Rapid Fire

Rapid Fire is changed by pressing the Sync button. Every time the Sync button is pressed the LED will blink in the following order:

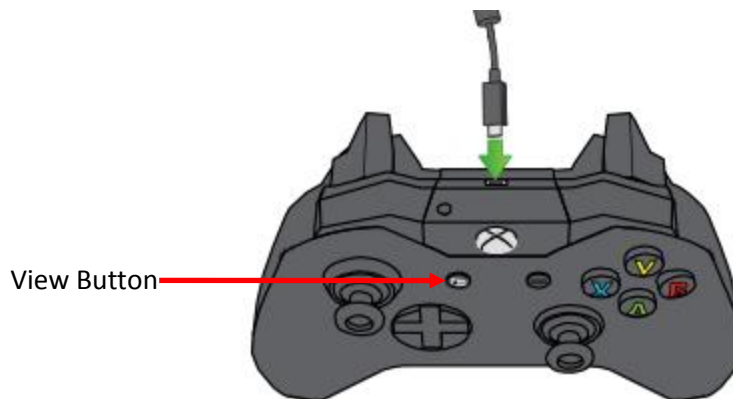

Sync Button

1. 1 Blink = Rapid Fire disabled.
2. 2 Blinks = RT Rapid Fire enabled.
3. 3 Blinks = LT Rapid Fire enabled.
4. 4 Blinks = Akimbo (both triggers) Rapid Fire enabled.

By default, RT Rapid Fire is enabled.

Button Re-Mapping

By default, A, B, X and Y are mapped to T1 – T4. To change the mapping:

1. Plug in USB cable into controller. This step is not necessary, but recommended.
2. Press and hold the View button for 3 seconds. After 3 seconds the Xbox LED will blink, DO NOT RELEASE THE VIEW BUTTON.

View Button

3. Press any of the Xbox One controller buttons you want to re-map. LED will blink.
4. Press any of the additional buttons (T1 – T4). LED will blink.
5. If you want to continue re-mapping more buttons, go back to step 3. Otherwise go to step 5.
6. Once you are done re-mapping, release View button.

You can remap up to 12 buttons:
