Assistive Technology

SW/WC Service Cooperative Low Incidence Projects

The majority of the items on our list can be purchased from the following catalogs. We have included, by the catalog listed, some of the more popular items from each. If you don't have a catalog, call or e-mail to get the copy you have chosen. We refrained from including the cost of each item because there is always a fluctuation in the cost. If you are interested in the cost of an item, please call the "800" number of the most logical catalog. *(This catalog list does not represent an endorsement of any company or product.)*

SWITCHES AND Environmental Controls

Name: Switch Assessment Kit

Description: Switch Assessment kit that includes a Grip & Puff, Grip Kit, 3" x 5" plate, Tilt Switch, Ultimate Switch, Adjustable Pinch Switch, Button Click Switch, Petite Pillow Switch, Sound Activated Switch and a Life Breath Switch.

DEMO! - Call Chris Kuehl @ 507.822.1025

Parts of system: Assortment of switches in carrying case

Compatible with: Battery, Electrical device & Computer

Number: (000200)

Name: Jelly Beamer™ wireless switch (Red)

Description: The Jelly Beamer wireless includes one transmitter and one receiver. Simply turn both components ON, plug the receiver into any switch-adapted device, electric appliance, or computer and you're ready for wireless access.

Each switch is uniquely paired with its receiver, allowing multiple students to use their own Jelly Beamers at the same time, from as far away as 30-feet, without interfering with one another.

Parts of system: Wireless Switch and Receiver

Compatible with: Battery, Electrical device & Computer

Number: (000201 - 000202)

Name: All Turn It Spinner

Description: The All-Turn-It Spinner is hands down, the all-time #1 inclusion tool available today! It's so much fun, kids can't stop using it! Let's students participate in regular classroom activities even if they don't understand the curriculum content. Overlays made with Reusable Vinyl Stickers are a learning tool for basic concepts like numbers, colors and shapes, or skills such as matching, sorting and sequencing. So easy to set up, a student's peers can do it. Flexible format makes it easy to customize to any classroom activity. Meets all US consumer toy safety specifications

Parts of system: Switch

Compatible with:

Number: (000203) & (000204) (2 available)

Name: Ultimate Switch

Description: The most universal, versatile, multi-faceted switch. It's designed to be used by even the most profoundly challenged or neurologically impaired individuals. It requires only the slightest touch for activation (10 grams of force).

Parts of system:

Compatible with:

Number: (000206)

Name: Switch Latch/Timer

Description: Modifies switch operation for battery operated devices. Operates in a time mode to control length of operation and continuous operation, accepts one or two switches or one or two devices.

Parts of system: Switch latch timer

Compatible with: Battery operated devices

Number: (000209)

Name: Switch Latch Timer

Description: Controls the use of battery driven toys or devices using either a latch mode or a timed mode. In latch mode, a device stays on until a switch is activated. In timed, device will run for 1-60 seconds.

Parts of system: Switch latch timer, cord

Compatible with: Battery operated devices

Number: (000210)

Name: Power Link 3 Control Unit

Description: Environmental Control Unit - The PowerLink® 3 control unit gives students the ability to control most electric appliances, tools and toys with single switches. PowerLink 3 control unit also gives students the power to take turns operating devices, activate two devices in sequence or experience the freedom of choice making when deciding between two activities. Four modes of control, including Direct, Latch, Timed Seconds and Timed Minutes let you choose the amount of time the activity requires to ensure student success. PowerLink 3 delivers 1700 watts of power - enough to run most electrical appliances, tools and toys. Team PowerLink 3 with the AirLink cordless switch or use the PowerLink's built in switch jacks for corded switch activation.

Parts of System:

Compatible with:

Number: (000211)

Name: Switches (assortment)

Description: Several types are available including Mercury, Grasp, Jelly Bean, Big Red, L.T., Foot, Spec., Mounting switch, Flex switch, and traction pads. Switches can be used to control battery & electrical devices including toys, games, appliances, and computers.

Name: CRUISE - Adapted trackpad

Description: For students with significant motor skill and mobility challenges, CRUISE represents a major breakthrough in computer access and cursor control technology. Unlike a mouse, trackball or joystick, CRUISE requires no hand or wrist movement, and unlike a touchpad, the cursor does not have to be "guided" around the screen by constant finger movement. Instead, this unique device allows users to control the speed and direction of the cursor with a single, soft touch of its control ring. Plus, CRUISE can store personal settings for automatic retrieval each time the computer is powered up.

Parts of system: CRUISE Trackpad

Compatible with: Mac & PC

Number: (000317)

Name: Alpha Smart 3000 Keyboard

Description: A keyboard with a 4 line LCD display. Text may be entered on the machine, then uploaded, edited and printed by plugging into an Apple IIGS, Macintosh or PC computer. The keyboard is used for word processing. It deletes, capitalizes, punctuates and has cursor moves. All other editing functions are done on computer. A tool for initial drafts.

Parts of system: Keyboard, charger, "Y" cord, manual
(2 Systems Available), Key Guard Avail

Compatible with: Macintosh or PC

Number: (000321) & (000325) has the Key Guard (000328) for Alpha Smart 3000)

Number: (000326)

Name: The LEARNINGBOARD Large Key Keyboard

Description: The Learning Board™ is an excellent way for your elementary-aged student to master keyboarding and computer skills, and phonics. The Learning Board maximizes Chester Creek's color-based mnemonic system to teach and reinforce reading skills. Consonants, vowels, punctuation marks, numbers and computer function keys each have their own vivid color to help students understand their different roles in reading and language. Plus, the layout and key selection are the same as adult models, which makes for easy touch-typing. Practice and success will help your child develop good sentence structure, build memory skills and gain confidence.

Parts of system: Misc

Compatible with:

Number: (000356) - No Longer Available

Name: Lottie Kit - TOOLS FOR PRODUCTIVITY

Description: [ONION MOUNTAIN TECHNOLOGY](#)

The LoTTIE Kit for Organization is the eighth kit in our series of low and mid tech tools. We designed this kit as an off-shoot of our very popular Technology and Organization Workshop, and this kit contains a CD with all of the inventories, tool lists, and other activities (in PDF format) that are part of that workshop. This kit was designed to help teachers, therapists, and parents evaluate student needs and strengths in organization in terms of learning and thinking styles and then to find tools which meet individual student needs. In addition, our tools cover 6 different organizational problem areas we have defined - temporal, spatial, categorical, attention, prioritization, and sequential. The kit has a LoTTIE booklet which includes different ideas and strategies for using tools with students.

AAC DEVICES

AAC DEVICES

Name: Talking Photo Album

Description: Talking Photo Album holds (24) 4X6 Photos. 10 Second message time per Photo. Great tool for early picture/communication device use. Flash memory preserves recordings even when changing batteries.

Parts of system: Photo Album

Compatible with: Independent device

Number: (000001) (000002) - No Longer Available

Name: iTalk2™ Communicator

Description: The iTalk2 dual-message communicator gives students the freedom to choose between two activities, such as listening to music or a story. iTalk2 is also perfect for asking and answering questions, telling jokes and making comments in social situations. With 8.5 seconds of recording time per activation surface, the possibilities are endless. Add a toy or appliance for immediate positive reinforcement and to enhance messages.

Parts of system: Switch.

Compatible with: Independent Device

Number: (000003)

Name: Go Talk 9+ - Communication Device

Description: The GoTalk 9+ has a 48 message capacity (5 levels of 9 keys each, plus 3 core messages which appear across levels). The GoTalk 9+ features 9 keys on the face of the device.

Parts of system: GO Talk 9+, GoTalk Overlay Software (000023)

(software not available)

Compatible with:

Number: (000005)

Name: Go Talk 20+ - Communication Device

Description: GoTalk 20+ is lightweight and rugged, like all GoTalks, and now has a 100 message capacity (20 keys each 1-inch square, and five recording levels). Plus five "core messages" which stay the same on each level so you don't need to re-record essential messages for each level. Plus all new technology providing great sound and volume control. Plus easier sequential recording, an option for whole level erasing and built-in overlay storage. And even with all of these new features, it's a GoTalk so it's still easy-to-use and affordably priced.

Parts of system: GO Talk 20+, GoTalk Overlay Software (000024)

(software not available)

Compatible with:

Number: (000006)

Name: 32 Message Communicator - Communication Device

Description: 192 different messages at the touch of a button! Lightweight, portable communication device allows you to record and playback 32 3-second messages per level. Change overlays quickly and easily. Features adjustable legs and carrying handle. Requires 4 "AA" batteries. Icons and batteries not included. SIZE: 9"L x 16"W x 3 1/2"D.

Number: (000007)

Name: FL4SH

Description: The FL4SH scanning communicator features four message locations and a highly visible light source that literally frames each picture symbol in succession. It has three scan modes (automatic scan, step-scan and two-switch step scan) and can be activated by direct selection, with one or two switches, or by connecting one switch for each message location. It uses automatic overlay detection - a barcode technology that allows FL4SH to recognize individual overlays and adjust its output accordingly, without the need to switch levels. It comes with twelve clear overlays with pockets for symbols and 16 minutes of recording time, which can be divided between the messages in any way.

Parts of system: FL4SH, Overlays, software, A/C adapter, Manual

Compatible with:

Number: (000008)

Name: L*E*O - Language ECU in One

Description: L*E*O™ is a high-quality communication device that uses a language-enhancing overlay system. Activate pre-recorded, digitized speech messages simply by touching pictures or symbols in a grid or scene. You can also use L*E*O's infrared commands to control lights, small appliances, adapted toys, television, VCR, or DVD.

Parts of system: L*E*O, 3 grids (1,8,32), built in learning remote control, 32 minutes recording time, USB Cable, A/C adapter, Windows Desktop Software, L*E*O users guide

Compatible with:

Number: (000009)

Name: ChatBox 40XT

Description: The ChatBox 40 allows messages to be spoken by pressing buttons on the keyboard and also supports numerous switch scanning options for individuals who are unable to press buttons. The keyboard can support 10 large keys or 40 standard-sized keys. There are 10 levels of messages available with the ability to move from level to level with up and down arrows. A 2-line, LCD display supports text display of the messages and menu driven setup utilities. The "XT" models add basic voice synthesis capability, greatly increasing the flexibility and growth potential for communicators. Individuals may create their own messages on the LCD display using either pre-stored messages or typing on an alphabet keyboard. Advanced scanning featuring auditory prompts supports individuals with visual impairments. The XT models also connect to a computer to provide keyboard emulation.

Parts of System: ChatBox 40XT -Carrying Case

Compatible with:

Number: (000010)

Name: Easy Talk

Description: AAC Device providing 32 minutes of speech on 8 Levels for a total of 320 messages. Possible 40 messages per level.

Parts of system: Easy Talk Unit and Manual

Compatible with:

Number: (000011)

Name: BIGmack

Description: Single-message voice output communication aid. It was created to provide a simple, single-message voice output communication aide for anyone learning to use a switch, beginning a formalized communication system, as an attention getting device, whenever a simple voice output message is needed.

Parts of system: 1 Book, 1 Cd, 1 Cassette Tape (older books have a cassette tape)

Compatible with: Macintosh or PC

Name: ClassMate Reader by Humanware

Description: The ClassMate Reader is a new portable text reader designed to boost reading and learning independence. Students can listen to the audio version of their textbooks and study materials, while following the highlighted text on screen. Students gain access to their curricular materials anywhere and anytime with this easy-to-use device.

Parts of system: ClassMate Reader, transfer cable

Compatible with:

Number: (000425)

Name: START TO FINISH CORE CONTENT BOOKS

Description: Start to Finish Core Content Books provide struggling readers the opportunity to experience informational text and comprehensive reading supports that provide appropriate, curriculum-based reading materials.

- Introduction plus 6 chapters, 4,000-8,000 words per book, 150-200 words per page, 800-1,100 words per chapter, large, full-color photos and illustrations placed to support text, short video clips support difficult concepts, sentence-by-sentence highlighting, one-page viewable on screen. (Grade 4-5 Readability)

Title in Lending Library:

Amazing Creatures of the Galapagos Islands

Parts of system: Book, CD's

Compatible with: Macintosh/Windows

Number: (000477)

Name: START TO FINISH LITERACY STARTER BOOKS

Description: An effective means for developing beginning readers' word knowledge and comprehension is exposure to text. For students with significant reading difficulties, meaningful reading experiences should happen throughout the day and with a variety of texts. Start-to-Finish Literacy Starters offers topic-specific sets that combine **Enrichment**, **Transitional** and **Conventional** text types to accomplish **all-day reading experiences**. This allows teachers to take every opportunity to create teachable moments that introduce reading skills through both direct and indirect approaches.

(Pre-K -12)

Titles in Lending Library:

INSECTS - NECESSITY OR NUISANCE

1. Six legs and counting (000478)
2. Don't Bug Me
3. My One and Only Date

VOLCANOES - FORCES AND FURY

1. A Blast From The Past (000479)
2. Hot and Burning
3. Run For Your Life

Parts of system:

1 Computer Book CD ROM

(3 different books - Enrichment, Transitional and Conventional books with read to me, read with me and read by myself versions)

- 3 Paperback Books

(3 different books - Enrichment, Transitional, Conventional)

- 3 Vocabulary Cards

(3 different cards - Enrichment, Transitional, Conventional)

- 1 Teacher Materials CD ROM & Guide

- 1 9"x12" Hanging Media Pouch

Compatible with: Macintosh/Windows

Number: (000478) & (000479)

Name: Intellitools Balanced Literacy

Description: *IntelliTools Reading: Balanced Literacy* provides a balanced approach to early literacy instruction for first-grade level readers. The research-based, award-winning program integrates guided reading, supported writing, and word study or phonics activities. Nine units, built around animal themes, engage students in a year-long classroom program, extended day program, or summer school program that supports and supplements their classroom language arts curriculum.

Parts of system: Contains curriculum

Compatible with: Independent device

Number: (000480)

Name: BookWorm

Description: BookWorm provides a simple and friendly way for students with disabilities to "read" their favorite books or classroom worksheets. By attaching the book pages or worksheets to BookWorm, teachers can ensure that all students enjoy a similar reading experience. It takes less than 15 minutes to prepare-just select a book, clip it onto BookWorm, attach page detectors and record each sentence. Students are able to "read" the book by listening to your recorded voice. They can read together with their peers or use headphones to read by themselves. Features high-quality sound output for maximum learning retention. Single-switch accessible.

Parts of system: BookWorm/Carrying Bag/Accessories

Compatible with:

Number: (000481)

Name: Laureate English Language Learners (ELL) Package

Description: Both preschool and elementary students can benefit from the intensive individualized instruction provided by the vocabulary, language concepts, and syntax programs in this package. Your English language learners will learn English more quickly when they receive the extra tutoring these programs provide.

Parts of system: Each unit contains a Manual/Activities CD Rom

***Simple Sentence Structure - (000431)**

ASSESSMENTS

Name: Child-guided Strategies for Assessing Children who are Deaf blind or have Multiple Disabilities

Description: This unique CD-ROM is user-friendly and highly interactive as it demonstrates Dr. van Dijk's strategies and techniques for assessing and teaching children with multiple disabilities through the use of video clips, questions pertaining to the video clips, discussion, and relevant literature. Through an interactive question and answer format, the viewer can design an Individualized Education Plan (IEP) for the example assessments.

Parts of system: Requires Windows 95, 98, 2000, Me, or Windows NT 4 or later. 16 Mb RAM, 640x480, 256-color display

Number: (000180)

Name: Charge Syndrome Revisited (2007)

Description: The frequency of behavior problems in children with sensory impairment is greater than in other groups of children. Children with CHARGE Syndrome often have a multitude of physical, sensory, endocrinological, and developmental problems. This CD-ROM presents a 5 year follow up of 6 children with CHARGE Syndrome.

Note: This CD-ROM's former title was *Living with CHARGE*

Parts of system: Requires Windows® 95, 98, 2000, ME, or NT 4 or later.

Number: (000181)

Name: From Russia with Love and Care for Children with Sensory Impairment and Challenging Behaviors

Description: This CD includes an introductory course in Positive Behavioral Support, which outlines the basic principles involved in assessing challenging behaviors of children with multiple disabilities.

Parts of system: CD

Number: (000182)

Name: Essential Communication Skills Inventory

Description: Assessment & Intervention Tool for Individuals with Comprehensive Communication Needs. This tool is designed to give you information that can be used to establish a baseline of performance to make data based decisions for individuals with complicated communication profiles.

DEMO! - Call Chris Kuehl @ 507.822.1025

Parts of system: Essential Communication Skills Inventory binder
& container of variety of items.
