<b>VI - PRODUCT SPECIFICATION</b> .....	<b>23</b>

## INTRODUCTION

First of all, thank you very much for purchasing WayteQ product!

Please read this manual carefully before using this product.

This company will continue to provide new functions for the development of the product, and there will be no separate change in the case of any change in the product's performance and functions.

If the actual setup and the application methods are not identical to those as set forth in this manual, please access to the latest product information of our web site.

## I - GETTING STARTED

### Important Safety Precautions

Always follow these basic safety precautions when using your Personal Touch Tablet. This will reduce the risk of fire, electric shock and injury.

**Warning:** To reduce the risk of fire or shock hazard, do not expose this product to rain or water.

**Warning:** To prevent the risk of electric shock, do not remove the cover. There are no user-serviceable parts inside. Opening will void your warranty.

- Unplug the Personal Touch Tablet before performing maintenance.
- Keep your Personal Touch Tablet out of direct sunlight and heat sources.
- Protect the power cord. Route power cords so that they are not likely to be walked on or pinched by items placed on or against them. Pay particular attention to the point where the power cord is attached to the Personal Touch Tablet.
- Only use the AC adapter included with the Personal Touch Tablet. Using any other power adapter will void your warranty.
- Unplug the power cord from the outlet when the unit is not in charging condition.

### Cleaning the Panel

Treat the screen gently. The screen is made of glass and can be scratched or broken.

To clean fingerprints or dust from the screen, it is recommended to use a soft, non-abrasive cloth such as a camera lens cloth to clean the screen.

If you use a commercial Cleaning Kit, do not apply the cleaning liquid directly to the screen. Clean the screen with cleaning cloth moistened with the liquid.

### Cleaning the Personal Touch Tablet

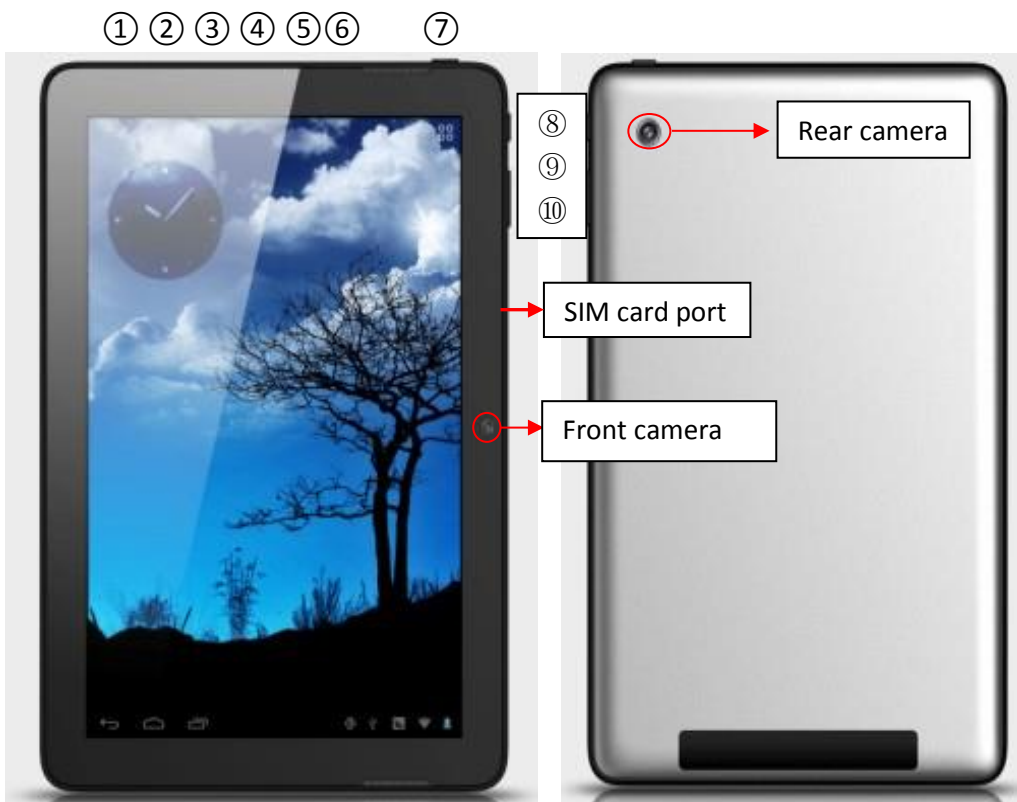

Clean the outer surface of the Personal Touch Tablet (excluding the screen) with a soft cloth dampened with water.

## Features

Welcome to the Personal Touch Tablet! The Personal Touch Tablet includes these key features:

- Displays Alarm, ApkInstaller, Browser, Calculator, Calendar, Camera, Clock, Email, File Browser, Gallery, Music, Setting, Movie Player and etc
- Displays digital photos, Play Music and Video
- Wi-Fi function to connect with your AP router for internet browsing
- Micro Secure Digital™ (micro SD) slot for external storage
- Capacitive touch screen for all user operations
- 8GB Internal Memory
- USB2.0 OTG for connection to the PC or USB flash drive

## Buttons Overview

## Accessories

Power Adapter  
(depending on the regional requirement, the plug may look different)

USB Cable

## What's in the Box

WayteQ xTAB-100dci 3G Personal Touch Tablet  
AC Power Adapter (5V/3A)  
USB Cable, OTG adapter  
Quick Start Guide

## Charging the Battery

Plug the AC power adapter into the Personal Touch Tablet and into a wall outlet.

Icon  will turn to icon  while the battery is charging.

\* It is strongly recommended you fully charge the device for about 4-6 hours before use. \* When charging battery, the battery indicator for a fully charged battery is a steady blue battery icon on the notification bar.  icon means the battery is still being charged, even when 100% has been displayed for battery level on the Settings → About tablet → Status screen.

## Power on/off and Unlock Personal Touch Tablet

The Personal Touch Tablet is easy to set up. Just follow these steps:

1. To power: Press and hold Power button for 2 second.
2. To unlock: Wait until a screen with a lock icon shows up, gently tap the “Lock” icon and slide it toward the unlock icon.
3. To power off: Press and hold the Power button for 2 seconds until “Power off” window pops up on screen where you can choose OK option to power off the device.

**Note:** The screen with the lock icon will time out in 10 seconds if you do not unlock it. In case it happens, the Power button  can be pressed briefly to make it show up again.

## II - FUNCTIONING OF THE TABLET

### Navigation

Tablet has five home screens by default. The first time you turn on the tablet or after having factory data reset, you will see a navigation screen.

- \* To see all your applications, touch .
- \* You can put your favorite applications on Home screen.

### Home Screen

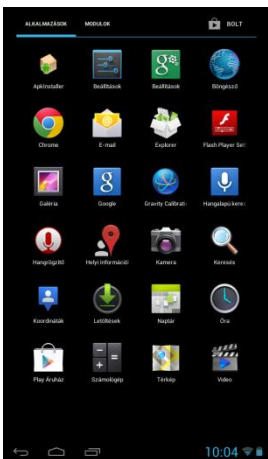

A typical Home screen with wallpaper, status bar, and few applications at the bottom.

- \* The background wallpaper may be different from model to model

- ◆  A shortcut to Google search
- ◆  A shortcut to application Launcher screen.

### Application Launcher Screen

A typical application Launcher screen is shown below. One icon represents one application which can be run by tapping on the icon.

- \*The screen icon may be different from model to model

## Status Bar

At the bottom of the screen, the status bar mainly indicates Back icon, Home icon, Recent viewed applications icon, Current time, Wi-Fi status, 3G status, Bluetooth status and battery level, etc.

Icon	Action
	On any functional screen, tap this icon to go back one screen or exit application.
	On any functional screen, tap this icon to go to Home screen
	Shows a list of thumbnail images of applications you've work with recently. To open an application, touch it. To remove a thumbnail from the list, swipe it left or right.
	Current time
	Wi-Fi connection and signal strength
	Shows 3G signal status (optional)
	Shows Bluetooth status
	Battery level. Will turn orange when battery is low and turn red when battery is very low.

## Onscreen Keyboard

The onscreen keyboard appears automatically anytime you tap on a text line for input. While entering text with the onscreen keyboard, each character will be entered into the position pointed by a vertical cursor. You can change the cursor position by tapping with your finger on the position you want to enter the next character. To select different language keyboard, touch and hold icon . A pop menu will show up to let you select the "Input Options"

<b>Input options</b>
Input languages
Android keyboard settings

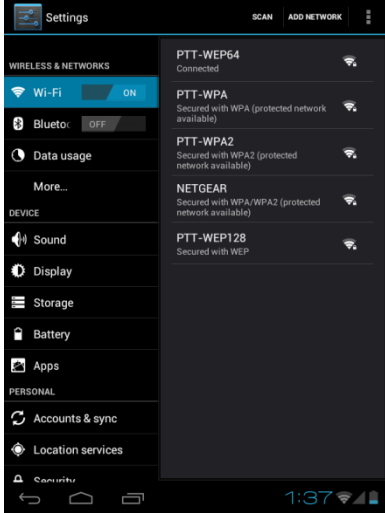

\*Setting up an International keyboard: see "Install Third-Part Application" section.

## III - SETTINGS

### Set Up Wi-Fi Connection

Make Wi-Fi Connection In Settings → Wireless & networks → Wi-Fi, slide the Wi-Fi switch to the **ON** position.

Normally, the device will automatically scan the available Wi-Fi Access Point (AP). If this does not happen, select **Scan** (upper right corner) to scan for the available Wi-Fi APs. Then, tap on the desired AP to make the connection. If it is a secured AP, system will prompt you for the password. Enter it by tapping on the password entry line, and use the onscreen keyboard to enter the password. Then, tap on the Connect to start connecting to that AP. When connection is established, the Wi-Fi connected icon  will show up on the status bar.

### Set up 3G Function

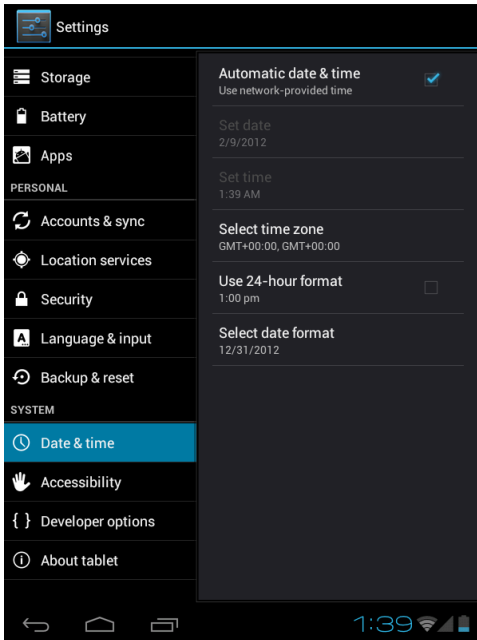

1. In **More** option of Wireless & network settings, tap in **Mobile networks**, make sure the **Data enabled** is checked on before you connect to the mobile network.
  2. To enable 3G function of your Personal Touch Tablet, insert a SIM card into it first. Power on the device, it will search for 3G signal automatically.
  3. When connection is established, the 3G connected icon  will show up on the status bar.
  4. In Access Point Names, select your favor APN.
- \*Turn off Wi-Fi signal before setting up 3G function.  
\*Roaming date may incur significant roaming charge.

## Set Date and Time

Use Settings → Data & Time to open up the data/time setting screen as shown below. Select the correct time zone. If the Wi-Fi is connected to Internet, check on the Automatic to have time set up automatically. If Wi-Fi is not connected to Internet, uncheck **Automatic date & time** to temporarily set date and time. Then, check Automatic again before leaving the screen. In the future, when the Wi-Fi is connected to internet, date and time will be automatically adjusted.

## Set Up Email

You can configure Email for most accounts in just a few steps. For many popular email services, tablet automatically enters most of the settings for you.

1. Make sure the Wi-Fi is connected.
2. Open the Email application and enter your Email address and password, then tap “Next”
3. Give a name to your account then tap “Next”. Mail messages will be downloaded automatically.

Icon	Action
	Tap to enter E-mail compose interface
	Tap to enter search interface of Inbox
	Refresh
	Tap to enter Account settings. To remove your account record in tablet, tap <b>Remove account</b>

## Set Up Calendar

Calendar makes you easy to stay on schedule. You can view your schedule in day/week/month/and agenda mode by touching icons at upper left corner. Swipe to scroll vertically or horizontally.

When using calendar for the first time, there are some steps you shall follow:

1. Tap Calendar icon into Gmail entering interface, then enter your Gmail account and password and tap Next.
2. Change the Serve “gmail.com” for “m.google.com”, then tap **Next** step.
3. You can tap on the specific date to start using your personal calendar now.

Icons across the top:

Icon	Action
	Tap to see the viewing type: day/week/month/and agenda
	Tap to view today's schedule
	Tap to show the creating events interface
	Tap to show more options: Refresh/Search/Settings

## Create Shortcuts or Widgets on Home Screen

In order to access to frequently used applications / widgets more quickly, you can create a short cut to an application / widget and place it on the Home screen. Therefore, you don't need to spend to look for it among the many applications / widgets on the Launcher screen.

### Shortcuts

Press the application icon in the Launcher screen and hold until the icon is enlarged and background has been changed to Home screen. Then drag the enlarged icon to an empty space on Home screen and release the finger.

### Widgets

Widget is a small application. After being installed, it shows up in the main **Widgets** screen.

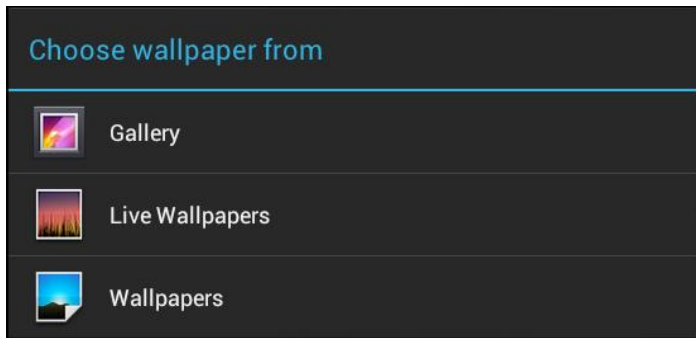

**To add widgets:** Touch and hold a widget, drag it to an empty space on Home screen and release your finger.

**To remove shortcut / widget:** Tap and hold any icon / widget on Home screen, then drag it into the **Remove** icon.

\* If there is not enough room to drop it, the icon / widget won't get added to the Home screen.

## Change Wallpapers

Tap any blank space on Home screen and hold until a **Choose wallpaper from** menu pops out. Then, you can select wallpaper from your Gallery / Live wallpapers / Wallpapers.

## Use folders

You can combine several applications' icon in a folder by dropping one icon over another on a Home screen.

From any Home screen, you can:

**Open a folder** by a slight touch.

**Rename a folder** by touching its name.

**Move icons** around your Home screens : Touch, hold, and then slide.

## Install Third-Part Applications

ApkInstaller can be used to install the application file (with extension apk) into the system.

1. Change the Settings to allow third-party application installation. In Settings → Security → Unknown sources, check the box to the right.
2. Prepare the application files in a micro SD card, inner memory of the device or USB device.
3. Launch the ApkInstaller application on the application launcher screen. Choose Install from menu and browse install package (Internal memory, TF Card, USB Memory). Find the application you want to install from the list and tap on it. The installation process will start. Follow the screen instruction to complete the installation.

## IV - CONNECTIONS

### Wi-Fi

This tablet uses the 802.11b/g/n wireless specification to transmit and receive data. For more information, refer to “Set up Wi-Fi Connection” on page 8.

### Bluetooth

Bluetooth is a short-range communications technology that enables you to link to other devices for exchanging information without a physical connection.

Make Bluetooth Connection In Settings → Wireless & networks → Slide the Bluetooth switch **ON**. Icon  will display when Bluetooth is active.

Setting up Bluetooth is similar to setting up Wi-Fi. Normally, the device will automatically scan the available Bluetooth devices. If this does not happen, tap Scan for devices for the available Bluetooth devices. Then, tap on the desired device for a while to show Pair & connect, and enter a PIN to pair with this Bluetooth to make the connection. Tap on the **OK** to start connecting to that Bluetooth.

When connection is established, you may start exchanging information now.

## PC Connection

Connect your tablet to a PC via USB cable. By connecting tablet to PC, you can synchronise files or transfer data directly.

1. Plug one end of a USB cable to a tablet and plug the other end to a PC, then you will see a screen as below. Tap **Turn on USB storage** to connect to PC.
2. For a better use of your tablet, tap Turn off USB storage every time you unmount USB storage.

## Connect to TV set

HDMI switch can switch your video display from tablet to a TV or monitor with HDMI input.

To display screen from the tablet to a TV or Monitor equipped with HDMI input

1. Go to "Settings" and look for "HDMI" in "Device" menu.
2. Choose Turn on HDM then plug Tablet to TV or monitor.

To set resolution go to "HDMI Resolution" menu and choose the corresponding resolution. To zoom the picture go to "Screen Zoom" menu.
