#### Ink testing results

- **Yudu Inks**
- Perfect consistency to produce a nice, crisp image
- Screw off top allows for ink salvage
- Ink easily washes out of screen when cleaned up prior to ink drying
- Allows for screens to be saved for future use
- Water-based inks make cleanup easy

- **Textile INKS**
- Very runny
- Couldn't easily save ink
- Ink bled through t-shirt onto platen
-

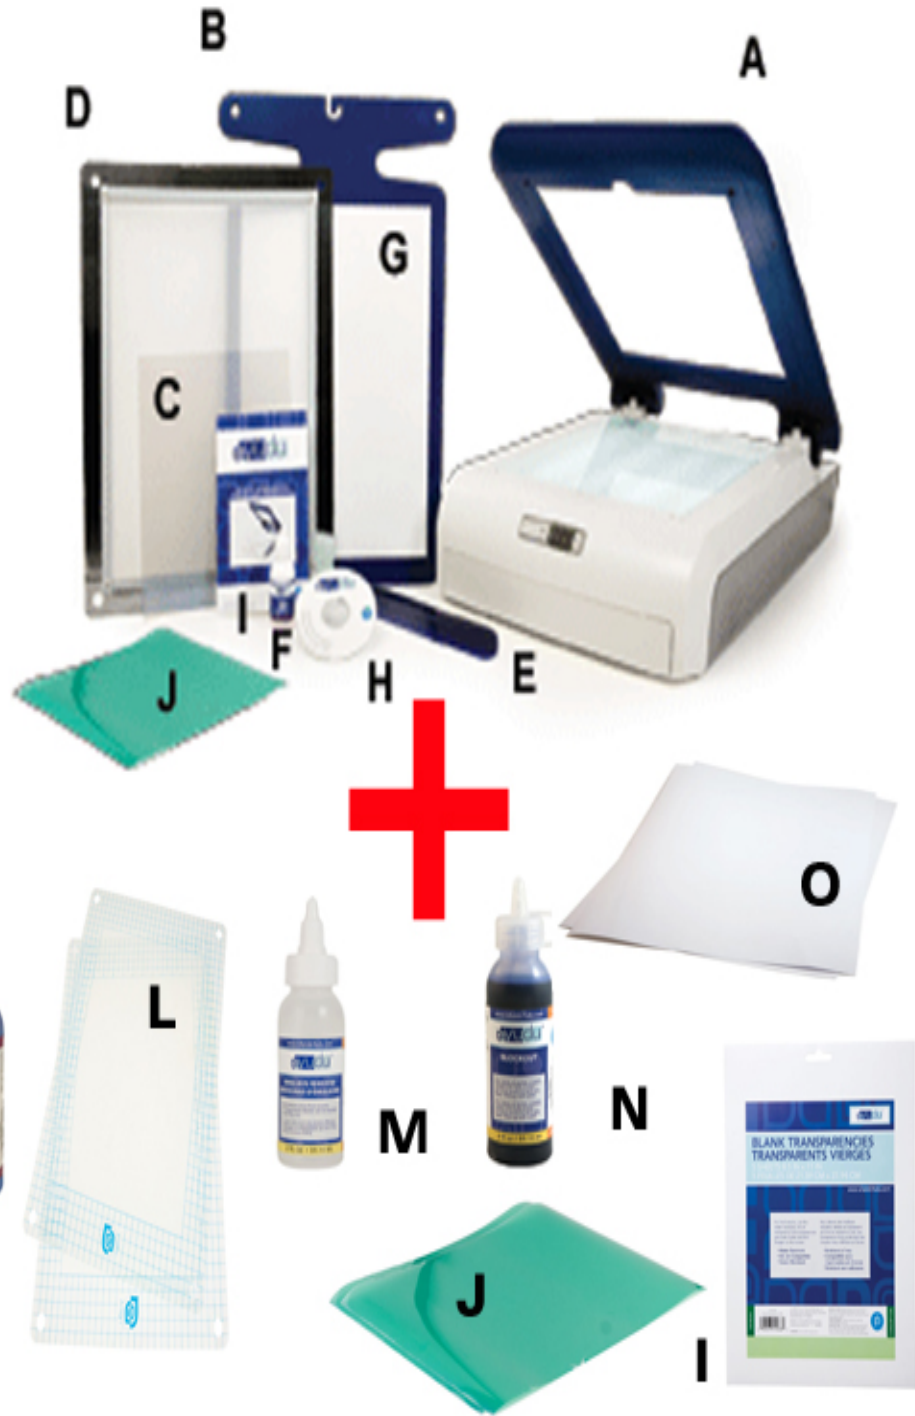

- **Fabric Paint**
- Design was faded
- Not a nice, crisp image
- Ink dried instantly onto screen and ruined screen
- - **Hard to clean off**
- - **Plugged up image on screen**
- Stained squeegee

- **Fashion Paint**
- Opening in bottle is too small to reuse ink
- Ink plugged up and ruined screen

- **Ruined Screen**
- This screen has been washed, but the fabric inks have remained lodged in the screen, ruining it for further use.

**Show your originality and let the world know who you are. Be different and let your own voice be heard. You don't have to settle for what every one else is wearing, or spending time looking for a T-shirt or piece of clothing that expresses the real you. With Yudu screen printing system you'll be able to create and print your own designs. It's the easiest and cleanest way to let your creativity shine through and show the real you. The Yudu Personal Screen Printer is not just for T-shirts and apparel, but also for home décor, art prints, posters, cards, schoolwork and much more. All you need is a computer and an ink jet printer and the possibilities are endless YU can DU it with Yudu.**

**Yudu Transparencies,**  
**With this water-resistant ink-jet transparency, you can create your own designs on your computer, print them off, and then use them in your Yudu machine. You can also draw directly on the transparency to make a truly unique design. These smear resistant transparencies generate sharply defined images to burn onto the emulsion sheets. For best results, use with an ink-jet printer.**

### **Yudu 110 Mesh Screen**

**This 110 mesh screen has a huge 11" x 14" print area, making it perfect for large, complex designs. The steel constructed screen can be used again and again for new designs with the removal and reapplication of Yudu emulsion sheets. Multiple screens make multicolored prints possible, and the fine mesh gives you greater control over the deposit of ink on your project**

**Yudu Emulsion Sheets,**

**Emulsion sheets allow you to reuse screens by letting you burn new images so you're never stuck with doing the same design over and over again. Its no mess application with water not only dries quickly, but it also produces an even coat of emulsion so you can produce higher quality prints.**

### **Yudu Emulsion Remover**

**This emulsion remover lets you reuse your Yudu screens by helping dissolve the emulsion on your old screens so you can burn new designs. Since the emulsion remover is biodegradable, it can safely be washed down the sink while cleaning your old screens.**

**You'll be ready to reuse your screen in minutes**

### **Yudu Blockout**

**Yudu Blockout lets you fix your mistakes, allowing you to repair screen images instead of forcing you to start the burning process all over again. Not only is Yudu Blockout nontoxic and nonflammable it also is easy and quick to clean up with water.**

### **Yudu Ink Primary and Black**

**Yudu inks are water based, nontoxic, and easy to clean up, so you can spend your time creating, not cleaning. They are perfect for apparel and other fabric items and offer excellent coverage for opaque images.**

**Apparel with Yudu inks can be washed once the inks have been properly heat set, and the inks are long lasting. With over twenty colors to choose from, you can pick the perfect color for your project.**

### **Yudu Adult T-shirt Platen**

**The adult t-shirt platen snugly fits onto the Yudu machine and the platen adhesive sheets hold a t-shirt or other article in place for better printing and more accurate registration so you can do multicolored designs without worry. The handy hanging feature allows you to save precious counter space while doing multiple prints. This durable platen is designed to fit adult-sized shirts but can be used to hold a variety of items in place.**

**Yudu Platen Adhesive Sheets**

**The platen adhesive sheets hold a t-shirt or other article in place for better printing and more accurate registration so you can do multicolored designs without worry.**

**Yudu Registration Panels,**

**These transparent registration panels fit the Yudu machine for simple, yet precise registration. The printed grid makes lining up multiple screens for multicolored designs a snap. The registration panel also helps protect the light table from scratches, ink, and tape residue.**

### **Yudu Squeegee Pro**

**The comfortable plastic grip on the Squeegee Pro means you can be comfortable pulling dozens of prints. The rubber blade is perfect for screen-printing on fabric, and the rounded edges allow for the smoothest possible deposit of ink so your prints look crisp and professional.**

**Please write your size for your White T-Shirt  
when you check out in the box: Let instructions to the Seller**

**Show your originality and let the world know who you are.  
Be different and let your own voice be heard. You don't have to settle  
for what everyone else is wearing, or spending time looking for a T-shirt  
or piece of clothing that expresses the real you. **YU** can **DU** it with **Yudu**.**
