USER MANUAL

Product and Service Information: http://www.elane.net

INTRODUCTION

The PS3000N Electronic Postage Computing Scale is an electronic compendium of postal services which incorporates and displays the cost of virtually all basic and supplementary postal services. It is graduated in 1 gram steps throughout its 5000 gram capacity and displays the weight of any item placed on its weighing platform together with the service(s) selected and total postage cost. It also has manual weight entry of up to 20 kg to calculate parcels that are beyond scale's weighing capacity.

All countries worldwide are programmed into the PS 3000N's database, therefore it is not necessary to refer to other lists and postal regulations. Simply key the name of the country into the scale via the alphanumeric multi-function keyboard and the scale will automatically display the postage rates applicable to that country.

SPECIFICATIONS

Capacity	5000 grams	
Accuracy	1 gram	
Power Supply	9V AC/DC adapter	
Power Consumption	Approx. 400 mW	
Tare	1500 grams	
Minimum weight	2 grams

SERVICE

To be able to update you about new rate changes or other improvements please register your PS3000N Australia scale at http://www.elane.net/product_registration.php. For more information on product updates, please visit www.elane.net.

FITTING THE WEIGHT PLATFORM TO THE SCALE

- (i) Gently fit the weighing platform to the body of the scale via the location points. Make sure that the semi-oval recess faces the front (keyboard) end of the scale. Do not press hard or use force.
- (ii) Plug the mains adapter supplied with the scale into the mains and connect the adapter's output plug to the input socket at the rear of the scale.
- (iii) Place the scale on a firm level surface. Switch on the mains supply.
- (iv) Press the "ON/OFF/TARE" key.
- (v) The display will show "STANDARD, 0g" and the minimum rate of postage for domestic standard letter.

The PS3000N Australia Keyboard

DC (DELIVERY	Press this key when you wish to add on receive advice to the article. It also serves as letter "Z".		
CONFIRMATION/Z			

SERIAL NUMBER DISPLAY

To check press

Per T Per Person to Person while scale is going through Selftest.

The display will read: Serial Number

XXXXXXXX (the 8-digit serial number of the scale)

FRANKED AND METERED RATES SETTING

Before using your new PS 3000N, you must set whether it will default to assessing Franked and Metered rates or not. To set the default, please follow these steps:

1. Press the 'ENTER ZONE key.

The scale display will show

1: Lodgment	SET:
2: FM/NoFM	

2. Press the number 2 on the keypad. The scale will prompt

1: FM	
2: NO FM	

3. Press 1 if you want to use Frank and Metered rates or press 2 if you want to use the normal rates. A confirmation message is displayed.

LODGMENT ZONE SETTING

IMPORTANT: you must set this function in your scale before assessing postage for domestic mail and parcels.

Before using your new PS 3000N, it is very important that it be told where it lives. This is necessary so that the internal computer can assess postal charges from your location to any destination within Australia.

To set the Lodgment zone,

1. Press the 'ENTER ZONE' key.

The scale will prompt

1: Lodgment SET:	
2: FM/ no FM	

2. Press 1 on the keypad. The scale will display a "Lodgment Zone Entry" message for a short while and then it will prompt

Enter Postcode	0

3. Type a Postcode. Complete the entry by pressing "ENTER"

Refer to the Postcode table on the next page to identify the zone applicable to your own address.

If a number is entered outside the given range, the scale will display an "Enter Postcode" message. The scale will again ask you to enter a correct Postcode number. Any subsequent powering-on of the scale will no longer require you to enter a lodgment zone because the zone has already been stored internally in the non-volatile memory of the PS3000N scale.

* Zone with lower charge is used.

† For charging purposes these Post Codes are considered to be part of Victoria.

Broken Hill (2880) is considered to be part of South Australia.

CUBIC WEIGHT

CUBIC weighing is applicable to the Domestic Parcel services (e.g. Local Rate, Within 50km, Parcel Post, Express Post Parcel). When the weight is greater than 1000g, press the Cubic weight key (also key "0"). After which, the three dimensions (length, width, or height in any order) will be entered one by one. Key in the number followed by the enter key. The dimensions are limited to 105cm.

When the three dimensions have been entered, the appropriate postage is displayed. The display will show the equivalent Cubed weight (if greater than actual weight) and corresponding postage. A "(C)" is appended to the weight display denoting it is CUBED. Press the CE key to exit CUBIC and go back to normal weighing mode.

OPERATING THE PS 3000N POSTAL SCALE

The PS3000N is easy to use and user-friendly in operation. First select which basic postal service you wish to use (e.g. STANDARD) then decide whether you wish to utilize any of the supplementary services (e.g. REGISTERED) and simply press the appropriate keys in turn. The display will guide you through, asking for the information it needs and display the services selected and the total postage.

It is only necessary to input the destination country for the item being posted outside Australia. However, not all of the international services and supplementary apply to every country. There are different regulations regarding maximum weight limits, postal services, etc. The PS3000N database has all regulations in memory and therefore eliminates guesswork and trips/calls to the post office.

To make full use of the database functions, it is advisable to enter a country by its code or by typing the name of the country. The entry of the domestic parcel zone is sufficient for prompts asking postcode.

For ease of use, each of the basic services is the subject of a separate chapter in this Manual and guides you through all necessary steps including the supplementary services.

Domestic Post - STANDARD LETTERS

The PS3000N "wakes up" in the Domestic Standard Letter mode when first switched on. If the scale has been used for other services press the "AUSTRALIA" key.

The first line of display confirms the basic service selected and the second line displays the minimum rate of postage for that service.

Place the item to be posted on the weighing platform. The second line of the display will change to indicate its weight in grams and the equivalent postage.

Note: The maximum weight is 250 grams. If the weight exceeds limit, the display will automatically switch to Intrastate Large Letter.

Domestic Post - STANDARD LETTERS BARCODED AND METERED

Pressing "BARCODED AND METERED" when Small Letter service is selected will display Barcoded and Metered Small Letter service.

Domestic Post - LARGE LETTERS

This is for sending Large Letters to an address in any state.

Note: If the weight exceeds limit, the display will automatically switch to Parcel Post.

Domestic Post - LARGE LETTERS BARCODED AND METERED

Pressing "BARCODED AND METERED" when Large Letter service is selected will display Barcoded and Metered Large Letter service.

Domestic Post – CLEAN MAIL

Pressing "Clean Mail" when Small Letter service is selected will display the Clean Mail service. From Large Letter it goes to Clean Mail Plus.

Domestic Post - AEROGRAMME

Pressing this key in Domestic service will prompt you to Aerogramme service.

Domestic Post - POSTCARD

Pressing this key in Domestic service will prompt you to Domestic Postcard service.

Domestic Post – ORDINARY METERED MAIL

Pressing "Ordinary Metered Mail" will display the Ordinary Metered Mail service.

Domestic Post – REGULAR PARCEL

Pressing "PARCEL POST" will switch to the Local Parcel Rate service.

Domestic Post – LOCAL COUNTRY PARCELS

Pressing "LOCAL RATE" key will display Local Country (Surface) parcel,

For Parcels over 500g, where delivery includes carriage by air,

PRESS DISPLAY

Domestic Post - PARCELS WITHIN 50 KM

Pressing the WITHIN 50 KM key will prompt you to Local Parcels lodged at the post office Within 50 KM of the delivery service.

Domestic Post - PARCELS OVER 500G

When article sent in domestic mail is over 500grams, Parcel charges and conditions apply. You will be asked to enter the destination's post code or zone.

P.CODE/ZONE

- 1)
- Pressing "CE" will enable you to cancel this service. Or press "ENTER ZONE" if the destination zone or if information required about the city is unknown. For more details please refer to special 2) functions section of this manual.
- Or input the ZONE NUMBER or the POST CODE 3)

Pressing "AIR MAIL" will prompt you to Parcel Air service and display the corresponding postage rate.

Press "PARCEL POST" again to enter new POSTCODE or ZONE.

To select EXPRESS POST Parcel, press the "EXPRESS POST PARCEL" key.

International Post – STANDARD LETTER

Pressing the "OVERSEAS" key will automatically prompt you to International Air Letter service.

- 1.
- Pressing "CE" will enable you to cancel this service. Or press "SEARCH" (CASH ON DELIVERY KEY) if the destination country is unknown. For more details, please refer to special functions 2. section of this manual.
- 3. Or enter the 3-digit country code. Example:

International Post - FRANKED AND METERED

Pressing "FRANKED AND METERED" when the International Letter or Parcel service is selected will display the corresponding franked and metered rates. The letters "FM" will be displayed on the second line denoting this mode.

International Post – GST Included

Pressing "GST" when the International Letter or Parcel service is selected will display the corresponding rate including GST. The letters "GST" will be displayed on the second line denoting this mode.

International Post - POSTCARD

Pressing this key in international Air service will automatically prompt you to International Postcard service.

PRESS	DISPLAY
POST	OVER AIR P. C100
CARD	20gram \$1.40

Note: The maximum weight is 20grams. If the weight exceeds this limit, the display will show "EXCESS" until other basic services are selected or the weight is removed.

International Post - PARCELS

Pressing this key in International Air/Sea Parcel service will automatically prompt you to International Air/Sea Parcel service.

Pressing "SEA MAIL" enables you to switch the service to SEA Parcel.

Pressing "AIRMAIL" enables you to switch the service to AIR Parcel.

Pressing "OVERSEAS" enables you to enter new destination and prompts you to International Air Letter service.

EXPRESS POST

Pressing this key will automatically prompt you to Express Post services.

PRESS DISPLAY

EXPRESS POST ENVELOPE OR SAT

The display will show:

Press	AUSTRALIA
or	OVERSEAS

Pressing "AUSTRALIA" will prompt for the domestic Express Post prepaid envelopes or satchels.

1=C5	2=B4
3=500g	4=3kg

Pressing "OVERSEAS" will prompt for the Express Post International prepaid envelopes and Non Prepaid Parcels.

EXPRESS F	POST (I)	
1=C5	2=B4	3= NONP

Press the digit to the corresponding service desired.

*Note: 3=NONP option is the new Express Post International Non Prepaid service of Australia Post effective September 4, 2006.

EXPRESS POST PARCEL

Pressing this key will select and display EXPRESS POST PARCEL rates.

EXPRESS COURIER INTERNATIONAL (formerly EMS - Express Mail Service)

Pressing this key will automatically prompt you to Express Courier International (ECI) service.

- 1)
- Pressing "CE" will enable you to cancel this service. Or press "SEARCH" key if the destination zone unknown. For more details, please refer to special functions section of this manual. 2) 3)
- Or you can enter the 3-digit code. Example:

Pressing "ECI" key again will display ECI Merchandise rates. Pressing "OVERSEAS" enables you to enter new destination and prompts you to International Air Letter service.

SUPPLEMENTARY SERVICES

Almost all of the supplementary services offered here are available on the PS 3000N postage computing Scale. Please note:

- in a number of instances, more than one supplementary service can be used for the same item. (e.g. it is possible to Register an article and use a. the Cash on delivery service for it)
- if supplementary service key pressed is not applicable to the basic service selected, "ERROR" will appear in display. b.
- if the selected country does not accept the service or have lower limits than the weight. "SERV NOT AVAIL" or "EXCESS" will appear in the C. display.

INSD

Person to Person

Provides proof of posting and signed record of delivery of articles. A single rate of charge applies which is automatically added on the PS 3000N to the cost of the service(s) being shown on the display when this key is pressed.

Insurance

Provides additional cover for articles over \$100, and proof of lodgment and delivery. Insurance should be used to obtain cover up to \$5000. Input the cover required by pressing the appropriate 0 - 9 keys (the scale will automatically switch to numeric input) and then press the "ENTER" key. The scale will automatically add on the appropriate charge for the value entered to the cost of the service(s) being shown on the display.

Delivery Confirmation

Provides the sender with a card signed by the recipient, proving that the dispatched article has been delivered. A single rate of charge applies which is automatically added on the PS 3000N to the cost of the service(s) being shown on the display when this key is pressed.

Registered Post

Protects valuable articles due to specialized handling and documentation procedures, and provides proof of lodgment and delivery. A single rate of charge applies which is automatically added on the PS 3000N to the cost of the service(s) being shown on the display when this key is pressed.

Cash On Delivery

Collects charges for goods and/or postage. Two types of COD is available here, COD(P) where only the postage (including fees) is to be collected from the addressee, and COD(P+C) with all other COD options. A single rate of charge applies which is automatically added on the PS 3000N to the cost of the service(s) being shown on the display when this key is pressed.

SPECIAL FUNCTIONS

The PS 3000N Postage Computing scale has a number of special function keys which provide access to the information contained in its databases and make the scale extremely versatile.

Key C (i/1/C)

The letter i stand for "information". It is possible to use a combination of several supplementary services. The scale only shows abbreviated messages for supplementary services that have been selected. You may lose track of what selections were selected. Whenever at least one supplementary service has been selected in conjunction with a basic service, pressing the "i" key will cause the scale to display each of the services selected one by one, showing the individual cost of each, and then re-display the total cost. This key can also be used to confirm the name of the Country selected.

Key D (** »/2/D)

The ** symbol indicates that this key can be used to disable the audio tone which is emitted when keys are pressed to confirm that the scale has responded to input. The tone can be re-enabled by re-pressing the same key or switching the scale off and on again.

Key (Registered Post or Security Post/SPC/<--)

This key has two special functions "SPC" and "<--". The "SPC" function is used to enter a space between names when inputting the name of a Country or City (e.g. NEW ZEALAND / NEDLANDS). The "<--" function is used to browse backwards through the PS 3000N's database. Once a Country or City name has been input alphabetically, it is possible to browse (i.e. in the reverse alphabetical order) from that point through the list of Countries or Cities held in the database by pressing this key. Each key depression moves back one name.

Key (COD/SEARCH)

There are two entries to the search facility:

- 1. When the "OVERSEAS" is pressed in international service.
- 2. Whenever a basic service is selected for an international destination.

The scale offers the choice of entering the destination code directly (if known) or through inputting the name of the country (international post) alphabetically by pressing the "SEARCH" key. When the key is pressed the scale displays "Enter COUNTRY" enabling the name of the Country to be input using the appropriate alpha keys. Key in the first few letters of the Country (alphabetically) commencing with the entered letters will appear on the display together with information about that country. For example:-

If the Country shown is the one desired press the "ENTER" key. If it is not then press the "<--" or "-->" keys to browse up or down the list of Countries held in the PS 3000N's database until required Country appears and then press the "ENTER" key. The Country name will be shown on the display for a few seconds and the display will then change to show the service selected and the 3-digit country in the first line of the display; weight and the postal cost in the second line of the display. For example:

OVERS AIR	STD130
200g	\$6.30

Key (ENTER ZONE)

When the display prompts you to enter postcode "P.CODE/ZONE", press ENTER ZONE key if the destination zone or if information required about the city is unknown. For example:

When display prompts "P.CODE/ZONE"

If the City shown is the one desired press the "ENTER" key. If it is not then press the "<---" or "-->" keys to browse up or down the list of Cities held in the PS 3000N's database until required City appears and then press the "ENTER" key.

Key (ON/OFF/TARE)

The TARE function is used to offset a weight. The weight of an article on the platform will be treated as ZERO and all other added weights to the scale will compute from this point. Upon removing the 'tarred' article the display will show a NEGATIVE weight and the TARE key should be pressed again to clear this display and reset to 0 gram display.

An overload tone and message will indicate that the maximum tare weight of 1500 grams has been exceeded.

Key CE

Should you enter an incorrect input in numeric input mode, or in alphabetic input mode, simply press this key to clear and re-enter the correct data.

Key MANUAL WEIGHT ENTRY

This key is used to manually enter the weight in grams through the keyboard. The maximum weight that can be entered is 20kg. Some models of PS 3000N Scale don't have this feature.

WEIGHT(gram)

Type the weight and press "ENTER "to complete the entry or "CE" to cancel.

Pressing the "CE" button will clear the manually entered weight.

POSTCARD		Domestic Postcard

POSTAL CHARGE CHANGES

From time to time, Australia Post changes the postal charges and these charges updates are accounted for by the changing of a data memory chip, which can be ordered prior to a rate change from Xiamen ELANE. Complete instructions how to perform this change easily by you are included in the manual of the Data Chip Change Package as well as a user manual covering the changes.

KEYBOARD OVERLAY CHANGES

Australia Post changes the postal charges as well as the services they are offering from time to time. These changes sometimes affect the keyboard overlay design.

If this would become necessary you will be offered a new keyboard in case of a small change or a new keyboard is included in the Rate Change Package as mentioned above. You can be assured that in case of any changes to the postal system in the future, the PS3000N can be retrofitted easily by yourself in minutes.

Cyber-Calibration Procedures

Your scale is equipped with an AUTOMATIC calibration system. Should you require performing this Calibration by yourself you need to have a reference weight set of 5 kg.
