WARNINGS & SAFETY INSTRUCTIONS

- **Ensure that all employees understand and follow the following instructions.**
- **Failure to read and understand these instructions before assembling the unit constitutes a misuse of the product. All persons involved in performing this task must be familiar with this material.**
- Maintenance and repairs are to be done only by personnel qualified to perform the required work. Consideration will not be given for warranty repair charges without prior written authorization from the manufacturer.

REPLACEMENT PARTS

We take pride in using quality parts on the equipment we manufacture. We are not responsible for equipment problems resulting from the use of unapproved replacement parts.

To order replacement or spare parts for this equipment, contact the factory.

In any communication with the factory please be prepared to provide the model and serial number of the unit.

RECEIVING INSTRUCTIONS

It is possible that this unit could incur damage during transit.

Inspect the parts and packaging closely when it arrives. *If you see evidence of damage or rough handling to either the packaging or to the unit when it is being received, immediately make a note of it on the packing slip!*

It is important that you remove the unit's packaging upon its arrival to ensure that there is no concealed damage or to enable a timely claim with the carrier for freight damage.

Also verify that the unit and its specifications are as ordered.

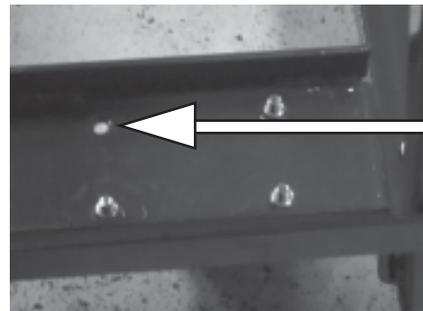

FOR DRIP PAN INSTALLATION, YOU WILL NEED:

1. **Phillips Screwdriver**
2. **Crescent Wrench**

Approximate installation time: 10 minutes

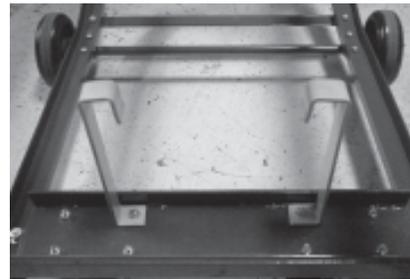

DRIP PAN INSTALLATION INSTRUCTIONS

STEP ONE

Remove rear inside nut and bolt from both swivels casters.

STEP TWO

Using original nuts and bolts, install drip pan brackets.

STEP THREE

Tilting drip pan forward slightly to clear bracket fingers, slide drip pan into brackets.

Slide drip pan in or out to align with spout of drum.

NOTE: All drip pan installations use existing hardware from the front swivel casters of the unit. (No hardware is shipped with the brackets.)
