

## Podium Flash Installation Note

### Installing Podium Flash

Before you can run Podium Flash you must install it on the hard disk of your computer.

Follow these steps to install the software:

- Switch on your computer and log on in the normal way.
- Insert the Podium Flash CD into the CD drive. The Podium Flash Setup Wizard dialog will appear automatically.
- Click **Next**.
- Choose the installation folder for the software and click **Next**.
- Click **Next** again to complete the installation.
- Click **Close** once the installation is complete.
- The installation process places shortcuts to Podium Flash on the computer's desktop and Start menu.

#### NOTES:

1. If the Podium Flash installation process does not start automatically, you can start it manually by using My Computer or Windows Explorer to navigate to the contents of the CD and then double-clicking the file SETUP.EXE.
2. Podium Flash requires the Microsoft .NET framework to be installed on your computer. To do this run *dotnetfx.exe* from the installation CD before installing Podium Flash.

## Using Online Help

Once Podium Flash is running you can view items in the Help menu at any time. To display the online Help file press F1, choose **Help** ➔ **Topics**, or click the Help button  on the main toolbar.

## User Manual

The Podium Flash User Manual is supplied on the installation CD in Adobe PDF format.

## Updates

Check the Downloads section of the PolyLogic web site ([www.polylogic.co.uk](http://www.polylogic.co.uk)) for updated versions of both the Podium Flash software and the User Manual.

## Errors and Omissions

We want your experience of our software to be a good one. However, if you spot something wrong or you think we've missed out a useful feature we would appreciate it if you told us first.

Email your comments to: [support@polylogic.co.uk](mailto:support@polylogic.co.uk).

## Uninstalling Podium Flash

Podium Flash can be removed from your computer by selecting the **Add and Remove Programs** option within Windows **Control Panel**. Find Podium Flash in the list of installed software, select it, and then click **Remove**.

This will remove the Podium Flash software together with its shortcuts and configuration entries but all logged data, including any sample data provided on the installation CD, will remain on the hard disk of the computer.
