NOTE

This unit may be submitted to changes in specifications, characteristics and/or operation without prior notice to the user, in order to continue improving and developing its technology.

IMPORTANT SAFETY INSTRUCTION

1. Read the Instructions - All the safety and operating instructions should be read carefully before you use the product.
2. Keep the Instructions -The safety and operating instructions should be retained for future reference.
3. Heed all Warnings -All warnings on the appliance and in the operating instructions should be adhered to.
4. Follow all instructions - All operating and use instructions should be followed.
5. Do not use this apparatus near water- The appliance should not be used near water or moisture -for example, in a wet basement or near a swimming pool, and the like.
6. Clean only with a damp wet cloth.

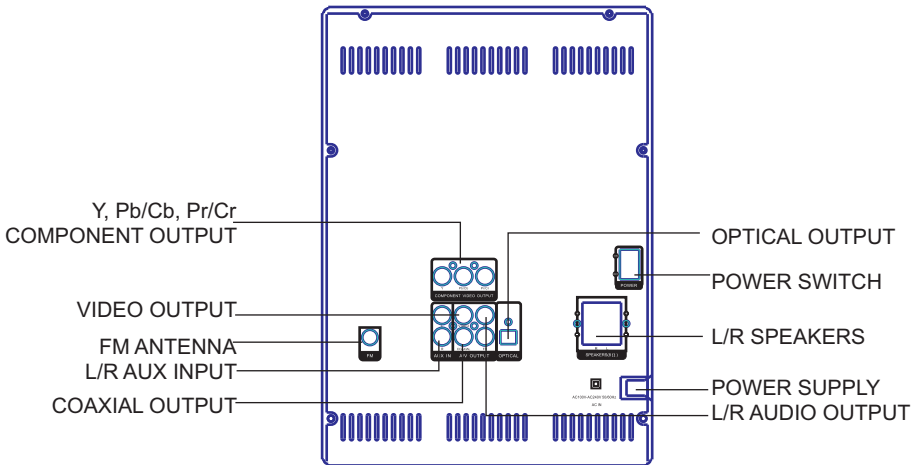

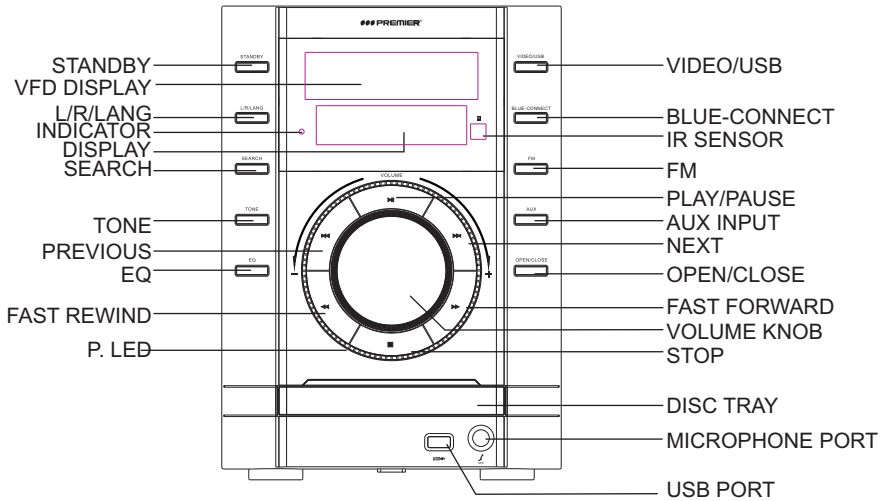

IMPORTANT SAFETY INSTRUCTION

7. Do not block any of the ventilation openings. Install the unit in accordance with the instructions.
8. Do not install near any heat sources such as radiators, heat Registers, stoves, or other apparatus, including amplifiers, that produce heat.
9. When the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug the apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture.
15. Please keep the unit in a good ventilation environment.
16. These servicing instructions are for use by qualified service personnel only. To reduce the risk of electric shock, do not perform any servicing other than that contained in the operation instructions unless you are qualified to do so.
17. The mains plug is used as disconnect device, the disconnect device shall remain readily operable.
18. This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth.
19.  -This lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of non-insulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.
 - To reduce the risk of electric shock, do not remove cover (or back) as there're no user-serviceable parts inside. Refer servicing to qualified personnel.
 - The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance in the literature accompanying the appliance.
20. The batteries (if included) shall not be exposed to excessive heat such as sunshine, fire or the like.
21. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
22. To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
23. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

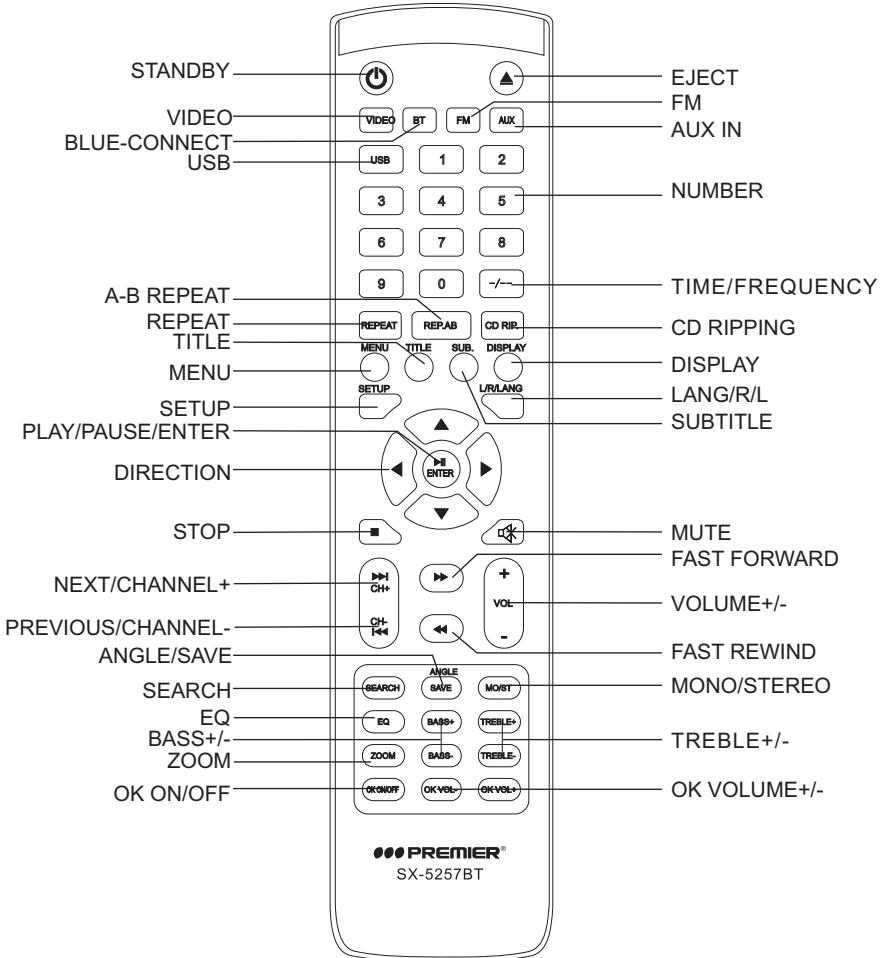

Portable Cart Warning

PANELS INSTRUCTION

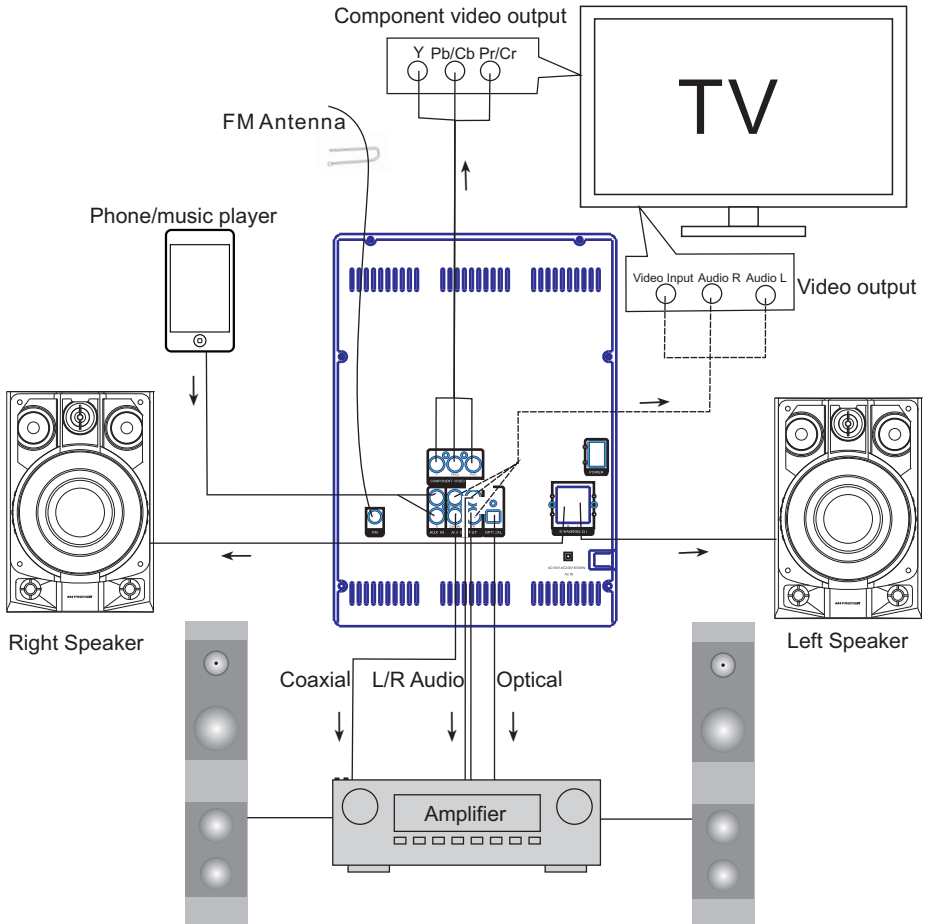

REMOTE CONTROL

1. Turn on the player and have batteries installed in the remote control, put the emitter against the sensor of player for remote control.
2. The distance of remote control should not exceed 7 meters, or else, it will be invalid.
3. If the sensor or remote controller emitter is stuck with foreign matters, it may result in the mal-in signal reception or not at all.
4. The remote control function may be affected under the strong interference signals, such as power supply and other strong high-frequency signals.

SYSTEM CONNECTION

Please check the below connection and make safe and firm connection before using the machine.

Note:

1. Before connecting the player to the TV-set, turn off and unplug both the units.
2. Adjust the corresponding system according to your TV system while watching various discs.
3. If there are multiple connections between video player and TV, please select one and unplug others so as not to affect the quality of images and sound.
4. Do not switch on and off or press power switch frequently, switching on and off each time must have an interval of 3 seconds.

BASIC OPERATION

PREPARATION

- 1). Before turning on, check whether all the connection are correct and reliable. Insert the power plug into the corresponding power socket. Press the power switch to power on the unit.
- 2). Press **STANDBY**  button to wake up the unit (or put into standby mode).
- 3). Press **EJECT**  button on the remote control or **OPEN/CLOSE** button on the front panel to carry the disc tray out, put the disc into the tray, press either button again, the unit starts reading and playing automatically.

STANDBY

Press the **STANDBY** button on the remote control (or front panel) can switch on the unit or to the standby mode.

MODES SELECTION

- 1) Press the **VIDEO**, **BT**, **FM**, **AUX**, or **USB** button on remote control to select the mode.
- 2) Press the **VIDEO/USB** button on the front panel to select VIDEO or USB mode.

Parental Control Setup Page

(Only available in EJECT or NO DISC status.)

- 1) Parental control
This player has several different age ratings for selection. Move the cursor to select one of them, then press **ENTER** button to confirm selection.
- 2) Password
The original password of the player is the "0000" (four Zero). You can change it to a new one.

SPECIFICATION

Output power	2*30W
Power input	AC100V-240V, 50/60Hz
Output joint	Component video output; Audio/Video output; Optical output; Coaxial output.
Input joint	Aux in, USB
Outer facilities	Microphone
Remote distance	7 meters
Frequency	87.50MHz~108.0MHz
Blue-connect range	10 meters

TROUBLE SHOOTING

For your convenience, we have listed some methods to solve common problems you may encounter when you using the system. If the problem occurs repeatedly, contact the nearest maintenance center.

Problem	Possible cause	Solution
Power supply does not work	Power plug is not fully inserted into the power socket	Fully insert the power plug into the power socket
Remote does not work	The batteries have been used up	Replace them with new ones
	The remote control is not aimed at the remote control sensor	Please aim the remote control correctly; in line with the remote sensor
No image on the TVscreen	The system is not connected correctly	Reconnect the system by referring to the illustration
	TV not set in video mode	Set the TV in video mode
	The scanning mode does not match to the TV scanning mode	Reset the scanning mode
Play is unavailable	No disc inserted	Insert a disc
	Disc incorrectly inserted	Reinsert the disc with the picture upward
	Disc is not compatible with this device	Only use disc that are compatible with this device
No sound from speakers	Audio wire is not connected correctly	Connect the audio wire correctly
	Incorrectly connected to amplifier	Connect the amplifier correctly by referring to the illustration
Discontinuous sound or distorted pictures	Disc is not clean	Replace with a clean disc or use a soft cloth to clean the disc
	Disc is scratched Disc distorted	Replace with a new one
Invalid display on the screen	Operation incorrect	Please refer to the user manual
