1. Wind-up Knight

Wind-up Knight is the type of challenging game you have been waiting for.It is a high-end, action-packed, 3D side-scrolling adventure game. Your Wind-up Knight through devilish levels--over 50 in all--to rescue the Princess from the clutches of the evil Black Knight. Run, jump, roll, and slash your way to victory.

2. Bejeweled2

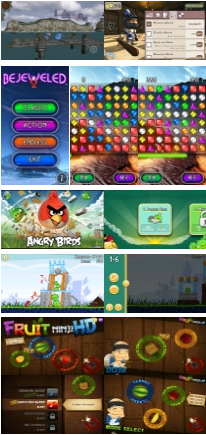

Match sparkling gems three at a time to make them burst in showers of color and points. Match four or more to create flashy power gems that boost your score and your mood with brilliant cascades and combos.

3. Angry Birds

Use the unique powers of the Angry Birds to destroy the greedy pigs' fortresses! Angry Birds features challenging physics-based game play and hours of replay value. Each of the 300 levels requires logic, skill, and force to solve.

4. Fruit Ninja

Fruit Ninja is a juicy action game with squishy, splatty and satisfying fruit carnage! Become the ultimate bringer of sweet, tasty destruction with every slash. Swipe up across the screen to deliciously slash fruit like a true ninja warrior. With three games modes in single player and worldwide leaderboards using Open feint, the addictive game play will keep you coming back for even higher scores.

5. Plants vs. Zombies

A mob of zombies is about to invade your home, and your only defense is an arsenal of zombie-zapping plants. Think fast and plant faster to stop the zombies dead in their tracks. And with five game modes to dig into, the fun never dies!

6. Fishing Joy

Catch a big fish. You can spice up the game by trying to earn as many coins as possible. The coins will allow you to use the special laser that kills everything in its path. You also get 7 fishing net sizes and tap game controls. More importantly, it has superb visuals that are colorful as they are crystal clear.

7. Air Hokey

Air hockey is a game for competing players (you and the computer) trying to score points in the opposing player's goal. Join the game to practice your skills against the computer opponent for future World Championships. And you can submit your total scores to the online Leaderboard to compete with global players.

8. Hungry Shark

Chomp your way to the top of the food chain in this fast-paced aquatic eat 'em-up. Binge on the beach, trawl the depths and raid the Antarctic to satisfy your appetite. Pick-up-and-play fun with beat-your-buddies online. Feeling peckish?

9. Trial Xtreme2

Trial Xtreme2 uses the cutting edge NVIDIA® PhysX® engine to give you the most realistic ride of your life, demanding skill and concentration to take to take your bike riding skills to the max!

10. Riptide GP

Set against the backdrop of a futuristic Earth, Riptide GP features daredevil water cyclists rocketing through canals and rivers across a dynamic, ever changing surface of glittering water.

11. Robo Defense

Robo Defense is the ultimate portable tower defense experience. Featuring open maps, upgrades, achievements and nice graphics.

12. Aporkalypse - Pigs of Doom

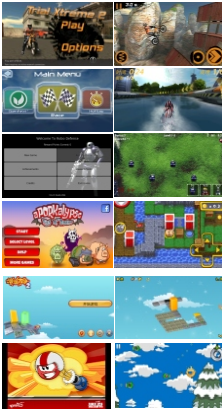

Smart pigs from hell! The pig world is in danger! Follow the four heroes of ham through the fires of hell and use brains, brawn and bacon to stop the Aporkalypse!

13. EDGE

With narrow passageways, falling ledges, and blocks charging after you every other moment, you never quite feel safe. There's always a feeling that the edge you're so finely balanced on could slip from beneath you, and this thrilling game play is enough to keep you moving and hooked.

14. Puffle Launch

It's time to blast off! Be a high speed hero and face some fast-paced action. Launch your puffle and find the fiery prize in 6 high speed levels! Dodge crazy obstacles, collect Puffle O's and discover amazing surprises! Ready to feel the rush? Go ahead, daredevil. Blast off and go get 'em!

- **Android**
Android is the open source operation based on Linux developed by Google in 5th. Nov. 2007.
- **APK**
APK is short for Android Package.
- **How to download APK?**
Download APK through JXD intelligent cloud service or PC.
- **OS version**
Android 2.3, which can operate the most of the Android applications.
- **USB charge**
Support, please charge with standard adapter of DC 5V.
- **Short standby time**
Start the device in normal temperature because the Li battery's service time is different under different environment. Increasing the volume and frequent operation and some other factors will affect the standby time.
- **How to improve the battery's effective time?**
 1. Proper brightness (low brightness lasts the battery's effective time);
 2. Proper volume (low brightness lasts the battery's effective time);
