Slimming Spa  
Model: YH-5302**

**Part one Introduction**

**1.1 unoisetion cavitation principle**

Unoisetion Cavitation 2.0 is offering a new treatment which we believe can potentially replace traditional cavitation. Unoisetion customers can get results they

are satisfied with, without having to undertake buzzing and noise in ears

Benefits can include:

#### A. SAFETY

Unoisetion New Cavitation Technology--Annoying noise in ears caused by cavitation will be reduced 3 times,the clinical data indicated, more comfortable weight loss experience for you

#### B INTELLIGENCE

Intelligence frequency adjustment technology can adjust the frequency according to the temperature of the derma during fat dissolve, people will not feel very hot during treatment, it is comfortable warm

#### C LONG WORKING LIFE TIME OF PROBES

As we all know,more hotter the cavitation head, more shorter life time for cavitation head, so about 10 times working time can be prolonged by this new intelligence frequency adjustment technology and resulted in much money can be saved

#### D BETTER VISIBLE EFFECT

On the other hand, the output power will be enhanced and its effective result can be seen fast

#### E. DIGITIZATION CALIBRATION

unoisetion utilizes the intelligent calibration technology what means it can adjust the frequency during whole treatment and calibratethe error of frequency by itself to make the output frequency keep the same frequency as before,in this way, the unoisetion cavitationwill make the result of body shape more effective(3 times as long as normal cavitation) and the handles' lifetime will be 10 times more than normal cavitation

## **1.2 Quadruple & Bipolar 3D SMART RF**

This RF face eyes' around treatment is aimed at further forcing the excretion of triglycerides and skin tightening with Quadruple or Bipolar 3D SMART RF

High-power 3D SMART Quadruple & Bipolar RF (radio frequency) currents preferentially and intensively heat the sub-dermis (where cellulite is located), exerting a triple slimming/tightening effect on the cellulite tissues. Specifically, these currents:

A- Immediately shorten the existing collagen fibers, thereby offering an immediate skin tightening/lifting effect.

B- Stimulate the fibroblasts to produce new collagen and elastic fibers, thereby offering a separate skin tightening effect.

C- Stimulate the adipocytes to release fat into the bloodstream and physically damage a number of them (adipocytes are very "fragile" cells, in comparison to fibroblasts or other tissue cells).

## **1.3 Sextupole 3D SMART RF with Vacuum**

YH-5401 combines the mechanism of advanced 3D SMART RF energy and vacuum therapy that work with the body's natural regeneration process to deliver safe and efficient treatments for cellulite, body contouring and tightening of the skin.

Unlike any other normal RF vacuum system, YH-5401 is powered by 3D SMART RF technology featuring AUTOMATICALLY ,INTELLIGENT,CONTROL SYSTEM that simultaneously RF energy output ,with the ability to deliver safe and effective treatments with SUPERIOR treatment CONTROL, PRECISION TARGETING and BROADER DERMAL PENETRATION for maximum results in minimal time.

Simultaneously, the unique vacuum therapy maximizes the penetration of 3D SMART RF energy in the treatment area and also increases local blood circulation, stimulates lymphatic drainage and assists in the shrinkage of fat cell volume.

Sextupole 3D SMART RF with vacuum assists in the Metabolism of Large Fat Granules previously ruptured by cavitation in treatment of Unoisetion Cavitation 2.0 40K

The dermis and subcutaneous layer are heated simultaneously forcing collagen fibers to contract. The contracting fibers pull and tighten the skin, creating an immediate effect. Fibroblasts' metabolism increases, producing new collagen fibers leaving a long term effect.

Most of the Sextupole 3 D SMART RF energy enters into the deeper dermal layer, causing the dermal layer of skin to thicken, decreasing wrinkle depth, leaving the skin firmer with contour lifted.

The original collagen protein becomes strengthened to increase the new collagen protein as a result of the radio frequency stimulating the skin.
