Correct Disposal of this product.
To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for safe environmental recycling.

TROUBLE SHOOTING

For your convenience, we have listed some methods to solve common problems you may encounter when using this system. If the problem is not solved please contact the nearest service center.

Problem	Possible cause	Solution
Power supply does not work	Power plug is not fully inserted into the socket	Fully insert the power plug into the socket
Remote does not work	The batteries are exhausted	Replace them with new ones
	The remote control unit is not directed at the remote control sensor	Please aim at the remote control correctly
No image on the TV screen	The unit is not connected properly	Reconnect the system according to the illustration
	TV not set in the video mode	Set the TV in video mode
	The scanning mode does not match to the TV scanning mode	Reset the scanning mode
Play is unavailable	No disc	Insert a disc
	Disc incorrectly inserted	Replace the disc with the picture upward
	Disc is not compatible for this device	Use a compatible disc
No sound from speakers	Audio wire is not connected correctly	Connect the audio wire correctly
	Wrong operation with amplifier	Operating the amplifier referring to the illustration
Discontinuous sound or distorted pictures	Disc is not clean	Replace with a clean disc or clean the disc with a soft cloth
	Disc is scratched	Replace with a new one
	Disc is distorted	
Invalid display on the screen	Operation incorrect	Please refer to the user manual

SPECIFICATION

Disc Type	DVD DVCD VCD SVCD MP3 MPEG 4 CD-RW
Video Format	MPEG 2 for DVD, MPEG 1 for VCD
Audio Format	MPEG 1, MPEG 2, STEREO
Signal Output	Video system: NTSC, PAL, AUTO Video output: 1.0 V p-p Audio: Stereo
Output Joint	Chromatic aberration output, Video output, optical fiber output, coaxial output
Outer Facilities	USB, Microphone
Power Supply	AC~240V/50Hz
Max. Power	120W
Frequency Response	± 3 dB (20 Hz--20 KHz)
Audio S/N	80 dB Weight A
Operating Condition	Temperature: 5--35°C Operating status: flat horizontal surface

Note:
Some MPEG 4 discs are the specification of *. rm/*. ra/ * .ram/* .rmm/ etc in the market that this device might not support. Please select carefully when you purchase.
The product specifications may be subject to change and no additional notices will be given.

CONTENT

IMPORTANT SAFETY INSTRUCTIONS

1. Read these instructions - All the safety and operating instructions should be read before this product is operated.
2. Keep these instructions - The safety and operating instructions should be retained for future reference.
3. Note all warnings - All warnings on the appliance and in the operating instructions should be adhered to.
5. Do not use this apparatus near water - The appliance should not be used near water or moisture, for example, in a wet basement or near a swimming pool and the like.
6. Clean only with a dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacture' s instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defect the safety purpose of the polarized or grounding plug. A polarized plug has two blades with one wider than the other. A grounding plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched, particularly at the plugs, convenience receptacles, and at the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart or rack is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

Portable Cart Warning

13. Unplug the apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15. Please keep the unit in a well ventilated environment.
16. CAUTION: These servicing instructions are for use by qualified service personnel only. To reduce the risk of electric shock, do not perform any servicing other than that contained in the operating instructions unless you are qualified to do so.
17. WARNING: The MAINS PLUG is used as a disconnect device, the disconnect device shall remain readily operable.
18. ☐   This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth.

19.
