A. PRECAUTIONS:

These dummy CCTV Cameras are produced in the same dome as real CCTV cameras. This gives authenticity to the look of the camera, but with the addition of the flashing LED only.

This is a simple and cost effective solution for a visible deterrent to would-be thieves. An flashing LED is available, which is an additional indication that the camera is active. Each dummy camera with 1 flashing LED's come with 3 AA Batteries (not included) which will operate the flashing LED for about 2-3 month.

Dummy Camera with Flashing Led Light

- Appears like Real Cameras with RED FLASH Light
- Can be used for Indoor
- Economical Way to Deter Theft
- Simple and Easy Installation
- Battery Work upto 3 months

Dummy SECURITY CAMERA with FLASHING LED

Now you can deter robbery theft and vandalism without the high cost of a real security camera.

When placed in your home or business even the most sophisticated criminals will think the premises is guarded by a high-tech surveillance system and go in search of an easier target.

In fact this is an actual dome surveillance camera that has been modified into a "Dummy" or fake security camera. This dome decoy camera is designed to imitate the small high tech security cameras on the market today. This unit contains a flashing red LED light which draws extra attention to the camera particularly at night. Installs quickly and easily to the ceiling or wall using the included screws.

B. INSTALLATION:

Before using, First need to installation the batteries to the camera, in commission. The method as follows:

- (1): open the battery cover, Then according to "+" - pole marker" insert the three AA batteries into the batteries compartment.

- Use the included guide card to mark the install place and holding screws' position.

- Drill necessary holes in marked spots.

- Place included anchors into holes.

- Use the anchors to hold the screws. Remember leave them a little out in order to hold the camera.

- Put the camera on the selected place, match the mounting holes with the screws and turn it to the right to fix it.
