Lock Application

Lock NOW Application for security reasons and still able to view the broadcast.

- System is unfrozen by entering the correct login password.
- For locking the NOW front end, go to 'File Lock Application'.
 - If the application is idle for 30 minutes, it gets auto-locked.

Session Expired - IRF-NSE	
Authentication	E <u>x</u> itNOW
======= Enter Password =========	

Logout

This function enables to exit from NOW trading application.

- For logout from NOW system go to 'File Logout'.
- For closing NOW application, go to 'File Exit'.
- At the time of logout, system prompts to save the market watch group

settings. Click 'YES' to save the settings.

Change Password

- Change the password by clicking on the 'change password' option on the login screen or after login go to 'File Change Password'.
 - The password should be alphanumerical.
 - It should range from 6 to 12 characters.
 - The system does not allow setting previously six passwords.
 - If user enters wrong password 3 times, the user login is blocked.
 - The password expires every 14 days by default.
 - Contact administrator for resetting the password.

Market Watch Group Settings

Create multiple market watches by clicking on Market watch group settings (CTRL + G) under Market menu

- Group settings are mainly used for adding security under different group names in Market Watch. Create a group name and add the security to that group. Group names are unique and a single group contains security from NSE, BSE, NFO, CDS, MFSS, NCDEX, NMCE and ICEX.
- Market watch profile is exported and imported using import group and export group option.

Click on "Save group" and update the group details.

 Once market watch groups are created, press F4 to load the market watch & toggle between different profiles by pressing 'Tab' key or by clicking on the group name that appears at the bottom on the extreme left hand side of the market watch window.

Order Book

- Order book displays buy or sell order placed by user in different exchanges. Order book displays traded, untraded, cancelled or rejected order status.
- Once an open order is fully completed the same is shifted from 'Open Order' window to 'Completed Order' window.
 - Go to 'Orders and Trades Order Book' or simply invoke F3 from market watch to view order book.
 - Order is modified or cancelled till it is not fully completed at exchange. However, in case of partially filled order, order is modifiable or is cancellable for unfilled quantity.

Set Alert

NOW provides an alert mechanism for tracking the market movement through various modes. Alert enables users to receive various customized information on hitting each threshold limits.

• Click on 'Tools – Set Alert' to set alerts

• Set alert for:

o Indices o Securities

• Set alert for various indices:

o Select 'Index Alert' tab

o Select type of indices from 'Index Name' dropdown.

o Select alert condition from 'Alert me if value is' dropdown:

Less than or equal Greater than or equal

Less than Greater than Equal

o Specify threshold value in 'Enter value' field, for which alert is to

be triggered.

o Set user defined remark or note, if any in 'Remarks' field

o Select mode of communication:

Email

TWS (System generated Pop-up)

SMS

Net Positions

- Go to 'Orders and Trades Net Positions' to view 'Net Positions' window or use key Alt + F6.
- It displays positions of all the clients mapped and orders placed by respective user.
- Customise the display by using filter option by pressing on 'Ctrl + F' on the Position List window. Filter the display based on:
 - o Segment
 - o Trading Symbols
 - o Products

o Real time mark to market loss value is computed and displayed in the status bar.
