1. Introduction

1.1 System Overview

CashDoctor®, Inc. was founded by Rob Stehlin in 2003. At the time, he foresaw a crisis coming in health care and how consumers would be consumed with increasing cost and lack of information. The first model was based on the participation of doctors, hospitals, and health care professionals. This model failed to develop because the health care industry did not foresee the value in consumers being able to see the actual cost of services and allowing consumers to comparison shop. From this revelation comes the NEW CashDoctor® 3.0 - CONSUMERS sharing information while taking control of the healthcare model in their OWN community for their own benefit. CashDoctor is saying no to Insurance company control. We are saying no to hospital control and we are saying no to Doctor control. CashDoctor® is SAYING YES to consumer SHARING and CONTROL of healthcare.

1.2 System Requirements

The mobile application requirements including software, hardware, and other requirements are listed below.

1.2.1 Hardware Requirements

- Mobile device with Android or iOS operating system.

1.2.2 Software Requirements

The recommended systems are-

- Device running at least Android 4.0 or higher
- Device running at least iOS 7 or higher

1.2.3 Other Requirements

- Device must have an internet connection.

2. Installation Procedures

The application can be downloaded from App store for iOS device and Play store for Android device.

2.1 Initialization procedures

1. Ensure that device is properly connected with the internet.
2. Download application from online store that is compatible with the device's OS.

2.2 Re-installation

1. Uninstall the application by following the steps in section 2.3
2. Re-install the application starting from initialization by following the steps in section 2.1

2.3 De-installation

For iOS device:

1. Press and hold on application icon until the 'X' mark appear on top-right corner of the icon.
2. Press 'X' and then OK to remove the application and all its data.

For Android device: Users can use uninstaller application or follow these steps

1. Go to device's setting > Apps
2. Select CashDoctor
3. Select uninstall

3. Operational Procedures

After completing the installation, user can open the application by press on the application's icon.

Login and Register: This is the first page that comes up when the user clicks on the app icon on the phone. User can sign up for an account or login if he already has an account.

Register: After clicking on “Sign Up Now!”, user is taken to the page where he gets an option to register either as a consumer or a provider.

CashDoctor	CashDoctor
<input type="text" value="Username"/>	<input type="text" value="Username"/>
<input type="text" value="Email"/>	<input type="text" value="Email"/>
<input type="text" value="Password"/>	<input type="text" value="Password"/>
<input type="text" value="Confirm Password"/>	<input type="text" value="Confirm Password"/>
<input type="text" value="First Name"/>	<input type="text" value="First Name"/>
<input type="text" value="Last Name"/>	<input type="text" value="Last Name"/>
<input type="button" value="Register"/>	<input type="text" value="Business Name"/>
<input type="button" value="Back"/>	<input type="text" value="Address"/>
	<input type="text" value="City"/>
	<input type="text" value="State"/>

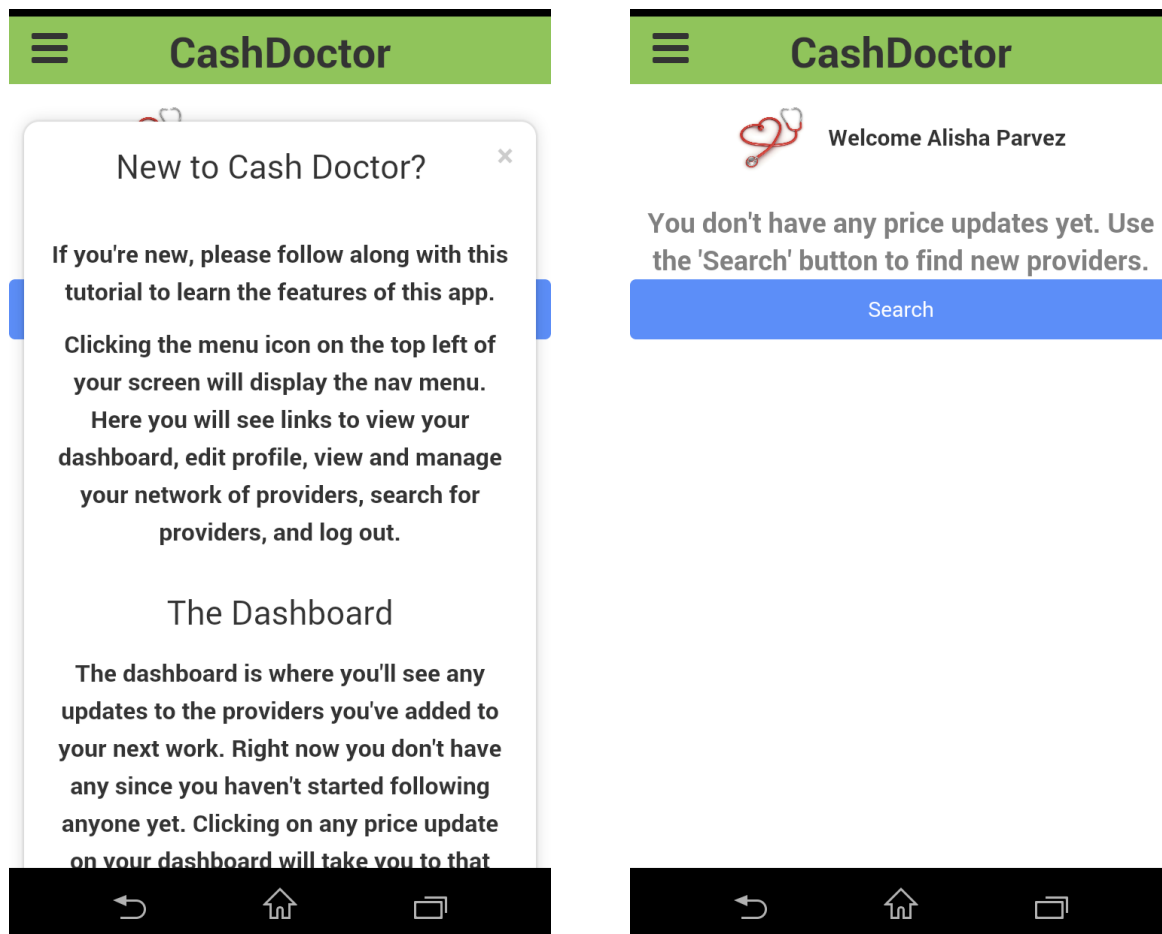

This page comes up when the user clicks on “Register as a Consumer”.

The page on the right comes up when the user clicks on “Register as a Provider”. As a provider, more details are needed for the consumers to look you up, so the form is longer.

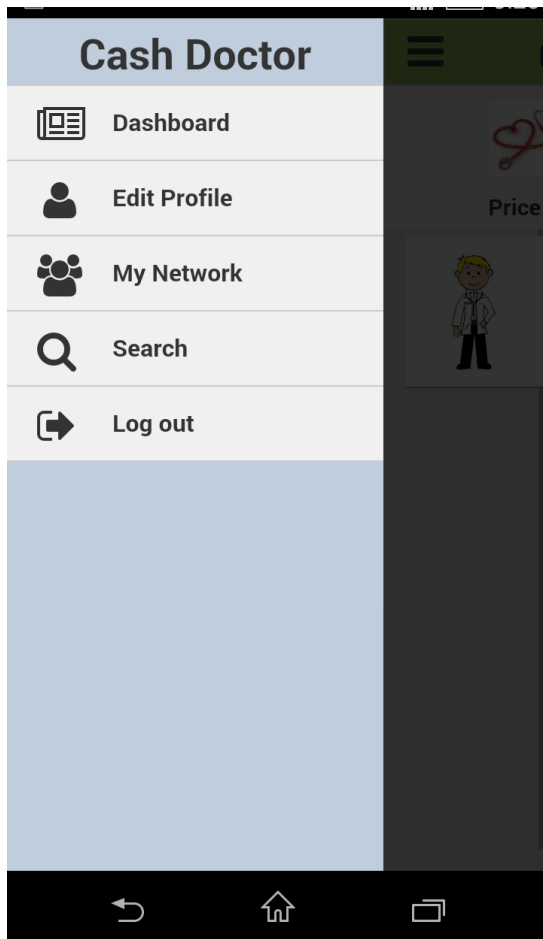

The image shows a mobile application interface for 'CashDoctor'. At the top, there is a green header bar with the text 'CashDoctor' in white. Below the header is a white rectangular input field with the placeholder text 'Enter your email here'. Underneath the input field are two buttons: a blue button labeled 'Submit' and a red button labeled 'Back'. At the bottom of the screen is a black navigation bar containing three white icons: a back arrow, a home icon, and a document icon.

Forgot Password: This page comes up when the user clicks on “Forgot Password?” on the login screen. After entering email id and clicking on ”submit”, user can get a new password.

Dashboard: After logging in, Dashboard comes up. If you are logging in for the first time, it will show a tutorial otherwise you can see the recent updates of the providers you are following a.k.a the providers in your network.

Sidebar: This sidebar is accessible from every page after logging in. It takes you to every page in the App.

My Network: Clicking on “My Network” from the sidebar takes you to this page where it allows you to search providers and follow them or you can see the providers added in your network.

The image shows a mobile application interface for CashDoctor. At the top is a green header bar with a hamburger menu icon on the left and the text "CashDoctor" in the center. Below the header, the word "Search" is displayed. The search interface includes several input fields and buttons: a distance dropdown menu set to "10 miles", a text input field with the placeholder "Search by City, State or ZIP", a blue rounded button labeled "Get location" with a location pin icon, another text input field with the placeholder "Search By Name", and a speciality dropdown menu labeled "Search by Speciality". Below these fields are two green rounded buttons labeled "Find" and "Cancel". At the bottom of the screen is a black navigation bar containing three white icons: a back arrow, a house icon for home, and a document icon.

Search: Clicking on “Search” from the sidebar takes you to this page where you can search for the providers according to the categories listed above.

This page comes up when user enters something to search. An extra hyperlink “adding a provider” shows up which lets you add a new provider if you can’t find the desired provider.

Back

Share: This page comes up when a user clicks on “Share Invoice” in search results. The user can share invoices using this page and rate and review the providers.

Provider Profile: If a user clicks on the provider's name that comes up in the search results, this page comes up.

The screenshot displays the CashDoctor app interface. The top header is green with the 'CashDoctor' logo. Below the header, the doctor's profile for 'Ekasit Ja Doc21' is shown, including a stethoscope icon, address (1174 W 35th St, Los Angeles, California 90007), and phone number ((213)880-9466). There are 'Follow' and 'Post' buttons. Below the profile, a table lists service reviews for Dr. Ekasit Ja Doc21.

Date	Service	Price
04/10/2015	Fracture	\$200
04/10/2015	Fracture	\$200
04/10/2015	Fracture	\$200
04/10/2015	Fracture	\$200
04/10/2015	Fracture	\$200
04/10/2015	Fracture	\$200
04/09/2015	cold	\$30

A modal window titled 'Fracture' is open, showing details for a specific service: Price: \$200, Date: 04/10/2015, Shared by: StevenTest, Paid with: Cash, PPO: none. The description states: 'Had to get a hard plaster put'. The rating section asks for feedback on price, staff respect, and professional thoroughness, all with a rating of 0.

If the provider has services listed, the page on the left comes up. The user can click on any service and the page on right pops up.

If the User clicks on the logout option in the sidebar, his session is closed and he is taken back to the first login page again.

4. Troubleshooting

4.1 Frequently Asked questions

1. Why should I use CashDoctor?

CashDoctor is an app for any user

Cash doc is a convenient and easy way to find and learn about doctors in your area about their reviews, prices, service, specialities. By sharing your experience of doctors, you can help others and also expand your network of doctors.

2. Should I register as a provider or as a consumer?

If you are a doctor you can register as a provider or a consumer.

If you are a person seeking healthcare, you should register as a consumer only.

3.If I don't find a doctor in your database, what should I do?

You can add a doctor using “Add a Doctor” button from the search results page.

4.2 Error Codes and Messages

<< List and identify all error codes and messages generated by the software, the meaning of each message, and the action to be taken when each message appears.>>

4.3 Note

<i>Term</i>	<i>Meaning</i>
Provider	A provider is a person who provides medical service to people
Consumer	A consumer is a person seeking healthcare and want information of doctors in their area, or according to specialties, or a specific provider.
Network	A collection of all the providers the users follow.
