Warning

Please read and understand all the warnings given in the following and those marked on the unit. This unit has been manufactured and designed to assure personal safety.

Only use the power by sign on User Manual or system.

Unplug the set from the outlet when you are not using it for a long time.

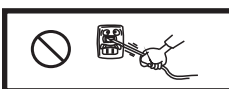

Never open the cover, avoid metals dropping in, e.g. needle, hairpin, coin.

Keep the unit and power plug away from water.

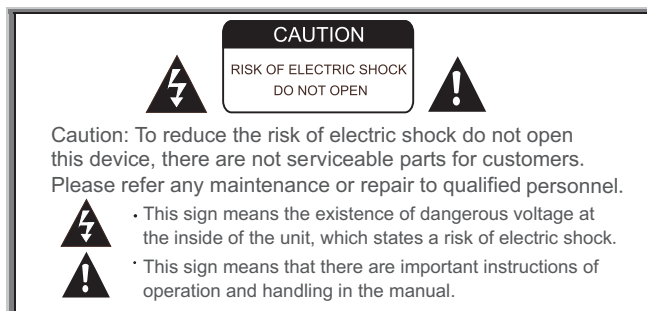

Avoid direct sunlight and near heater.

Protect power cable: avoid high pressure and standing on; do not pull & bend excessively.

Safety instructions

1. All the safety and operating instructions should be read carefully before use.
2. The safety and operating instructions should be retained for future reference.
3. All warnings on the appliance and in the operating instructions should be adhered to.
4. Follow all instructions - All operating and use instructions should be followed.
5. Do not use this apparatus near water- The appliance should not be used near water or moisture, such as in a wet basin or near a swimming pool.
6. Clean only with a damp cloth.
7. Do not block any of the ventilation openings. Install the unit in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat Registers, stoves, or other apparatus, including amplifiers, that produce heat.
9. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
10. Only use attachments/accessories specified by the manufacturer.
11. Unplug the apparatus during lightning storms or when not in use for long periods of time.
12. Send product to a qualified service department. Servicing is required when the device has been damaged in any way, such as power supply cord or plug is damaged.
13. Please keep the unit in a good ventilation environment.
14. These servicing manual are for use by qualified service personnel only. To reduce the risk of electric shock, do not perform any servicing other than that contained in the operation instructions unless you are qualified to do so.
15. The main plug is used as a disconnect device, the disconnect device should remain readily operable.
16. This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to the electrical earth.
17. The batteries (if included) should not be exposed to excessive heat such as sunlight, fire, etc.
18. The apparatus should not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.
19. To reduce the risk of fire or electric shock, do not expose to rain or moisture.

Placement methods

Method 1: Place flat on a table.

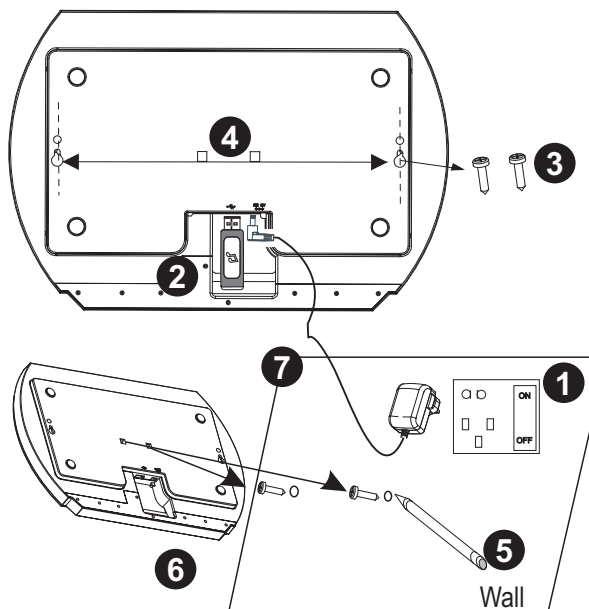

Please place the unit on a stable table, and out of the reach of children.

Be careful not to expose apparatus to liquids, fire, chemicals, rain or moisture.

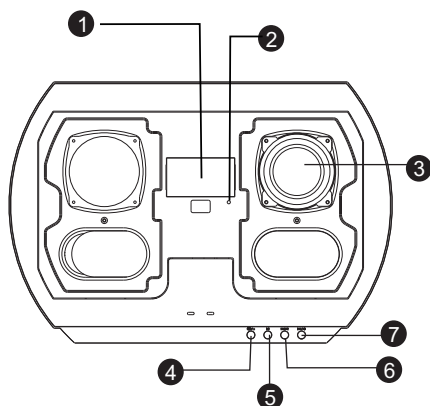

Method 2: Place on a the wall.

The unit can be mounted to a wall with 2 screws (not supplied). Refer to the below picture.

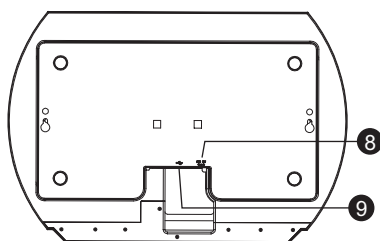

1. Find a wall with power supplies within the length of the power cable.
2. Insert a USB stick if you want to use the USB function.
3. Find 2 screws (not supplied) fitting the size of the mounting holes.
4. Measure the length between the mounting holes.
5. Mark the mounting holes on the wall (using a pencil).
6. Hit the screws in the wall.
7. Insert the power cable into the power socket to connect the unit to power.
