

IVATION™

SUPER SLIM BATTERY PACK User Manual

IVATION POWER

A. Introduction

Thank you for purchasing our Super Slim Battery Pack, and welcome to the Ivation™ family. This user manual is meant to offer you a brief walk-through of the device's features and usage protocols. We hope you find this manual helpful. For additional information and technical support, please feel encouraged to contact our help team at info@myivation.com.

B. Safety Instructions

1. Charge the Super Slim Battery Pack fully before first use
2. Do not expose device to sunshine for prolonged period of time
3. Do not use device in extreme cold or extreme heat
4. Never expose to water or fire—device could explode
5. Please keep product out of reach of children
6. Do not disassemble device. Device has no user serviceable parts
7. Do not vigorously shake, hit, or impact product
8. If product is exposed to liquid or extreme heat, please stop using immediately
9. If product is leaking and liquid comes in contact with eyes, DO NOT knead eyes.
Wash with clean water immediately, and seek medical attention
10. It is normal for device to become warm during use
11. Use only included charging cable provided by manufacturer
12. Do not wrap or cover device with paper or other object that could diminish heat dissipation and cool-off
13. Do not leave device unattended when in use
14. Before using device, check voltage requirements to prevent damage

15. Battery recalibration (full discharge followed by full charge) is recommended once every three months to prolong battery life
16. Disconnect power cord from device when not in use

Note: Clean device with dry, soft, lint-free cloth. Never use chemical agents or abrasive cleaners on unit.

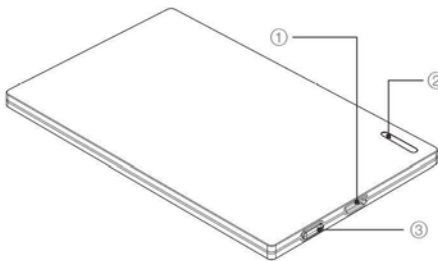

C. Features

- Ultra-Slim Profile

F. Operation

Charging the Super Slim Battery Pack:

- Insert included Micro-USB cable into Charging Input (part #1)
- Connect included Micro-USB cable to USB adapter head
- Plug USB adapter head into PC or laptop device
- Alternatively, connect USB adapter head to AC wall outlet adapter, and plug into wall outlet
- Alternatively, connect USB adapter head to car USB adapter, then plug into car cigarette lighter/power charging socket

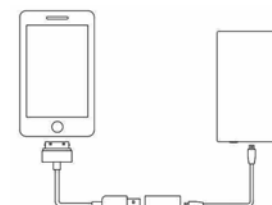

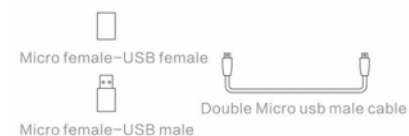

(Figure 1)

Using the Super Slim Battery Pack:

Note: The Super Slim Battery Pack can provide power for most mobile devices using DC 5v charging draw. To connect, you will need a female-female micro-USB to USB adapter.

- Insert included Micro-USB cable into Charging Output (part #1)
- Connect included Micro-USB cable to USB adapter head
- Connect standard cable of device you wish to charge to USB adapter head
- Plug device cable into device; the Super Slim Battery Pack will supply charge immediately
- If disconnected, the Super Slim Battery Pack will shut off after 10 seconds to retain charge
- Alternatively, press and hold On/Off Button (part #3) for 3 seconds to shut off

G. Technical Specifications

Input:	DC 5v/0.8a
Output:	DC 5v/1a
Dimensions:	3.7" x 2.3" x 0.17"
Weight:	2.6 Ounces

H. Troubleshooting

No Power:

- Press On/Off Button (part #3)
- Check for adequate battery charge level
- Connect Super Slim Battery Pack to power source
