

Life Saving Victoria

Swimming Pool Signage Options

2014-15

General notes on pool safety

1. Shallow water: A water depth 1.2m or less is considered as shallow by the GSPO.
2. Gradient change / drop off: A pool floor gradient greater (steeper) than 1:14 is considered a 'drop off'.
3. Deep water: Shallow water is 1.2m or less, deep water is subsequently anything over 1.2m.
4. No diving: Diving is not permitted in water without a 5.0m forward clearance at a minimum depth of 1.8m.
5. Signage can be provided in size to fulfil the viewing distance requirement of the individual pool. The prices below are indicative of signs with 300mm images
6. Signage can be provided in vertical or horizontal depending on the installation locations at the facility

It is strongly suggested that you contact Commercial Services on 03 9676 6923 to discuss your signage requirements before you commit to a signage purchase

Life Saving Victoria – Terms and Conditions

Standard Signage Purchase Specification Document

LSV Responsibility – Supply Only

Under these circumstances, the level of responsibility that Life Saving Victoria accept will be restricted to the supply of the correct individual signage based on the information detailed on the order. This information is clearly displayed and is limited to the signage design, colouring, individual layout and production material.

LSV are unable to take responsibility for the following during 'supply only' sales and are therefore unable to accept any liability for any orders, designs or installations that fail to comply with the associated Australia Standards and specifications (listed below) that oversee / regulate this area. These include:

- Signage design items that lead to non-compliance
- Insufficient signage quantity items that lead to non-compliance
- Pictorial signage dimension items that lead to non-compliance
- Written / numerical signage dimension items that lead to non-compliance
- Installation of any signage that leads to non-compliance

Legend Colours

The written legend is recommended to be black against a white or yellow background.

The written legend is recommended to be white against a blue or red background.
