

## Microelectronic Communicating Programmable Thermostat

[www.honeywell.com/yourhome/](http://www.honeywell.com/yourhome/)

### Application

The T8635L Microelectronic Communicating Programmable Thermostat is a key comfort component for the Home & Away System. It supports conventional gas, oil, or electric applications (up to 2H/2C) when used with the W8635A Equipment Interface Module. The T8635L supports single stage- or multi-stage heat pump applications (up to 2H/1C) when used with the W8635B Equipment Interface Module.

### T8635L Description

Model	System	Changeover	System Selection	Fan Selection
T8635L and W8635A1006	Heat-Cool	Automatic or Manual	Heat-Off-Cool-Auto	On-Auto
T8635L and W8635B1004	Heat Pump	Automatic or Manual	Heat-Off-Cool-Auto Emergency Heat	On-Auto

### Part Numbers

T8635L1013 Thermostat

C7089B1018 Outdoor Temperature Sensor

### Features

- Seven day programmable
- Programmable fan
- On demand/continuous backlight display
- Filter indication timer
- One-touch Daylight Savings Time key
- Enviracom™ communication protocol

### Required Accessories (not included)

- W8635A Equipment Interface Module for up to 2H/2C conventional systems
- W8635B Equipment Interface Module for up to 2H/1C heat pump systems

### Optional Accessories

- C7089B Outdoor temperature sensor for outdoor temperature display
- W8703A Damper Interface Module for up to three zones of control
- W7006A Home Controller Gateway for internet and telephone access to the thermostat
- W8735B Telephone Access Module for remote telephone access to the thermostat
