

hard disk MAX

DESIGN BY NEIL POULTON

USB 2.0

MAX Capacity, MAX Security.

Simple and Efficient

The LaCie Hard Disk MAX, Design by Neil Poulton offers an enormous amount of storage capacity yet it's easy for anyone to use. This simple and efficient drive contains two internal hard disks for maximizing capacity in a relatively compact space. Setup is nearly effortless; it's plug & play and offers customizable formatting with LaCie Setup Assistant. LaCie Backup Assistant software is also included for PC and Mac® users for easy, automatic backups.

Discreet Design and Function

The LaCie Hard Disk MAX, Design by Neil Poulton adds sophisticated style to your desktop yet its presence is quiet and unobtrusive so it blends into any work environment. This sleek, subtle hard disk has an all-black mirror-polished finish and a unique distinguishing feature—a cool, blue LED strip on its underside that creates an ambient glow. It even turns red to warn you if a problem arises.

RAID For Capacity/Security

This advanced hard disk comes with two RAID options so you can choose the configuration that best matches your needs. Easily select your desired RAID level with the manual switch on the back. Choose RAID 0 (BIG) for large capacity or RAID 1 (SAFE) for the highest security. RAID 0 is known as a striped set because it stripes data evenly across the two disks for optimum performance. RAID 1 is known as mirroring because it creates an exact mirror or copy of a set of data onto two disks, so it's best used when data security is more important than capacity.

Multiple Uses

With versatile Hi-Speed USB 2.0, the user-friendly LaCie Hard Disk MAX, Design by Neil Poulton makes a great companion to your PC or Mac computer. Use it as a reliable data-shuttle between USB-equipped desktop and laptop computers or to regularly back up your entire system or upgrade capacity when your computer's hard drive is full. Thanks to the USB expansion port on the front, it can even be connected to another USB device—such as another external hard drive—for backups.

1TB*

1420 movies or

270,000 songs or

330,000 photos**

- Quadruple interface for universal connectivity
- RAID: BIG and SAFE for maximum capacity or optimal security
- Front USB hub feature
- Full software bundle: easy formatting and backup

hard disk MAX

DESIGN BY NEIL POULTON

Features

- Plug & play
- USB hub port
- Cool blue LED; turns red as a warning indicator
- Easy RAID selection
- LaCie Setup Assistant: easy customizable formatting
- LaCie Backup Assistant software for PC/Mac
- Mac: Time Machine® compatible

Box Content

- LaCie Hard Disk MAX, Design by Neil Poulton
- USB 2.0 cable
- External power supply
- Quick Install Guide
- LaCie Software Utilities and User Manual preloaded

Minimum System Requirements

- Computer with a USB 2.0 port
- High-speed Internet for online storage
- Latest version of Windows® XP, Windows Vista® , Windows 7 / Mac OS X 10.5, 10.6
- Minimum free disk space: 600MB recommended

Capacity availability varies from region to region.
