Installation Procedure

What is in the zip file?

shweDirectory new version comes with package installer which allows user to install the extension very easily. The installation zip file contains the following files

- pkg_shwedirectory.zip (Package Installer)
- .htaccess (htaccess file)
- crossdomain.xml (Upload this file to root directory of your domain to use Cooliris 3D Wall)
- shweDirectory_User_Manual.pdf (User Manual)
- php.ini (Upload this file to Joomla Administrator folder to allow to upload zip file size larger than 2 MB if you get the following error during installation)

The Package installer contains the following files

Template files

- directory_10.zip

Modules files

- mod_sbocitydir.zip
- mod_sbocityfrontdir.zip

Copyright 2009-2013, www.ShweScripts.com, All rights reserved.

- mod_sbocitylistdir.zip
- mod_sbofeaturedlists.zip
- mod_sbosidemapdir.zip
- mod_sbohorizontaladdir.zip
- mod_sbolatestvideolisting.zip
- mod_sbolinktous.zip
- mod_sbolistingbutton.zip
- mod_sbolistingongmap.zip
- mod_sbophotolist.zip
- mod_sbopopularvideolisting.zip
- mod_sbosearchdir.zip
- mod_sboshowcategoriesdir.zip
- mod_sbosponsordir.zip
- mod_sbotagclouddir.zip
- mod_sbologindir.zip
- mod_sboverticalad1dir.zip
- mod_sboverticalad2dir.zip
- mod_facebooklikeboxdir.zip

Component file

- com_directory.zip

NOTE: You don't need to unzip package installer file pkg_shwedirectory.zip

Please make sure you have selected "Mysql" for database type when you install Joomla.

Database Settings	
Database Type	Mysql
Host	localhost

Installing from Extension Manager

We assume that you have already install Joomla 2.5.x version on your hosting. If you do not have one, please do let us know and we will help you install or you may install it yourself by referring <u>http://www.siteground.com/tutorials/joomla25/installation.htm</u>. You don't need to install the sample data while installing the Joomla.

Please follow the followings for step by step installation of shweDirectory.

Login to administrator page and click Extensions > Install/Uninstall from menu.

Click Browse button and select the package installer

Click Upload & Install button

Install Update	Update Manage Discover Warnin J Package File e File	Warnings

How to setup Facebook login (Facebook Connect)

shweDirectory comes with integrated Facebook connect feature which allows visitors to login using their Facebook account. You need to setup Facebook App ID, Facebook App Secret and Facebook User ID to use this feature.

If you already have the above information you can go to step 3.

Step 1 - Create Facebook account If you don't have Facebook account yet, you can sign up new Facebook account on <u>http://www.facebook.com/</u>

Step 2 - Create Facebook App

- Goto http://developers.facebook.com/
- Click Apps on top of the screen and login with you Facebook account

	Ecrect vour operational

Step (4) Login with Facebook page admin or page owner account and you will see the following screen.

ShweScripts	Go to App Cancel
ABOUT THIS APP You are logging into ShweScripts as Who can see posts this app makes for you on your Facebook timeline: [?]	THIS APP WILL RECEIVE: • Your basic info [?] • Your photos • Your status updates
By proceeding, you will be taken to www.shwescripts.com · Report App	

Change Friends to Public and click Go to App button.

Who can see posts this app makes for you on your Facebook timeline: [?]		Who can see posts this app makes for you on your Facebook timeline: $[\ref{eq:posterior}]$	
🗶 Friends 🔻		🚱 Public 🤝	

Step (5) Make sure the Facebook Page that you want to write is in the list and click Allow button.

ShweScripts would also like permission to:	
Manage your pages ShweScripts may login as any of your 1 Pages, including: Shwedirectory	×
Post on your behalf This app may post on your behalf, including status updates, photos and more.	×
	Allow Skip

After that, you will return to your admin page and you must see the Facebook Access Token is automatically added.

Facebook Access Token	AAAC7L0ah9uMBADvQcSj0K86nfBSbbIMQBdR8iWpZCxpq2FgPc
	Click here to post test message

If you don't see the Facebook Access Token, then you need to logout from both facebook and joomla, clear browser cache and start again.

To test posting on Facebook, click "Click here to post test message".

If successful, you will see the following pop up and test message on your Facebook timeline.

To delete the test message, just click "Click here to delete test Post "and system will delete it.

How to Setup Twitter Application to post to twitter (Only for Premium Edition)

Step (1) Visit Twitter developer website <u>https://dev.twitter.com/</u> and login with your twitter account.

Step (2) Click My applications from dropdown menu.

Step (3) Click Create a new application button

Step (4) Fill in the form and click Create your Twitter application button.

Note: You just need to fill in Name, Description and Website fields.

Name: *	
our application name. This is used to attribute the source of a tweet and in user-facing authorization screens. 32 characters max.	
lescription: *	
our application description, which will be shown in user-facing authorization screens. Between 10 and 200 characters max.	
Vebsite: *	
our application's publicly accessible home page, where users can go to download, make use of, or find out more information about your app ource attribution for tweets created by your application and will be shown in user-facing authorization screens.	olication. Mobile Settings

New shweDirectory comes with mobile version. Click Mobile Manager Icon to change the mobile settings.

Select Mobile Theme Color that you want to use.

Enter title for mobile site. Normally, mobile title should be short.

Title for mobile site	Mobile

You may also use Header Logo instead of Text. Maximum height for logo is 36px.

Header Logo for mobile site		Maximum Height: 36px
	Select Image	

You can upload Home screen icons for both Retina and non-retina display. Retina icon size is 114 x 114 pixels and non-retina will be 57 x 57 pixels. You can just create square png image for icons. iOS and Android will automatically create rounded home icon for you.
