IMPORTANT SAFETY INSTRUCTIONS

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
10. Only use attachments/accessories specified by the manufacturer.
11. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

12. Unplug this apparatus during lightning storms or when unused for a long period of time.
13. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
14. **WARNING:** To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
15. Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

CHAPTER 1 INTRODUCTION

Thank you for choosing the Diamond Digital DX-D191P LCD monitor. Your LCD monitor is safe to use and completely free from any X-ray radiation. We hope you enjoy using our product, and would like to provide the following additional information to assist you in obtaining the best results, using the product safely and in complete comfort.

Please follow ALL instructions and cautions carefully before using this product. And keep this user manual handy for future reference.

1.1 Product Description

This product uses a 19" colour active matrix TFT (thin-film transistor) LCD panel with a protective screen, providing high quality displayed images. The maximum supported resolution is 1280 x 1024, which enables the display of complex and high quality images. In addition, the monitor also provides access to OSD (On Screen Display) controls and has built in multi-media speakers, and BNC (Composite) input and output ports.

1.2 Product Features

- High contrast colour TFT LCD monitor, supports VGA / DVI signal input up to resolution 1280 x 1024, video signal resolution up to 500TVL.
- Embedded video signal composite BNC terminal input/output.
- A complete OSD function optimises the screen display.

1.3 Package Contents

Standard package includes the following:

1. 19" TFT LCD Monitor. (Depend on the screen diagonal)
2. Power Adapter.
3. User Manual.

1.4 Product Care

1. To remove dust or dirt from the screen, use a soft clean cotton cloth and wipe gently.
2. Do not apply pressure to the screen surface while wiping.
3. Do not use any water or chemical detergent to clean the surface. Chemicals detergent may damage the surface of the LCD panel.

1.5 Product Dimension

1.6 Caution

● PRODUCT

1. Do not cover or block the ventilation holes in the back of the monitor case.
2. Do not insert any metal objects into the ventilation holes of the monitor case and be careful not to spill liquids over this product as this could result in severe injury.
3. Unplug the monitor's power cable if it's not to be used for a long period of time.
4. Do not attempt to dismantle this product. Any attempt to dismantle or remove the covers from this product will invalidate the warranty and may also result in serious injury.
5. Do not touch the screen directly with fingers. The oils from your skin may leave marks on the surface of the screen, which are difficult to be removed and may damage the screen permanently.
6. Do not apply pressure to the LCD screen. The LCD panel is a very delicate and fragile component.
7. AC Adapter holder can be dismantled when not in use.
8. When a standard base is not used, for safety concern, please use the M4 screws with flat washers and spring washers provided, length between 8 ~ 10mm.
9. If enclosed standard base is not to be used, any base assembled to the monitor should meet VESA 100 x 100mm standards.

● MAINS PLUG (2Pin / 3Pin)

1. Do not remove the grounding or earth connection from the power supply / mains plug.
2. Always remember to unplug the LCD Monitor from the power supply under the following circumstances:
 - If the monitor will not be used for a long period of time.
 - If the power supply cable or plug / connector is damaged.

(Please refer to the "User Manual" when connecting and disconnecting the LCD Monitor from any power supply or other systems and before making any adjustments to the Monitor. In the event of any unexpected situation occurring whilst operating the Monitor please switch off the power supply and remove the power cable. If the problem is not explained in the User Manual, please contact your local dealer or our customer service department.)

- If the monitor housing is damaged or broken.
- POWER CORD AND SIGNAL CABLE
 1. Do not place anything on the power cord or signal cable.
 2. Do not allow any cables from the monitor to lie on the floor in an area where pedestrians are likely to trip, causing injury.
 3. This product is supplied with a 3 line-grounding plug. The grounding plug provides an additional safety feature for anyone using this equipment and should not be removed. Please contact a qualified electrician for assistance if the grounding plug and electrical connections appear to differ from the local supply provided. Do NOT discard the safety-grounding plug.
 4. Do not overload the power cord or adapter.
 5. Do not place the power cord or signal cable in a humid area.
- ALLOCATION ENVIRONMENT
 1. DO NOT place this product on any unstable trolleys, shelves or tables as it may fall and cause severe injury and damage.
 2. Always ensure that the monitor is located in a well-ventilated area to prevent the unit from overheating.
 3. AVOID operating or placing the monitor in the following environments:
 - Extremes of temperatures, both hot and cold.
 - High Humidity.
 - Direct sunlight.
 - Excessively Dusty Surroundings.
 - Avoid close proximity to other equipment that generates a strong magnetic field.

CHAPTER 2 OPERATION INSTRUCTIONS

2.1 Front Control Panel

1. Power Switch: press to switch monitor on / off.
2. LED Indicator: power indicator.
3. Mode: press to select input signal. (See ※ **Note**)
4. Plus (+): press to increase the value of OSD option selected
5. Minus (-): press to decrease the value of OSD option selected
6. Up (Contrast): select OSD options upwards; press to adjust contrast.
7. Down (Brightness): select OSD options downwards; press to adjust brightness.
8. Menu: recall or close OSD display, enter or return selection.

※ **Note:**

On the first press, the monitor shows OSD of the current signal. Before the OSD disappears, press the button again to change the input signal source.

2.2 OSD Menu

- VIDEO (BNC Composite) Signal

	1. Colour	30
	2. Tint	26
	3. Brightness	26
	4. Contrast	25
	5. Sharpness	4
	6. Volume	10
	7. H-Position	25
	8. Language	English
※	9. Colour Temp.	Standard
	10. Scan	Over
	11. PIP	Off
	12. PIP Size/Pos.	DEF. Hot Key
	13. Recall	

※ The Colour Temp. Dependent on the region.

Above Value / data is for reference only.

2.3 OSD Function Table

● VIDEO (BNC Composite)

1. Colour	Adjust the colour density.
2. Tint	Adjust the colour tint. (NTSC only)
3. Brightness	Adjust back ground black level of the screen image.
4. Contrast	Adjust fore ground white level of the screen image.
5. Sharpness	Adjust the clarity and focus of the screen image.
6. Volume	Adjust the volume control.
7. H-Position	Adjust the left or right position of the screen image.
8. Language	Select languages: English, Chinese, French, German, Spanish, Italian or Japanese.
9. Colour Temp.	Press (+) or (-) to choose three types of colour temperature 9300°K , 6500°K , Standard.

13. Recall	Press (+) or (-) recall the default value.

CHAPTER 3 SIGNAL CONNECTOR AND INSTRUCTION

Input / Output Interface

If you choose a video input without connecting any video signal, "No Signal" will be displayed onto the screen. If a video cable is disconnected while the display is being used, "Video Loss " will be displayed onto the screen.

Note:

※ When Mode is changed, the monitor will show a blue screen, then display the selected input or display " NO Signal " .

Caution:

AVOID directly pulling any cables, when disconnecting devices from the monitor.

Always disconnect devices carefully by firmly gripping the metal or plastic connector body and gently easing the connector from its socket.

CHAPTER 4 VIEWING ANGLE

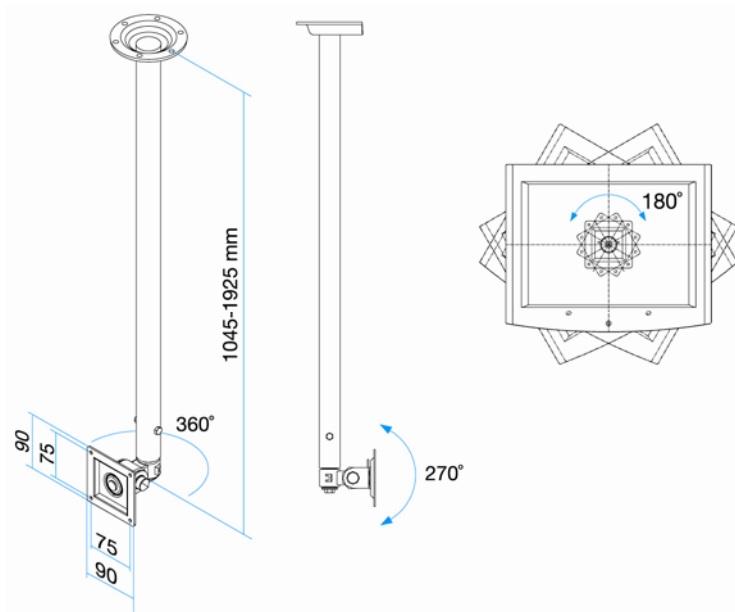

For the user's convenience, the LCD screen may be tilted according to viewing requirements. The monitor can be tilted forward up to 5 degrees or backward up to 40 degrees.

● RAK191 - RACK MOUNTING BRACKET 【OPTIONAL】

● CM191 - CEILING MOUNTING BRACKET 【OPTIONAL】

- **WB-191 - WALL MOUNTING BRACKET 【OPTIONAL】**

- **Base Dismounting Process**
(Step 1) Remove the Hinge Cover

(1-1) Insert a thin tool into the hole of the hinge cover, then pull upward and outward to remove the cover. .

(1-2) Pull the cover outward 4~5 mm as indicated by arrow A, then pull the cover upward as indicated by arrow B, then remove the cover.

- **(Step 2) Remove screws (4 pcs) and base**

CHAPTER 5 PANEL SPECIFICATION

Please refer to attach specification sheet.

MODEL		19"
Pixel pitch (H x V mm)		0.294 x 0.294.
Max. Resolution	VGA / DVI	1280 x 1024 pixels.
	VIDEO	500TVL.
Dimension (W x H x D mm)		421.2 x 405.6 x 170.0
Packing Dimension (W x H x D mm)		553.0 x 534.0 x 242.0

Power Output		DC Output: 12V / 1A.
Operating Condition		Temp. : 0°C ~ 40°C, Humidity: 20% ~ 85%.
Storage Condition		Temp. : -20°C ~ 60°C, Humidity: 20% ~ 85%.
Power Consumption		50W. (Max.)
Weight	N.W. (adapter included)	6.1kgs.
	G.W.	8.4kgs.

CHAPTER 6 WARRANTY

After Sales Service

After this product is unpacked, keep the carton and packing materials to ensure safe transportation in case of any after sales service.

The warranty is covered by a 3 year limited warranty, subject to normal conditions of use. If you experience any problems with this product please contact your local dealer or supplier for repair and maintenance instructions.

Warranty Does NOT Cover:

- ⌘ Any damage resulting from incorrect use or careless operation or handling of the equipment.
- ⌘ Any damage caused by not operating the equipment in accordance with the manufacturer's instructions detailed in the " User Manual " .
- ⌘ Any tampering or removal of the Monitor housing will invalidate the warranty.
- ⌘ Damages resulting from natural disasters e.g. flood, fire and earthquake.
- ⌘ Any damages caused by inappropriate transportation or storage of the equipment.
