training, discounts and other investigative marketing and business aids, NAIS is in a special position to help you become more successful in private investigation. A close look at all these membership benefits will reveal that NAIS offers more than any other organization. It’s become known as the service organization that pays instead of costs. You’d think that membership would be high with all the benefits but NAIS keeps its membership fees low. It’s only \$85.00 for two years plus \$12.00 shipping and handling.

Want More Proof?
Go to: www.pimall.com/nais/nais.j.html and listen to actual audio testimonials of what NAIS members have to say about becoming a member of NAIS.
Or go to: www.pimall.com/nais/say.html and read what NAIS members have penned about their membership yourself.

TERMS AND CONDITIONS By purchasing buyer represents that he/she holds seller harmless for any use of any and all information and products. It is the responsibility of the buyer (not seller) to ascertain and obey any and all applicable local, state and federal laws in regard to possession and/or use of any item in this catalog. When applicable, items are sold subject to Public Law 90-351, Title III 18 U.S.C., Section 2511. Prices and availability subject to change without notice. All items shipped insured U.P.S. that come from our office and your Physical address and telephone number is needed, If you provide only a P.O. Box, we cannot be held accountable for any and all lost or damaged orders sent via the U.S. Postal Service. For your protection and ours, a security check is run on all orders including credit card orders for fraud protection. No sales to minors.

Some items (where noted) are restricted to certain specializations and/or functions and some (where noted) require a license. Equipment comes with a 90 day warranty. Defective products will be replaced. CD Rom products, equipment and videos are non-returnable. All sales on these items are final.

We stock an ample supply of products found in this catalog. The overwhelming majority of products (except custom badges) are shipped out within 24 hours of receiving the order. Based on our own internal security check, we reserve the right to hold an order by company or personal check a reasonable time pending check clearance. Credit card orders require a security check determining the validity of credit card and credit card ownership. On occasion a book we do not publish will be placed on backorder pending restocking by the publisher. In such rare cases, you will be notified that the material is on backorder. Although most backorders are filled quickly, some backorders may take anywhere from one to six weeks if the book in question has gone out of print and/or is being updated.

BADGE ORDERS: The nature of custom badge manufacturer is unavoidably time consuming requiring several different processes. Custom badges take anywhere from four to eight weeks to manufacture. If you call our office during this process, your badge is pulled from the manufacturing line for verification of order and the product is then placed at the end of the line and time starts all over again causing further delay in the making of your badge. Unless the time span of eight weeks has passed, we urge you to wait for the process to take care of itself.
