

SQUARE JELLYFISH POCKET TRIPOD USER'S MANUAL

Thank you for purchasing the new Square Jellyfish Pocket Tripod. This product can be used with any pocket camera with a threaded hole for tripod mount. Using the unique shape of the Pocket Tripod, your camera can be positioned at many different angles while holding your camera steady enough to take a picture. There are a few specific guidelines that you should follow to make sure that no damage occurs to your camera.

It's about balance

- First, select a good location to place your Pocket Tripod. This can be even surface such as a desk, bench or floor. Make certain the Pocket Tripod is surrounded by a minimum 12" radius area.
- Loosely mount your camera to the Pocket Tripod screw and then hold and slide your camera in the slot to find the angle you desire. Gently let go to ensure your camera balances independently before letting go. If necessary, select a slightly different angle for your camera.
- Finger-tighten the screw to hold your camera securely.

Use common sense

- The Square Jellyfish Pocket Tripod is designed to hold the camera steady while taking a picture. It is not designed to be mounted to a moving object or vehicle.
- Do not place your camera and Pocket Tripod where it can easily fall a distance that would cause damage to your camera. A small railing and the edge of a cliff are just a few examples that come to mind.
- This product contains small parts that may be a choking hazard. Keep out of reach of children.

GOOD

Pocket Tripod is placed on large, even surface.

GOOD

Camera is balanced properly and will not tip.

GOOD

Camera is balanced properly and will not tip.

GOOD

Camera is balanced properly and will not tip.

GOOD

Camera is balanced properly and will not tip.

WRONG

Camera is not balanced and will tip forward.

SQUARE JELLYFISH POCKET TRIPOD PRODUCT WARRANTY

WARNING

The Pocket Tripod is designed to hold your compact camera in place without the need for a large, traditional tripod. Be careful when positioning your camera so that it does not fall over. The Pocket Tripod must be placed on a flat, level surface strong enough to support the camera, and you must take care to make sure that the camera remains balanced after it is aimed. This device is designed to support lightweight, compact cameras, and not heavy cameras, SLRs, or any camera with a lengthy lens or similar extension. Always support the camera with one hand while you are tightening it in place with the other hand. While still supporting it, wiggle the camera a bit to make sure that it will not tip over when you release it, because this might damage your camera! Only you can make a safe evaluation of whether your camera is secure and balanced because of the infinite number of settings which you may choose.

LIMITED WARRANTY

The Pocket Tripod is warranted against defects in materials and workmanship for a period of ONE (1) YEAR from the date of the original retail purchase. If a defect exists the manufacturer will, at its option and to the extent permitted by law, (1) repair the product

at no charge using new or refurbished parts; or (2) exchange the product with a functionally equivalent product that is new or refurbished; or (3) refund the original purchase price. This warranty excludes damage resulting from abuse, accident, modifications or other causes that are not defects in the materials or workmanship. To the extent permitted by applicable law, the manufacturer is not liable for any direct, indirect, incidental or consequential damage arising out of the use of service of the product, including, but not limited to damage which may be caused to any camera, or to any other device the Pocket Tripod is used to support. To the extent permitted by applicable law the manufacturer of the Pocket Tripod disclaims all implied warranties of merchantability and fitness for a particular purpose. If implied warranties cannot be disclaimed, then such warranties are limited in duration to the duration of this warranty. This warranty gives you specific legal rights, and you may have other rights which vary from state to state.

To obtain warranty service, contact Square Jellyfish using the information provided at www.squarejellyfish.com

To the extent permitted by applicable law proof of purchase for all warranty repairs/replacement is required.
