**NOTICE:** We believe that an active and healthy sex life, based on mutual consent and respect between partners, is an important part of a healthy relationship. We also believe in the practice of safe sex, through the use of contraceptives, regular medical examination, or both. Moreover, we respect that sex is a private matter and that each person has a different opinion of what sexual practices, dating etiquette or beliefs are appropriate.

We are committed to offering responsible, professional, and helpful advice about dating and sexual matters. However, this book is intended as a reference only. It is not intended as a substitute for professional advice. Please consult a competent professional for your specific sexual, mental, emotional, medical or other concerns.

### **CAUTION**

**This publication contains explicit adult content not suitable for anyone who is under the legal age limit.**

**NOTICE:** This is **NOT** a free ebook and cannot be given away or sold to anyone unless you are an authorized reseller and/or distributor.

## Is It Really Possible...Or Just Mumbo Jumbo?

What you and I accept as "normal" and commonplace today used to be laughed at, at one time.

The discovery of flight, electricity, light, and so much more used to be thought of as foolish endeavors, and those that searched for the answers were thought of as fools. (The world was also thought to be flat at one time.)

But today, we know that those so-called "fools" were ahead of their time. Because of them, we have all this cool technology today.

The smart men who discovered all this technology couldn't physically see or even touch what they were after. Yet, they still pursued their visions and goals, despite what others said or believed.

Gravity, electricity, radio waves are just some of the invisible forces working around us. Most of us don't really understand exactly how they work. But, we still benefit from their useful application.

I'd like to ask you to think in those terms as you read through this manual. The smart and highly-intuitive folks who discovered and perfected this stuff are still looked upon as 'fools' by most of society.

Fortunately, you're not one of those people, especially since you're reading this right now. (Or...you're at least open-minded enough to consider the *possibility* of it.) You're ahead of your time. And you'll be rewarded for that.

When most people hear or see the word "psychic," they immediately think of other words: scam, hoax, fantasy, freak, misfit, etc.

And, who can blame them? There **are** lots of scammers and con artists claiming to use "psychic" powers to help others...**for a fee**, of course. It's all about taking other people's money.

Moreover...the few people that do believe in this stuff think that psychic ability is reserved only for certain "special" people. That they are born that way.

The fact is, psychic ability is in all of us. We simply have to learn to tap into the ability. It's hard to believe, isn't it?

Well...think about how you communicate with others right now. You use language, yes?

But, were you born with this language? Or did you have to learn it?

If no one had started to teach you words, their pronunciation, and then the construction of complete sentences, would you be able to speak today?

Obviously, you wouldn't. In fact, there are many adults out there who still cannot speak English. Are they any less smarter than you and I?

No, they simply never learned to speak English. But, I bet they are perfectly capable of speaking in their own language...the one *they* were taught to communicate with, while growing up.

I want you to think of psychic ability in the same way. Just think of it as another language you're trying to learn.

Because, that's really all it is about...

**It's simply another form of communication.** That's it!

Most of us have been trained from a very early age to see, communicate, and *perceive our reality* in a certain way. In a very limited way, unfortunately.

Take something as common as breathing, for example.

Heck, we don't even breathe right. Watch a sleeping baby next time and notice how s/he breathes.

Babies breathe from the belly or rather the diaphragm, not from the chest like adults do. Babies breathe the *correct* way!

But as they grow up and watch everyone else (adults) around them, they automatically 'learn' bad habits from the people around them (yes, including and especially their parents.) And one of these bad habits is to breathe from the chest, which is shallow and anemic.

Similarly, we've been trained to **not** be as perceptive, intuitive, and yes, even as psychic as we could be.

We've been trained since birth, by well-meaning adults, to **un-learn** the most efficient form of communication, the one that comes most naturally to us. We've been trained to depend solely on verbal communication, using language and words.

Animals don't have language, yet they seem to do certain things better than we can: find their way home without GPS or cell phones, sense danger before its within visual (or even auditory) range, and that's just the tip of the iceberg.

So, when you really think about it, working on gaining your psychic ability is more about un-learning what we've been taught than learning something "new and strange." The mystery and fear surrounding the subject instantly vanishes when you view it that way.

And the really cool thing is, you don't have to understand everything there is to know about this method of communication. You just need to know *enough* to be able to *use* it.

Here's what I mean...

### **A New Way of Seeing, Perceiving, and Communicating**

I'm going to assume that you currently use, or have at one time in your life used, a radio, TV or a cell/mobile phone. Yet, you don't exactly know how they work. You don't know what goes on inside these gadgets to make them do what they do, so that you can enjoy the benefits they provide.

You don't *see* how they work either. You can't see how the sound waves from another city or even another *country* are transmitted into satellites which are then sent back to another cell phone or other wireless device.

All you know is that you can talk to other people using the phone. Imagine how that invention came to be. How crazy did the person have to be (or *appear* to be, to others) when he first thought about trying to harness this technology?

So...you don't understand exactly how it works. But it still works. And you use it all the time. Heck, most of us never even stop to wonder just how amazing it is for phones to work the way they do. Or radios or TVs, even.

We just take it for granted. It is a part of our everyday lives. We don't give it a second thought.

You can't see any of the inner-workings with your eyes. But you are *aware* of them.

Awareness is where it all starts.

You believe in it because you can see the phone, you can touch it, and use it. Because someone before you did the imagination and figuring out how to make it work.

But...a caveman would not believe such things and would call you a fool for believing in cell phones or trying to convince *him* that it's real.

Even if you finally *gave* the caveman a cell phone and said, "[Here! This is what you can use,](#)" he would still have no idea what to do with the cell phone. Because, no one has

shown him how to use it nor has he seen anyone around him use it. And, even as he is holding the phone in his hand, he still wouldn't believe that it can do what you say it does.

It just does not exist in his level of awareness.

So, having the technology is not enough. It's a good place to start. But you still have to *learn* to use that technology. Just as you do whenever you get a new phone, or computer or any other gadget.

If, at any time, we have to get a brand new phone (or tv or any other electronic device,) we have to start all over again. We have to read the darned manual over and over just to be able to figure out the *basics!* (Of course, some people are able to figure it out quicker than others, but it still takes a little bit of reading and learning to accomplish that.)

The more we study the manual, and the more we play with our new phone, the more of its features and capabilities we are able to utilize. Otherwise, all those cool features of the device just lays there - and never gets used.

Is it really so hard to then believe that our brain (and mind) usage would be the same way?

Think of your brain - and your mind... the most amazing technology (and tool) in your possession. Yet, no one has ever given us a user manual on how to operate it. We simply do with it what our parents and teachers taught us. We are limited by what little they know and have passed on to us.

There's an invisible world around you that exists whether you understand how it works or not. Just as sound and radio waves exist, whether you can see them or not.

You know this, and you probably use it everyday.

But a caveman doesn't. Even with the devices, he may not be able to use any of it or benefit from it.

So, realize that there's even more stuff around you - invisible stuff - that you aren't yet aware of...that you don't yet know how to put to use. (Psychic energy and psychic communication are part of that invisible, rarely-understood 'hidden' world.)

Become aware that these things exist. That awareness is where it all begins...

As you become aware of it, as you start to learn more about it, and how it works, you'll start to play with it and use it. (Just as you did when you first got that brand new cell phone and started learning about all those cool features on it.)

The more you learn about it and the more you practice using it, the better you become at it and the more features you're able to use/harness of this new technology.

Fortunately, you don't need to invest in some expensive equipment or technology. You already possess the technology, and even the tool (device) – it's your brain and your mind.

Now, you just have to learn how to use it.

And, just like using the cell phone without knowing how the insides of it work, you don't have to understand *everything* about how your brain and mind work either. You only need to learn *enough* to operate it and make the call.

## **The Steps**

I could write volumes about all the various psychic techniques and training a person could go through. Just go into any bookstore or online search engine and you'll find thousands of books, reports and courses about the subject...each one with a different technique, each one more complex than the other.

But, since I'm a fan of simplifying the various processes and learnings in life into the most basic, easily teachable and consumable form, I'll do the same here.

Think of this manual as a crash course in psychic seduction and influence. I'll get straight to the meat of it and will also share some of my own "shortcuts" and methods that I've developed over the years.

Of course, some parts (like the earlier sections above) will require a bit more explanation and examples, in order to get the understanding across. In those instances, I will try to be as brief as possible, without leaving out any of the important pieces.

Also...as mentioned earlier, the most helpful analogy would be to think of this as learning a new language (or a new way of communicating.)

At first, you will start out by learning the most common, simple, and most frequently used terms... like "restroom/toilet, bank/atm, bus stop,"...etc.

Then, you would build on that layer by learning simple sentence structure..."I am" ...and "I want..." and "you are"...and "how are"...and "where is..." etc.

The point is, learning will usually occur in stages.

More importantly, you cannot jump to the next level until you have mastered the previous level. This is probably *the biggest mistake* that almost everyone makes when learning something new.

They think they will save time by jumping ahead, but they only find - after much wasted time - that they shouldn't have skipped ahead.

So, don't make the mistakes that everyone else makes. Be smarter than most people.

Learn what I share below, in the correct sequence. Don't rush, don't jump around, and don't try to fly before you learn to walk or crawl.

With that said, here are the steps to my psychic seduction system, which I have simplified as much as possible over the years...

### 1. Clear Your Mind

Just like making a phone call, you need a clear line before you can dial out. If there's too much static or white noise, your call won't go through. Or...it may go through but will not be received or understood on the other end.

Some people have spent years trying to achieve this one, and failed. But don't worry, you don't have to be a yogi or meditation expert to do this. My simple but powerful technique will have you thinking 'nothing' in the least amount of time possible.

### 2. Adjust the Frequency

The next step is to alter our brainwaves so that we can send messages and impressions effectively.

Our normal, waking state is not the most effective platform for psychic relay and communication. So, we have to reach the "alpha" level. This is a meditative state that can, again, take a while to master. But once again, I have a powerful shortcut that can get you there quickly and also get you to access this state whenever you want, without having to go into a meditative state. (This is very cool.)

### 3. Push/Send

This is the part where you do the chosen action and/or visualization that will give you the desired outcome, which in this case is to communicate, influence, seduce.

There are several techniques I will share with you. Each one will take you a level deeper than the one before, and you'll use them in the right sequence so that each one builds on the previous one until you achieve the final desired outcome.

#### 4. Pay Attention, Record Results

This is something that every smart student should do. After the first 3 steps, you will notice the kind of results you're getting. This is a vital step, especially when you're starting out because it will help you work out the little kinks and hurdles along the way.

I would advise you to keep a journal and record your results. This will also positively-push you to be more observant, which will only help improve your skills.

#### 5. Practice and Improve

This is just like learning any other new skill. The more you practice, the better you will get. Of course, we'll do it the smart way, by taking feedback and results from all our previous sessions and building on them, learning from them, and continuing to improve your skill level and effectiveness of using this process.

That's about it. It's really only three (3) steps. The last 2 are merely your feedback mechanism that will help you improve at a much faster pace.

I will go over each of the above steps in more detail below, in the appropriate section of this manual.

With all of the techniques and exercises shared below, it will help to *first* clear your mind of all thoughts and clutter. So, we will start there...

### **How to Clear Your Mind**

It is said that the average person has up to 50,000 thoughts go through his mind on any given day, or more. (That's fifty *thousand*!) Even if some of us have half the amount of thoughts to run through our head, that's still 25,000.

Our minds are cluttered with thousands of thoughts... things we are supposed to get done...worries, fears and concerns about things that *may* happen, did happen or are happening right now...what others are thinking about us... all the judgments and criticisms we make about others and especially about *ourselves*... what to wear, what to eat, what to say, what *not* to say, what to do, what *not* to do... it goes on and on, constantly...non-stop – from the moment we wake up till the moment we fall asleep at night.

It's no wonder that we're oblivious to all the hidden energies and impressions that are trying to communicate with us all the time. There's too much clutter and white noise, so none of the messages are getting through.

At any rate, here's the quickest way I've found to clear your mind of the thousands of useless thoughts, clutter and white noise that muddies the communication channels...

1. Sit comfortably in a quiet place.
2. Close your eyes to cut off any visual distraction.
3. Become an "observer." In other words, start observing all the thoughts that go through your mind, as if you're an outside observer. As you identify each thought, let it pass on, and look for the next thought.

As you do the above, the thoughts going through your mind will become fewer and fewer till you'll get to a point where you'll actually have to *search* for the next thought.

This is a very clever and quick way of clearing your mind of all useless thought and clutter.

On the other hand, if you try to do what most people do, which is to "**stop thinking**" or forcibly try to keep all thoughts out, you'll find that new thoughts seem to flood your mind at a much faster pace.

By using the above technique and becoming an "observer" of your own thoughts, you are able to empty your mind of thoughts very quickly and easily.

Use it. It works very well.

(You can also use some of the steps from the next section to clear and calm your mind, if needed.)

## **Accessing "Alpha" Level**

Being in the alpha level is very powerful because it allows you to communicate with others on a different level, on a more powerful level, *without* using words. With some practice, you can easily send, receive, and maybe even implant messages into other people's minds while you're in alpha level.

And since our normal, waking state isn't very effective for psychic relay and communication, we have to adjust the brain frequency to the right setting.

Many people struggle with this and have a difficult time trying to get into the "alpha" level.

Of course, as promised, I have an easy way to get you there. *And...* I have a powerful shortcut that can get you *back* there quickly and easily, whenever you want. It really is very cool.

Let's begin...

1. Find a quiet place where you won't be disturbed for at least 5 to 15 minutes. Your bedroom would be ideal. You will want to unplug the phone, turn off any alarms, and lock the door so there are absolutely no interruptions. Pull the curtains to keep direct sunlight out and dim the lights if possible.
2. Sit in a comfortable chair...or lie down in bed, on your back, and get comfortable. (Wear loose, comfortable clothing. Nothing restrictive that would hinder your breathing or cut the blood flow in any part of your body.)
3. Close your eyes and allow yourself to become relaxed. While keeping your eyelids closed, roll your eyes upward as if you're focusing on your forehead on the area between your eyebrows. But, do not *strain* your eyes. Just roll them up as far as they can *comfortably* go.
4. Inhale deeply and slowly through your nose and then exhale slowly through your mouth. With your eyes still rolled up, begin to focus on your breathing. Become aware of the air moving in and out of your lungs; notice the sounds and movements associated with it, and notice your chest rising and lowering each time.
5. Continue to take deep breaths in and out for up to a minute (or more if needed) until you notice your body becoming very relaxed and settled. Breathing in this way (with your eyes rolled up and your focus on your breaths) will quickly put you into the "*alpha state*" of consciousness - a state that is ideal for tapping into some of your very powerful mental powers (which we will discuss later.) It's also perfect for creative visualization.
6. Once you're in the alpha state, you're ready for the most important piece of all...

It is time to **anchor** this mental state (alpha level) so you can access it at anytime in the future, *without* having to go through the rest of the steps above. (An "anchor" is like a switch, or a shortcut on your computer desktop. Once created, you can use it to instantly access the specified mental state or programmed response, without having to go through a bunch of steps.)

You can achieve this by doing something **unique** that you normally wouldn't do, which will get "linked" to your current (alpha) mental state.

Here's what I do (you can use this, or make up your own maneuver)...

While I'm still in the alpha state, I take the middle and ring fingers of my right hand and dig them into the middle of my palm. (Kinda like the maneuver Spiderman does to fire off his web.) As I do this, I intend the alpha state of mind to be anchored/linked to my finger-to-palm motion.

We will use the above anchor for a lot of our psychic seduction processes. So it is very important that you do the above anchoring process as many times as needed (but only once per session,) in order to create an effective anchor.

I recommend going through the entire process above (steps 1 through 6) at least 7 times. Then, I would do it about once per week, to further strengthen the anchor, until you're confident that the anchor works effectively. (After that, you may want to do it once every few months, just to maintain the anchor – depending on how effective it is at any given time.)

## **Preparation: Before Going Out**

All the techniques and strategies I share in this report work. They have worked for lots of guys, and they can work for you.

However, you can make them work even better and more powerfully by doing some additional prep work at home, before you ever step outside your door.

## **Energizing Routine**

Magnetic people, who seem to draw other people to them like a magnet, are said to have larger and more radiant (positive) auras around them.

(An 'aura' is simply the energy formation that's emanating from, and surrounding, your body at any given time. When you're depressed or sad, the energy combination radiating from your body - and the colors of those energies - are very different from those that surround you when you're feeling happy, excited, full of life, or even in love.)

However, unlike magnets, *like* energy attracts *like* energy. (In other words, similar energies are attracted to each other.)

So, a happy person will draw other happy, fun people to him and will also infect other people's energy with his own. If his 'happy' aura is large and radiant enough, it will influence the aura of those around him. A happy person also tends to attract happy events and *experiences* to him.

Similarly, a sad or depressed person will draw other sad, unhappy and depressed individuals to him. (Misery really does love company!) Also, his energy can often infect

others around him. And, an unhappy, depressed person can bring the energy of the entire room down with him quite dramatically. (Naturally, an unhappy person also tends to draw more events and experiences in his life that make him even more unhappy.)

Our goal is, of course, to become more magnetic, likeable, and attractive.

To do so, our auras must be larger and more radiant than of those around us – so they are drawn into us.

So, we need to borrow from a significantly powerful energy source, much more powerful than our own.

The earth's core is said to be one of the most powerful energy sources that we know of. After all, so much of life on this planet is sustained by what's inside the earth. Food, minerals, oil, metals, wood...everything comes from, or is sustained by, the earth.

### **Here's how to tap into this energy...**

1. Stand up in a relaxed but confident posture, with your legs shoulder-width apart and arms hanging at your sides.
2. Close your eyes, and visualize the earth's core, located at the very center of the earth. See it as clearly as you can, in your mind's eye. Start visualizing the colors, texture, and temperature of this powerful core.

As you do this, you will start to feel yourself drawing in some of this energy. You'll notice your fingertips, toe-tips and the soles of your feet begin to tingle.

3. Once this initial connection is established, visualize the core sending an endless flood of powerful energy up towards you. Notice your entire body filling up with this energy, starting from your feet and going all the way up your body, to your head, and beyond.

(I recommend that you allow your mind and awareness to intuit the color of this energy - notice what comes to mind and how this energy feels. Also notice what effect the energy has on your body.)

4. Next, visualize rays of bright (almost white) light coming down, from all over the sky, and flowing into you through the top of your head. Notice how the two energy flows (from above and below) blend into one, as your body becomes the center of this powerful activity.

Your body being the center, both the energy floods (from above and below) cause the blended energy within you to expand outward, as an energy sphere surrounding you, while you're in the center. See this energy ball expanding around you till it becomes the

size of a sphere that would fully encompass the top of your head, the bottom of your feet and the fingertips on both your hands *if* your hands were to stretch out to your sides.

Focus on this sphere. Really get in touch with it. Notice the swirling colors, what the temperature is, and how this energy affects your body.

The next, and final step, is to anchor (or lock) this moment. There are many ways to do this. A very effective way to do it is to associate it with emotion, sound, and physiology...

So... feel this loving and protective energy around you. Get in touch with the emotions that go along with it. Really connect with it. And, when you're at the peak of that emotion of love, confidence and magnetic power, let both your arms move several inches away from your body as you simultaneously turn your palms so they're facing forward (as if you're ready to fly off into space,) and say out loud... **"I am love."**

Repeat this phrase out loud two more times, for a total of 3 repetitions.

Now walk out into the world with this feeling of confidence, love, magnetic power...and notice how people seem to gravitate towards you.

I recommend that you do this each time before going out to meet and/or seduce people.

Note: People have asked me why I use "love" as the primary focus above. I do so simply because "love" is the most fundamental, the most raw form, and the most universally-understood representation of attraction, seduction and magnetism.

(The next time you are around a new-born baby, notice how others, especially *women* are drawn to the baby. It's because babies represent pure love, innocence, and of course, raw creative energy. Babies haven't yet learned to suppress or taint their raw magnetic, love energy. They radiate it outward, with full force.)

## **Magnetic Visualization**

Here's another very powerful way I've found to create an aura of magnetic, attractive energy around you.

Please don't dismiss these methods. They really are extremely powerful when practiced correctly and regularly.

This exercise can be done any time during the day. However, it seems to impress your mind the most if done first thing in the morning (immediately after you get out of bed and visit the restroom) or just before you retire for bed at night.

1. Find a quiet, private place where you won't be disturbed. Your bedroom would be ideal.
2. Use the instructions given in an earlier section (above) to get into *alpha* level.
3. Once you're in alpha state, imagine you're in a place where you have complete control of your life and your **reality**. It's like you're a magician, and you can create anything you want with just the flick of your magic wand. (Or you can think of yourself as Neo inside the Matrix, where he can do and create anything.)

Now, visualize the most seductive, magnetic and irresistible person you can think of. (Most guys think of someone like James Bond, who is confident, smart, incredible with women, etc.) Think of how easily he is able to talk to women and get them into bed. Think of how women seem to be drawn to him even before he says a word.

Now, using your magical powers that you have inside this world of yours, imagine that **you** have taken on all of this person's seduction powers. Now, you too are attractive and irresistible to women.

And, now, imagine going out into the world, and notice how women seem to turn and look at you, they give you those "looks," they feel compelled to come up to you and strike up a conversation.

Also imagine yourself walking up to beautiful women and talking to them easily, while being completely relaxed, and yes, seductive! The women around you want to rip your clothes off.

Notice other men looking at you very confused, or filled with envy. They are wondering how you're able to do all this. They can't understand why women are drawn to you like a magnet.

Important: Do **not** see yourself doing all of the above as if you're watching a movie of yourself. Instead, put yourself **in** the movie. You're not an observer, you're actually doing all these things.

In other words, visualize yourself out there with the women. You're not laying in bed anymore. This is not happening in the future. It's happening *right now*. You are actually out there. You can see the women around you. When you talk to one of them, you can see her face inches away from yours. You can feel the warmth from her body. You can smell her perfume, you can see her skin tone.

Make this visualization as real as you can make it. (This exercise is also good because it will help you improve your visualization abilities, which is very important for almost all psychic practices.)

And have fun with this! You should feel very relaxed, confident and at ease throughout the entire process. Remember, you're in a place right now where **you** can create your reality just as you want. Think of yourself as a kid who is playing make believe.

4. After you've done the above visualization for as long as you want, and really enjoyed being this confident, attractive babe-magnet, take a few deep breaths and slowly open your eyes.

Then, say out loud...

"I now allow myself to be attractive and irresistible around women! It is done! And so it is."

Say these words in a confident and commanding tone. *Expect* it to happen!

This may seem silly at first but is VERY important, because it allows you to "release" your vision out to the universe to get created.

If you don't release your vision as outlined above, you'll be attached to it and that will interfere with the creative process. As you say the above words, let go of all worry, fear, doubt, disbelief, and concern.

That's what "releasing" means. Don't worry about how this works. Just do the process and trust in the creative forces of the universe - and release your vision to it.

And then, go on about your daily activities and don't be concerned about your vision.

Each time you do the visualization process and release it, you will impress the vision upon your subconscious mind *further*. The attractive, magnetic energy will build around you more and more with each session.

As you go about your day, *pay attention to others and how they respond to you*. Don't question or judge anything before it happens. Just observe. Let it happen naturally. *Expect* it to happen, but don't rush the process. Just be open to everything (and everyone) as they are drawn to you.

Do your visualization as described in the above steps at least once a day. Twice would be ideal. Again, first thing in the morning, as soon as you get up, and last thing at night right before you go to bed are the best times to do them since your mind is in a very receptive state during those times.

And, don't view it as a chore or homework or some other "thing" that you have to get out of the way each day. *Enjoy* the process. Look forward to it! If you do it right and get in

touch with those wonderful feelings that surround your visualization, you won't be able to help *but* enjoy it.

## **Turning In On**

Okay...so you've done the prep work and dramatically turned the odds in your favor even before you stepped out into the world.

Now you're out there. You're ready to turn on your seductive powers! You're ready to seduce and conquer!

Let's get to it...

## **Mass Seduction**

This process will turn on your seductive powers (or strengthen it if you've already done the prep exercises, which I highly recommend you do before doing this part)...

### 1. Accessing alpha level

As mentioned earlier, being in the alpha level is very powerful because it allows you to access the parts of your mind that are normally unavailable to you – and you can use it to better communicate with others, without using words. You can easily send, receive, and maybe even implant messages into other people's minds when you're in alpha level.

Of course, there's a problem with this because *typically*, when people go into alpha level, they are sitting or laying down somewhere quiet and private, in a meditative state, with their eyes closed, i.e. they are not fully awake.

However, this is where I will show you how to use one of my shortcut methods (from earlier on in the manual) to get into alpha level almost instantly.

You can do this by using (firing off) the anchor that you created in the prep stage (when you were in fact in the alpha state.)

In my example, I told you that I dig two of my fingers into my palm to anchor the alpha state.

To access the alpha level again, you simply repeat the action, i.e. dig the same two fingers into the same palm in exactly the same way, with the same amount of force.

If you've set the anchors strongly enough during your earlier pre-visualization sessions, doing the above finger-to-palm maneuver will *instantly* put you back into alpha level *while you're still awake with your eyes open, and around public.*

Pretty cool, eh? ;-)

2. After accessing the alpha level, think and/or say in a low yet deliberate voice...

"You are attracted to me."

...or...

"You are drawn to me."

...whichever feels better for you to say.

As you say that, imagine a ring of vibrational energy projecting from you to everyone around you. It spreads out like a ripple does through a pond.

You are not saying the above phrase to any one person in particular. You are saying it to anyone, and everyone around you.

The same goes for projecting the ring of energy. If you are targeting women, you can imagine the ring of energy projecting out to all the lovely women around you, and overcoming them with desire.

You can either do this while you're at your target location (a room, club, bar, party, etc.) ...or... you can do so even *before* you enter the room.

Doing it before entering the room can actually be quite powerful. As soon as you walk in, you'll notice the eyes turning to you.

Be ready for this! And learn to become comfortable with the idea that people, especially beautiful women, will be watching you while you're walking, sitting, eating, whatever...after you start using some of the powerful stuff I share in this manual.

If you see others looking at you and you become nervous or uncomfortable or self-conscious, you will mess up the energy you're trying to create. Remember, you're James Bond! Learn to become comfortable with this seductive power that you're developing. Otherwise, you will cancel it out with the negative energy that is associated with nervousness, self-consciousness, etc.

3. Next, imagine a pinkish energy emanating from your body and going out towards everyone that you want to further infect with your magnetic quality. (You're building on your seductive energy by stacking layer upon layer, remember?)

You can either imagine pink energy balls shooting out from your body into every direction and infecting others, or pink energy ribbons extending from you to others...or...you can combine the two and imagine them projecting outwards as balls of energy and then turning into ribbons or tentacles that wrap around the beautiful women and pull them toward you.

Imagine the women being compelled to notice you, being pulled to you, wanting to come and talk to you or trying to get your attention so you will notice them and approach them.

Important: Do not, I repeat, do **not** let your body or your face give away the fact that you're doing all this. Outwardly, you must appear very relaxed, calm and friendly. If your face or body starts to look like you are ready to rip the women's clothes off and attack them, it will repel the women.

When they look at you, all they should see is a friendly, relaxed person. You should appear as if you're giving them the "Hello, fellow human" smile... warm, friendly, non-sexual and non-creepy.

This is what will drive women crazy. They won't know what it is. Just that they are drawn to you, for some reason.

And, by keeping your outer appearance normal and friendly, they will sense this sensual, even sexual energy in the room...but, they won't know exactly where it's coming from - especially if there are lots of horny guys in the room. The women will look around the room to try to locate the source of this energy. And...they will see a bunch of guys staring at them with that look of "I want to jump your bones" or open jaws with drool dripping down the side, etc.

All of that will be an immediate turn-off, and will just make the women look away, obviously...until they spot **you**.

They will sense a similar energy from you, the sensual, sexual one...but, you won't look like the rest of the guys in the room. You won't give off that creepy vibe of "I want to rip your clothes off" or "drool all over you."

Yours will be the (outer) appearance of calm, collected, friendly *non-creepy* guy. And *that* will draw **them** to **you**.

Because, they will think that *they* are the ones responsible for creating this energy of attraction (since *your* demeanor seems to not exhibit any of the signs of this energy.) And they will assume that they are simply attracted to you, for some unknown reason. (Which is just fine because women are drawn to guys who seem to have an air of mystery about them.)

Like I said earlier, this is powerful - and sneaky - stuff.

### **Individual Targeting: Isolate and Amplify**

So, you've used mass seduction to surround everyone around you with your attractive, magnetic energy.

Now it's time to isolate your main target, your top pick, from the rest of the crowd... the one person you would like to seduce - and hopefully have an intimate encounter with in the very near future... maybe even that same day/evening. (Yes, it has been done before.)

Guys have asked me why I don't *start* with individual targeting from the very start.

There are two reasons:

1. Mass seduction will cause your best candidates to rise up and reveal themselves.

Women who are most open-minded, most sexually-open, adventurous and comfortable with themselves, and women who are the most **fun** will respond to your energy the most openly and quickly. These are the women who you should work on targeting individually.

(I'm not talking about women who will sleep with just anyone, mind you. I'm talking about women who are comfortable sleeping with a guy, and enjoying it, **IF** they feel a strong connection with the guy. And you should give these women the respect and *thanks* they deserve! We need more empowered women like those out there.)

Women who are excessively shy, reserved, suppressed or overly conservative will not openly show their reactions. They may feel your seductive pull just as strongly *on the inside*, but they will keep a lid on it outwardly. (If this is the kind of woman you're interested in, you don't need to learn seduction. You need to start spending lots of money - on flowers, gifts, drinks, and dinners. And maybe - just maybe - these women will eventually let you touch them.)

2. By doing mass seduction first, you will get a bunch of women giving you attention. This will impress your main target *even more*. She will want to be your first choice even more. (Social proof is quite a powerful motivator. People generally want a thing more when they see others wanting that same thing.)

Okay, let's get to the steps for individual targeting.

1. First, you will need to decide who your top candidate is, obviously. Sometimes, this can be quite challenging, especially if you're in a room full of beauties. But you *must* pick one, or else you'll go home empty-handed.

After you've picked your candidate, re-activate "alpha" state, if you aren't already there, by using the anchor you created earlier. Once you're in alpha state...

2. Visualize you and her joined in a passionate, sensual embrace. You are connecting with each other sexually as well as emotionally. She is totally into you and can't get enough of you. You can even visualize her saying things to you...things that a woman who is absolutely crazy about you would say when the two of you are naked in the bedroom together.

Visualize yourself pleasing her sexually in exactly the way she most wants and craves to be fulfilled. You're making her feel like no one else ever has before.

You can even visualize her having an orgasm towards the end, while she's with you. This can be very powerful, especially if you attach emotion to your vivid imagery.

(The above visualization process may be hard to pull off in public, especially if you're just starting out with this stuff. So, if you have to, excuse yourself and go to the restroom or some other quiet/private location nearby. And, do your visualization there. Then, come back into the room and continue.)

Also, when you use the isolation technique above, you will notice that all the other women are even more drawn to you now. Consider that an added bonus. ;-) But, don't let it distract you from your goal of isolating one person to focus your energies on, from here on out.

## **Advanced Targeting**

I can't believe I'm about to give away one of my best secrets in this report. This one technique that I'm about to reveal below could be its own report, that could easily be sold separately... and would be well worth the price.

But, hey, I'm in a generous mood so... enjoy! :-)

This is something that I picked up from Egyptian magick. It's a bit more advanced stuff, and may even seem a bit creepy at first. (Egyptian magick and rituals can sometimes delve into powerful forces and tend to register high in the 'creepy' factor.)

So this one is **not** for everyone. If you decide to use it, ease into it and stick to the instructions given below. Don't play around with it too much (i.e. don't start adding your

own creative ideas to it) because its very easy to cross the line and end up in a nasty, dark place, mentally.

With that said, here's the technique...

### **Stepping In**

This technique is basically about stepping into someone else, and influencing them from the inside. Here are the steps...

1. Stand up straight, close your eyes and visualize your target standing in front of you, about a foot away, and facing away from you, i.e. she's looking in the same direction that you are looking towards.
2. Once you have visualized her form in front of you as clearly as you can, it's time to test the waters first. You can do this by taking your right hand and inserting it into the form of the person in front of you. (You will actually need to move and place your physical hand into the mental form you've created in front of you.)

Now, open yourself up to any sensations or impressions you're getting. What you're doing is trying to get a read on your target's mental and emotional state. You want to get a sense of where she is mentally and emotionally.

If you get a nasty, yucky or otherwise negative vibe, **stop!** Do not continue with the rest of the steps.

A negative vibe usually means that this person is in a bad place at the moment. She may be sad, upset, angry, or even depressed. It doesn't matter what it is specifically. This person is not safe to be stepped into. If you do, her negative energy could affect you adversely.

If, however, you feel a pleasant, happy, fun, or even a neutral energy, you can choose to continue with step 3 below.

(I should also mention here that if you *yourself* are not in a positive place, mentally and emotionally, at the moment, do **not** do this process right now. It is not very nice to infect others with your crap. Wait until you are in a good, positive place before continuing with the rest of the steps below.)

3. Now that you have 'tested the water' so to speak, you can step into this person.

With your right foot, take an actual step into the form of your target, in front of you. And then, bring your left foot forward so that you are now occupying the same space that the visualized form of your target was occupying, in front of you.

Do not simply *imagine* taking the step, that's a mistake most amateurs make. Moving your physical body by taking an actual step forward is very important here.

After you've stepped into the form of this person in front of you, become aware of anything and everything that you are sensing and feeling. Be very observant, but...do not make any assumptions of your own and do not take any of your pre-existing thoughts or emotions with you. (You can use the “mind clearing” technique before you do this process.)

Your goal is to get in touch with **her** impressions, emotions and experiences, not your own.

Just be relaxed, calm, and pay attention to what's going on while you're occupying this 'space' in front of you.

Obviously, some people are more perceptive and intuitive than others. If you don't feel or sense anything, don't worry about it. It's no big deal.

Remember that this is your *first* attempt. You'll get better with practice, just as you've done with everything else in your life (including learning to walk – which didn't happen overnight.)

4. With some practice, you will be able to sense what the other person is feeling, and even what she is *thinking*.

Naturally, that leads to your being able to influence her thinking. Since you have stepped into her form, and are on some level joined with her, at least psychically, you can start to infect or nudge her thoughts and feelings while you're in there.

To do that, you have to imagine what it would be like to actually **be** her.

You entered into her in a neutral, mental and emotional state. Now, let **her** thoughts and feelings start to take over so that you can become her.

This will seem a little (or a **lot**) weird, especially if you're a man entering into a woman's space. Men and women think differently - and they especially *feel emotions very differently*.

So, it's very likely that you may suddenly be overcome by some ‘alien’ thoughts and emotions. Be ready for this and don't let it startle or spook you.

Take a few minutes to adjust to this new experience and perspective. And, find your balance without affecting her current state too much.

From there, you can subtly nudge her current state. Don't do this too abruptly or it will backfire. Take whatever her current mental/emotional state is and go from there. Build on that. Transition as smoothly as you can.

Example: If she's feeling peaceful and relaxed, you don't want to jump from there to feeling sexual right away. There are several steps in between those two points that you have to go through first.)

Start by thinking happy, pleasant thoughts. (*Feel* them as well, so that your emotions change too. As yours change, hers will start to be affected as well.)

Then, move to a sense of “interest and intrigue,” maybe even fascination. (Just think of a time when you were totally fascinated by someone. You can prepare for all of these ahead of time - before you ever step into her.)

Next, you could start thinking of romance, maybe a first kiss, that first brush of your hands or bodies which sends a wonderful shiver through your body.

From that point, think of it as foreplay and slowly build on the thoughts and emotions. Arousal and building tension could be next.

And finally, you want to introduce sensual and romantic thoughts of *yourself* into the process. (Remember, you are not you right now. You are **her**. So, you are now thinking of being attracted and turned on by **yourself** - from her point of view. That's the ultimate goal of this technique.

I won't lie...this is going to feel weird as hell, especially the very first time, and probably every other time too. (I warned you when we started that this one may seem creepy.)

And, believe me, your own emotional range will grow like crazy. :-)

As I mentioned earlier, go slow with this one...and if you feel too weird or spooked, STOP doing it. I'm serious about this. Do not continue with this unless your own head is in the right place and you have full grasp of your composure.

## **Open the Door**

You've been given some powerful techniques above, especially that last one.

You now have enough knowledge to seduce someone from first visual contact to all the way into bed. That's no joke.

Some of the techniques I've shared will work right away, on your first attempt, and you will see some cool stuff happening. Others will take more practice, depending on where

you are mentally and emotionally in life. And, yet others will become more powerful and refined, the more you play with them and practice.

As such, if this is your very first attempt at learning to communicate in this way (using psychic seduction,) you may not be able to take a woman all the way into the bedroom using only psychic seduction.

So, you may need to use (at least for starters) some verbal communication as well, in order to seal the deal, i.e. enjoy that intimate physical connection with her.

This may happen on the same day/evening that you meet her, or it may take one or two additional meetings. Again, all of that depends on how well you're able to use this newly-learned skill of psychic seduction.

That means, you must be ready for this next step, which will consist of one of two things:

1. She will approach you and strike up a conversation, ask you for the time, or make some random comment to break the ice and get you to talk to her, pretend to accidentally bump into you, etc.

...OR...

2. She will give you enough signals to get you to go up to her and start a conversation.

If option #1 doesn't happen, don't make a big deal out of it. Keep in mind that most women are not used to approaching guys. (So pay attention to the signals and vibe she's giving off.) Also, your skill in psychic seduction as well as how well you choose your target will dictate whether she approaches you or waits for you to approach her.

(Remember, the more you practice this stuff, the better you will become at using it.)

If she is compelled to want to approach you or bump into you, you have to do your part too. You have to "**open the door**," and throw down the 'welcome' mat, i.e. make it *easy* for her to approach you.

That means...

- Look friendly! Don't have a frown or an upset/angry look on your face. Smile.
- Do not appear busy or tied up
- Do not talk on the cell phone or be fiddling with your phone (text'ing, etc.)
- Do not start looking like you're involved in a deep discussion with your buddy
- Do not be in a large group or she may find it intimidating to approach

I'll make it easy for you. Think about what most guys go through before approaching a beautiful woman. Now, think about all the excuses they could come up with, as they start walking towards her. (Oh she looks busy, she's on the phone, she's talking to her friends, she looks pissed off, etc. etc.)

Basically... don't do any of those things that you wouldn't want her to do if you were walking up to her.

Make it easy for her to approach you.

And, most importantly, do not give off the 'creepy,' 'horny' or 'desperate' vibe. Remember, how you look on the outside (face and physiology) will play a big part in whether she feels comfortable (or still interested) in walking up to you or not.

## Verbal Exchange

Talking to the woman using words is obviously not a part of "psychic seduction" as mentioned earlier. But, it may be necessary, especially in the early stages while you're still honing your psychic seduction skills.

Also...since humans are generally used to communicating with spoken words rather than psychically, you will be talking to her using spoken words at *some* point during your interaction with her anyway.

The focus of this report is "psychic seduction" so I'm not going to give you the "word-for-word" language on what you should be saying to her to seduce her further, and more easily, into bed. (If you're interesting in improving your one-on-one verbal seduction skills, you may want to check my other seduction products out.)

I will, however, give you one **monster tip** here that will make your verbal communication with her more seductive, sensual, and even erotic.

Here it is...

While you're talking to her in an easy-going, friendly manner (that's how you will appear on the *outside* anyway,) on the inside, you can continue imagining the two of you locked in a passionate, sensual embrace.

Visualize you and her connecting with each other sensually as well as emotionally. ..but do not let her see this on the outside, i.e. through your face and physiology.

As you're talking to her, you could be talking about the weather, or traffic, or whatever...but your voice, your eyes, and your *energy* will exude a strong seductive and sexual vibe.

This will drive her crazy and pull her towards you even more.

The trick again is very sneaky...she will feel a strong, seductive and sexual energy around you...but...since you're not showing any signs of this energy on the outside, she will think that **she** is the one responsible for creating it!

In other words, she'll believe that all of this energy is there because she feels attracted to you, and wants to be with you, period. The more she feels this attraction towards you, the more she will want to be with you...and the more she will want to be with you, the more attraction she will feel towards you...and this spiral will continue to drive her crazier and crazier for you.

Very sneaky. Very powerful.

## **Physical Connection**

Just like verbal communication, physical connection, i.e. "sex" isn't exactly a topic that this report is about. So, I'm not going to give you "how-to" tips on becoming a better lover and driving your woman wild in bed. (If you'd like to learn more about this subject, if you'd like to give your lover mind-blowing orgasms in bed every single time, get my other reports and manuals that are focused on that specific area.)

Okay...while physical connection isn't exactly what this report is about, that connection is still the next logical step in your interaction with the woman you are seducing.

You will, at some point during your seduction process, have sex with her. That is, after all, one of your main goals, right?

So... I would like to give you one of my best "amazing sex" tips below. (Consider it another cool bonus for getting this "psychic seduction" manual. :-)

It actually fits in very well here because this tip isn't about some "physical technique" that you'll try on her. No, this one is very different... it is something that you will do *with* her instead of *to* her. It is a shared experience, which is what will make it feel amazing.

You have already become familiar with the power of energy and thought forms from the earlier techniques and exercises in this report. Now, we'll take that learning a step further, and blow her mind in bed.

Here are the steps...

1. Fill your mind with the most amazingly sensual and erotic thoughts. I want you to become so turned on that you'll be "ready" for sex. (If you're right there with the women, imagine her naked and the two of you having incredible sex.) Use whatever imagery you have to, to get there.
2. Now, turn your awareness inside so that you can get in touch with the feelings and sensations you're experiencing in your body.
3. Give those sensations and amazing feelings a color. (Just close your eyes and notice which color best associates to the sensations and feelings you're experiencing when you're extremely turned on. It can be more than one color too, or a combination of colors. Take whatever color(s) your subconscious mind gives you and use it.)
4. Let this color (or colors) expand and intensify. Allow this colored energy to consume your entire body, especially your chest, torso, and groin areas.
5. Next, let these colored energies to intensify around your fingertips, your lips, tongue, and your penis.
6. These parts of your body have now become intensely charged with this amazing sensual energy.
7. Now...touch her with your fingertips and visualize all those amazing colors flowing from you into her. Everywhere you touch, the color and energy consumes those areas of her body. Visualize her melting in ecstasy as these colors soak into her.

Do the same with your lips and tongue. Everywhere you kiss her, lick her, including her private areas, start to soak up these wonderful colors and start to glow and tingle with wonderful sensations. She feels amazing.

And, yes...do the same with your penis. Everywhere you touch her with it, and even when you push inside of her, imagine all those intensely sensual colors taking over her and bringing her body (and mind) to the edge of her sexual peak.

8. You can even allow her to participate. Ask her what she feels when you touch her. See if she can guess the colors and sensations that you're visualizing her to be overcome with.

Whatever color she gives you, merge that color with your own colors and share the visualization together.

This is one of my favorite techniques, and you will be amazed at the response you get from her.

Try it. But don't blame me if she becomes addicted to your touch, kiss, and everything else. :-)

## **A Warning...**

I've said it before, and I'll say it once more...the techniques and exercise I share in this report are very powerful.

Have fun learning and using them. But, be careful with them! Don't go overboard.

If you are not interested in dating or a long-term relationship with one specific person, if don't want to create a long-term connection between the two of you, i.e. if you're not interested in seeing her on a regular basis, use your own judgment when using the techniques shared in this report.

Either don't use some of them on her...or go super easy, super light with them.

If you pour it on too thick, if you intensify the feelings too much, you may get her obsessed over you, while **you** are planning on moving on. That is not good.

Some guys will do this just to get a brush to their ego. So, they can tell their friends, "Oh look...I don't wanna see this hottie, but she keeps calling and following me around. What a freak/stalker, etc."

Those games are for insecure boys, not for real men.

My advise is, don't play those games. You're delving in the psychic world now...a world of "energy." And, energy has an interesting way of *always* wanting to balance things out.

In other words, don't f\*\*k with other people's lives and emotions unless you want life to f\*\*k with yours. I'm sorry but it had to be said.

“What goes around comes around” is much more apparent - and immediate - in the psychic realm.

If you still wanna treat people badly with this stuff, despite my caution, don't blame me when really bad shit starts happening to you and your life.

You've been warned. :-)

I've written this manual to help you fill your life with pleasure...and *also* fill the women's lives with almost as much pleasure.

You are now part of a very small group of men who have the knowledge to make women melt with ecstasy, even before you ever talk to her.

Share this gift with them!

Have fun with this stuff. Use it to make women's (and people's) lives better than they already are!

Make them feel amazing, both in and out of bed, and you'll find that life keeps giving you more and more of what you want (yes, including a never-ending supply of beautiful, hot, sexy women. :-)

Enjoy!
